REVIEW OF OPERATIONS

Artemis Resources Limited (**ASX: ARV**), ('Artemis' or 'the Company') is pleased to present its Review of Operations for the half-year ended 31 December 2025.

Artemis Resources Limited is a gold and copper focused exploration and development company with projects in Western Australia, including the Karratha Gold-Copper Project in the Pilbara and the Cassowary and Sharon Dam IOCG Projects in the Madura Province.

During the half-year ended 31 December 2025, the Company delivered a significant gold discovery at Titan East, advanced development studies at Carlow, strengthened its copper growth pipeline in the Madura Province, and progressed infrastructure optionality at Radio Hill.

Karratha Gold Project (100%)

Titan East – Gold Discovery Breakthrough

The key highlight of the half year was the confirmation of a new shear-hosted gold system at the Titan East prospect, located approximately 1.5km northwest of the Carlow Mineral Resource.

Reverse circulation (RC) drilling commenced in September 2025 and delivered a high-grade intersection of:

- **5m @ 13.1g/t Au** from 132m (25ARRC006)
- **19m @ 1.6g/t Au** from 127m (25ARRC025)

These results confirmed continuity along a northeast-trending shear zone and defined an emerging mineralised corridor over approximately 600m of strike.

Gold mineralisation is associated with quartz veining and alteration within structures parallel to the Regal Thrust, which also hosts the Carlow deposit. The Titan East area is largely covered by transported sediments, highlighting the effectiveness of drilling-led targeting.

Diamond drilling commenced in December 2025 to define the geometry and scale of the mineralised shear zone, with assays pending at period end.

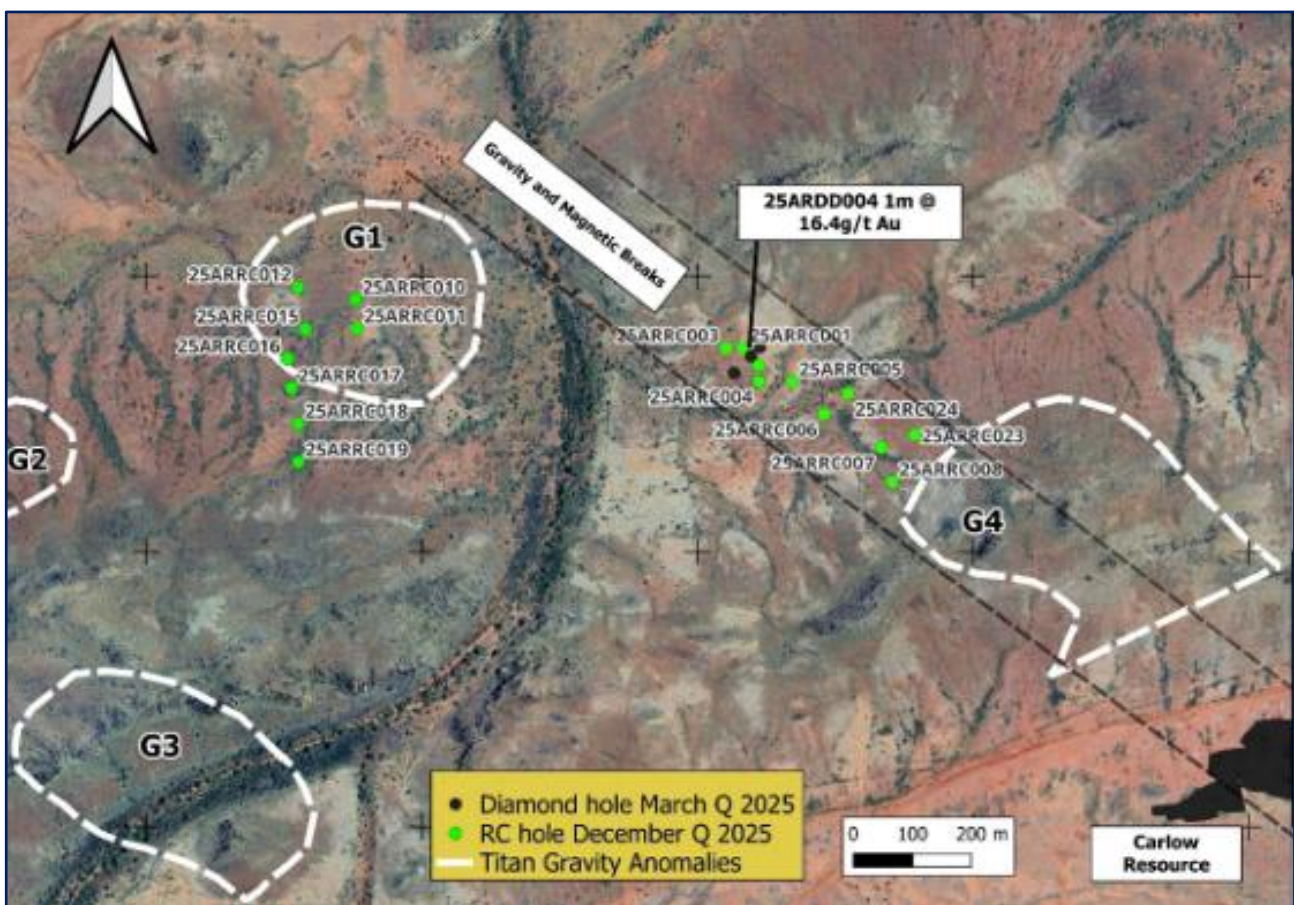

Figure 2. Satellite image of Titan area showing location of RC drill holes completed at Titan East and G1 targets during the September 2025 quarter.

Carlow Gold–Copper Resource

Carlow remains a cornerstone asset within the Pilbara portfolio and hosts a JORC 2012 Inferred Mineral Resource of:

- **374koz gold**
- **64kt copper**

The resource remains open to the east and below approximately 380m vertical depth.

During the half year, the Company:

- Initiated a conceptual mining study (Snowden-Optiro) to assess potential open pit and underground development scenarios.
- Advanced planning for extensional drilling east of the current resource and at depth.
- Evaluated development pathways under strengthened gold and copper price environments relative to the 2022 MRE assumptions.

The study is intended to guide drill targeting priorities, resource growth strategy, metallurgical work and early-stage development planning.

Madura Province – Copper Growth Strategy

During the half year, Artemis significantly expanded its exposure to IOCG-style copper–gold targets along the Madura Crustal Boundary.

Cassowary Exploration Project (100%)

The core exploration licence **E69/4266 (341km²)** covering the interpreted Cassowary Intrusion was granted in August 2025.

In October 2025, the Company executed a **Land Access Agreement** with the Pila Nguru (Aboriginal Corporation) RNTBC, securing operational access across the broader 1,129km² Cassowary landholding.

During the December 2025 quarter:

- Work programs were lodged for four initial diamond drill sites.
- Targeting focused on the core of the interpreted intrusion (Target T1) and associated structural corridors.
- Drilling preparations advanced, subject to heritage clearance.

Cassowary represents a district-scale IOCG opportunity in a favourable lithospheric boundary setting separating the Yilgarn Craton and Albany–Fraser Orogen.

Figure 4. Regional magnetic image of Cassowary Exploration Project showing Artemis tenements (granted and application) as at September 2025 quarter, WA1 tenement applications, and boundaries of interpreted rift zone.

Sharon Dam IOCG Project (Earn-In / Joint Venture)

In December 2025, Artemis executed an **Earn-In and Joint Venture Agreement with Red Metal Limited (ASX: RDM)** over the Sharon Dam IOCG Project.

Key terms include:

- Right to earn up to **60% interest**
- Expenditure commitment of **A\$5 million over three years**
- Minimum **A\$400,000 drilling commitment within 12 months**
- Existing **EIS co-funding of ~A\$220,000**

Sharon Dam is defined by coincident magnetic and gravity anomalies interpreted to represent a concealed intrusive system beneath ~250m of transported cover.

Drilling is targeted for late Q2 2026, subject to heritage clearance.

Figure 5. Magnetic image of interpreted rift zone showing interpreted Cassowary Intrusion and Sharon Dam Intrusion (50km south) showing initial planned drill holes.

Processing & Infrastructure – Radio Hill

Artemis owns 100% of the fully permitted **Radio Hill Processing Plant**, located near Karratha.

During the December 2025 quarter, the Company executed a **non-binding Memorandum of Understanding with West Coast Silver Limited (ASX: WCE)** to assess the suitability of the Radio Hill plant for potential toll treatment of high-grade silver ore from the Elizabeth Hill Silver Mine.

The MoU is assessment-focused and does not constitute a binding processing agreement. The evaluation reinforces the strategic optionality provided by Artemis' infrastructure ownership.

COMPETENT PERSON'S STATEMENT EXPLORATION RESULTS

The information in this report that relates to Exploration Results was prepared by **Mr Oliver Hirst M.Sci (Hons)**, a Competent Person who is a Member of the Australasian Institute of Mining and Metallurgy (MAusIMM). Mr Hirst is a technical consultant to Artemis Resources Limited and has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Mr Hirst consents to the inclusion in this report of the matters based on his information in the form and context in which it appears.

MINERAL RESOURCES

The information in this report that relates to the Carlow Mineral Resource estimate is extracted from the Company's ASX announcement dated 13 October 2022 and is based on information compiled by a Competent Person in accordance with the JORC Code (2012).

The Company confirms that it is not aware of any new information or data that materially affects the information included in that announcement and that all material assumptions and technical parameters underpinning the Mineral Resource estimate continue to apply and have not materially changed.

Gold Equivalent formula

The gold equivalent formula used in the calculation of an Au Eq grade uses the following parameters:
It is the Company's view that all elements contributing to the gold equivalent calculation have the potential to be extracted and sold.

Oxide	Au Eq. equation = Au (g/t) + Cu (%) × 0.86 + Co (%) × 2.31
Transitional	Au Eq equation = Au (g/t) + Cu (%) × 0.81 + Co (%) × 2.17
Fresh	Au Eq equation = Au (g/t) + Cu (%) × 1.31 + Co (%) × 3.96

¹ Reported above a cut-off of 0.7g/t AuEq within an optimised pit shell (current as at 13 October 2022).

² Reported above a cut-off of 2.0g/t AuEq for underground using HSD ships (current as at 13 October 2022).

³ The Resource is classified as an Inferred Mineral Resource in accordance with the JORC Code, 2012. All tonnes are dry metric tonnes. Figures may not compute due to rounding.

TRADITIONAL OWNERS

Artemis would not be able to operate successfully without the support of the Traditional Owners and the local communities in which we operate. We continue to build trust and respect between Artemis and our key stakeholders through transparency, listening, acting on concerns, and looking for innovative and sustainable ways of ensuring that the Traditional Owners are participating in the journey to explore and develop, responsibly and sensitively. We are working closely with our Native Title holders to identify mutually supportive initiatives which will see a growing range of business and employment opportunities being developed and importantly ensuring that the local community has the capability and opportunity to grow with the Company.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL REPORT For the half-year ended 31 December 2025

1 MATERIAL ACCOUNTING POLICIES

The principal accounting policies adopted in the preparation of the financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

1.1 Basis of preparation

These general-purpose financial statements for the interim half-year reporting period ended 31 December 2025 have been prepared in accordance with Australian Accounting Standard AASB 134 *'Interim Financial Reporting'* and the Corporations Act 2001, as appropriate for, for-profit oriented entities. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 *"Interim Financial Reporting"*.

These general-purpose financial statements do not include all the notes of the type normally included in annual financial statements. Accordingly, these financial statements are to be read in conjunction with the annual report for the year ended 30 June 2025 and any public announcements made by the company during the interim reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

The principal accounting policies and methods of computation adopted are consistent with those of the previous financial year and corresponding interim reporting period, unless otherwise stated.

1.2 Accounting policies

The Group has adopted all the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ("AASB") that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

There were no new Accounting Standards and Interpretations relevant to the Group during the reporting period.

1.3 Going concern

The condensed consolidated financial statements have been prepared on a going concern basis which contemplates continuity of normal business activities and realisation of assets and settlement of liabilities in the normal course of business. For the half-year ended 31 December 2025, the Group incurred an operating loss of \$6,043,044 and had net cash outflows from operating and investing activities of \$3,154,271. On 31 December 2025, the Group had net assets of \$30,028,709, with total cash on hand of \$2,446,253, and listed financial assets at \$948,750.

The directors believe that it is reasonably foreseeable that the Company and Group will continue as a going concern and that it is appropriate to adopt the going concern basis in the preparation of the financial report after consideration of the following factors:

- The Group has listed financial assets at \$948,750, and
- The Group has cash at bank of \$2,446,253 and net assets of \$30,028,709 as at 31 December 2025.
- The Company has raised \$4,875,000 before costs, in new capital during the half-year, as disclosed in note 12.
- Directors are of the view that should the Company require additional capital, it can raise further capital to enable the Group to meet schedule exploration expenditure requirements;

1.3 Going concern (continued)

- The ability of the Group to scale back certain parts of its activities that are non-essential to conserve cash; and
- The Group retains the ability, if required, to wholly or in part dispose of interests in mineral exploration and assets.

However, should the Company be unable to raise capital in a sufficiently timely basis and/or reduce expenditure to the extent required there will exist a material uncertainty which may cast significant doubt as to whether the Group will continue as a going concern and therefore whether it will realise its assets and extinguish its liabilities in the normal course of business and at the amounts stated in the financial report.

1.4 Critical accounting judgments, estimates and assumptions

The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

In preparing these consolidated interim financial statements, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were consistent with those in the consolidated financial statements as at and for the year ended 30 June 2025.

1.5 Operating segments

For management purposes, the Group is organised into two operating segments based on the operations each performs, being:

- Mineral exploration
- Development

The Board (who is identified as the CODM) monitors the Group based on actual versus budgeted expenditure incurred by area of interest.

The internal reporting framework is the most relevant to assist the Board with making decisions regarding the Group and its ongoing exploration activities.

During the year, the Group established an incorporated joint venture to explore for lithium. As the joint venture has not yet commenced operations, it does not constitute a separate operating segment. The Group's interest is accounted for using the equity method (refer to note 9).

There have been no other changes to the basis of segmentation or the measurement basis for the segment profit or loss since 30 June 2025.

1.5 Operating segments (continued)

1.5 Operating segments (continued)

For monitoring segment performance and allocating resources between segments:

- All assets are allocated to reportable segments, other than corporate office assets, and
- All liabilities are allocated to reportable segments, other than Group entity liabilities

The CODM monitors cash, receivables, and payables position. This is the information that the CODM receives and reviews to make decisions.

Geographical information

All the Group's operations and non-current assets are in Western Australia.

Reversal of stamp duty provision	1	520,492	-
Other income		9,921	-
		530,413	-

1. During the period, the Group reversed a stamp duty provision of \$520,492 recognised in prior periods. Following a reassessment of the underlying exposure, management determined that the obligation is no longer payable, and the provision is not expected to be called upon. Accordingly, the provision was reversed through profit or loss.

1. During the period, the Group reassessed the status of the Radio Hill processing plant and it was determined that it is in care and maintenance. As a result, expenditure previously capitalised as tenement and development costs no longer meets the criteria for capitalisation and has been recognised as an expense in the current period.

5 EXPLORATION AND EVALUATION EXPENDITURE

(a) Exploration expenditure expensed through profit or loss

Exploration expenditure expensed through profit or loss comprises costs incurred in respect of exploration activities that do not meet the Group's criteria for capitalisation. These costs include tenement application and renewal fees and other exploration-related expenditure.

	31 December 2025	31 December 2024

(b) Capitalised exploration and evaluation expenditure

Exploration and evaluation expenditure is capitalised where the Group has an area of interest. The realisation of costs carried forward in relation to areas of interest in the exploration and evaluation phases is dependent on the successful development and commercial exploitation or sale of the respective areas.

Adjustment to provision	-	(2,463,486)
Closing balance	3,459,773	3,459,773

The Group recognises a provision for the present value of estimated costs required to rehabilitate disturbed areas associated with the Radio Hill development asset in accordance with environmental and regulatory requirements. The provision has been independently assessed and based on the extent of disturbance at the reporting date and management's best estimate of the costs required to restore the site at the end of its useful life. Rehabilitation activities are currently expected to be undertaken in approximately 9^{1/2} years.

The rehabilitation provision relates solely to the closure rehabilitation obligations associated with the Radio Hill development asset. During the period, the Group incurred certain site restoration and remediation costs to meet regulatory compliance requirements, including works undertaken at the Radio Hill site and in respect of a tenement no longer held by the Group. These activities were not included in the independently assessed closure rehabilitation cost estimate and did not represent settlement of the existing rehabilitation obligation. Accordingly, these costs totalling \$42,714 (31 December 2024: \$nil) were expensed as incurred.

There was no material change in the rehabilitation provision during the period. Management has assessed that there were no significant changes in the assumptions, scope of rehabilitation activities, regulatory requirements, or discount rates that would require remeasurement of the provision as at the reporting date.

⁽²⁾ 4,000,000 ordinary shares were issued to an employee as consideration for consulting services. These shares had a deemed value of \$28,000 recognised as an expense (expensed to professional fees) in accordance with AASB2 Share-Based payment.

13 SHARE-BASED PAYMENTS

The Company operates an equity-settled share-based payment arrangement under which options over ordinary shares are granted to employees and consultants. Options generally vest subject to service conditions and, in some cases, performance conditions. The fair value of the options granted is measured at grant date and recognised as an expense over the vesting period, with a corresponding increase in equity.

DIRECTORS' DECLARATION

In accordance with a resolution of the Directors of Artemis Resources Limited, we state that:

In the directors' opinion:

1. The consolidated financial statements and notes are in accordance with the *Corporations Act 2001* including:
 - a. Giving a true and fair view of the Group's financial position as of 31 December 2025 and of its performance for the half-year ended on that date; and
 - b. Complying with Australian Accounting Standards, AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001* and mandatory professional reporting requirements; and
2. There are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable.

This declaration has been made after receiving the declarations required to be made to the Directors in accordance with section 295A of the *Corporations Act 2001* for the half-year ended 31 December 2025.

On behalf of the Board

INDEPENDENT AUDITOR'S REVIEW REPORT

To the Members of Artemis Resources Limited

Report on the Condensed Half-Year Financial Report

Conclusion

We have reviewed the half-year financial report of Artemis Resources Limited ("the Company") and its controlled entities ("the Group"), which comprises the condensed consolidated statement of financial position as at 31 December 2025, the condensed consolidated statement of profit or loss and other comprehensive income, the condensed consolidated statement of changes in equity and the condensed consolidated statement of cash flows for the half-year ended on that date, selected explanatory notes, and the directors' declaration, for the Group comprising the Company and the entities it controlled at the half-year end or from time to time during the half-year.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of Artemis Resources Limited does not comply with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the Group's financial position as at 31 December 2025 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibility is further described in the *Auditor's Responsibility for the Review of the Financial Report* section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the "Code") that are relevant to audits of the financial report of public interest entities in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Material Uncertainty Related to Going Concern

We draw attention to Note 1.3 in the financial report, which indicates that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern. Our conclusion is not modified in respect of this matter.

Responsibility of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility for the Review of the Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2025 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.
