Golden Globe Resources Limited
Directors' report
31 December 2025

The directors present their report, together with the financial statements, on the consolidated entity (referred to hereafter as the 'Group') consisting of Golden Globe Resources Limited (referred to hereafter as the 'Company' or 'parent entity') and the entities it controlled at the end of, or during, the half-year ended 31 December 2025.

Directors

The following persons were directors of Golden Globe Resources Limited during the whole of the financial half-year and up to the date of this report, unless otherwise stated:

Robert Patrick Highsmith
Colin McMillan
Raymond Raad

Company secretary

The following persons / entities acted as the company secretary of Golden Globe Resources Limited during the whole of the financial half-year and up to the date of this report, unless otherwise stated:

Automic Group	(Resigned 3 November 2025)
Terry Grace	(Appointed 3 November 2025, Resigned 2 December 2025)
Anthony Rule	(Appointed 2 December 2025, Joint Company Secretary effective from 19 January 2026)
Anshu Raghuvanshi	(Appointed Joint Company Secretary 19 January 2026)

Principal activities

During the financial half-year the principal continuing activities of the Group consisted of gold and copper exploration and evaluation on the following major projects:

- Dooloo Creek project comprising two tenements in Queensland (EPM 15343 and EPM 27728);
- Alma project comprising a single tenement in Queensland (EPM 27722); and
- Neila Creek project comprising a single tenement in New South Wales (EL 8864).

No significant change in the nature of these activities occurred during the year.

Review of operations

The loss for the Group after providing for income tax amounted to \$1,233,098 (31 December 2024: \$135,379).

Golden Globe Resources Limited is an ASX-listed Gold and Copper exploration company which holds three Projects, located in Australia, Figure 1:

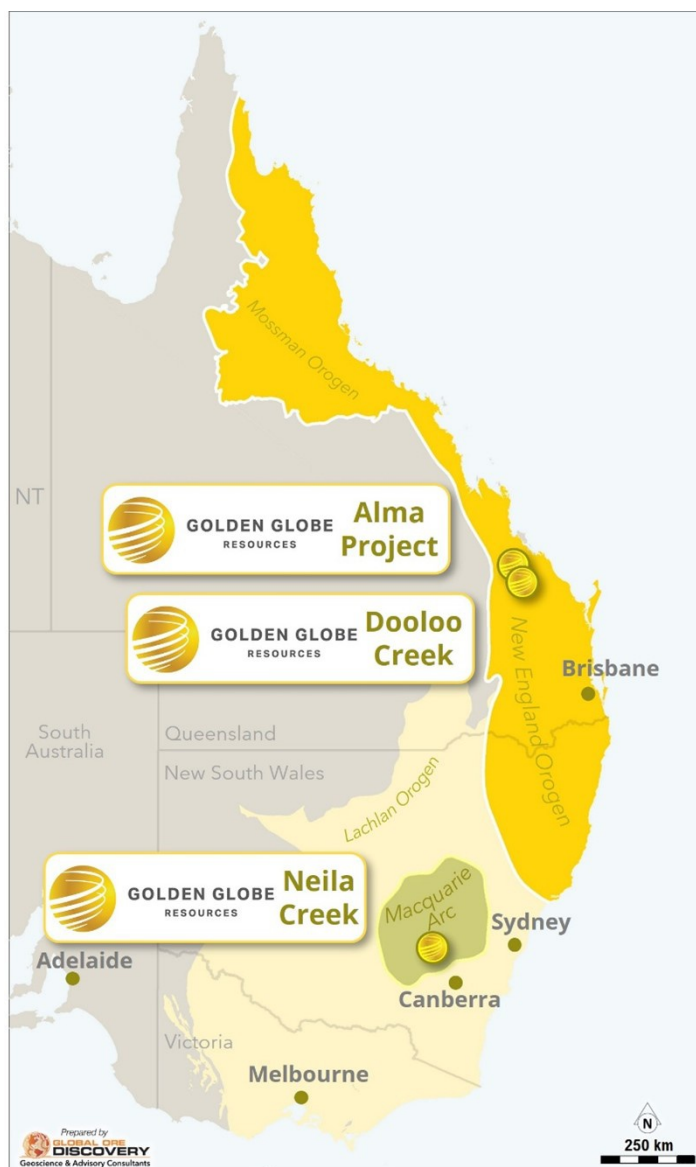

Figure 1: Project locations

Ownership and Permitting

The Company has acquired a 100% legal and/or beneficial interest in 3 granted tenements in Queensland and has completed a Joint Venture Agreement with ARGODATA to earn up to a 90% interest in a granted tenement in New South Wales.

During the half-year reporting period, the Company has conducted ongoing submittal of routine compliance reports including the required relinquishment and renewal application to the Queensland Department of Environment, Tourism, Science and Innovation (DETSI) for the Alma tenement EPM27722, being submitted in December 2025 with approval expected in January 2026.

Tenement	Type	Status	Expiry	Area (km ²)
Dooloo Creek Project				
EPM 15343	Exploration Licence	Granted	20 Jun 2029	21.82
EPM 27728	Exploration Licence	Granted	28 Jul 2026	56.12
Alma Project				
EPM 27722	Exploration Licence	Granted	21 Dec 2025	294.6
Neila Creek Project				
EL 8864	Exploration Licence	Granted	17 Jun 2027	42.73

Farm-In Agreement

By the end of the half-year period, the Company had completed a Farm-In and Joint Venture agreement to obtain exclusive access to the Neural Network process, a proprietary database developed by BWG Mining (now known as ARGODATA).

This process involves the use of Artificial Intelligence to generate exploration targets based on the processing of available data across the eastern portion of the Lachlan Fold Belt and considered to be a significant exploration tool for the Company's ongoing target generation and development process. The Neila Creek Farm-In Joint Venture Agreement was concluded on the 22 December 2025.

Exploration

Dooloo Creek Project, Queensland; EPM 15343 & EPM 27728

During the half-year reporting period, the Company had commenced exploration activities at the 100% owned Dooloo Creek project in the New England Orogen of southeast Queensland. Diamond drilling commenced on 9 December 2025 on hole NG001 at the Northern Gold Prospect. By the 19 December, the drill hole had reached a depth of 196m prior to a Christmas / New Year break, with drilling scheduled to resume on the 5 January 2026. No samples had been submitted by the end of the Half-Year reporting period.

The Dooloo Creek project area, covering about 78 square km, has an extensive exploration database with around 9,100 metres of drilling in 57 holes, of which approximately 4,000 metres were drilled by the Company. Historic drilling revealed widespread gold and copper anomalies, including high-grade zones over significant widths.

The Northern Gold Prospect remains largely undrilled and is seen as a promising exploration target. The Eastern Breccia Prospect will be tested after NG001 is finished.

During the reporting period, the Company introduced an updated exploration model for Dooloo Creek, informed by a comprehensive re-interpretation of geological, geochemical, and geophysical data. This model integrates results from rock-chip sampling, including notable gold assays of 28.8g/t at Northern Gold and 51.7g/t at Eastern Breccia, and is intended to facilitate the interpretation of high-grade mineralisation and geochemical zonation observed throughout the project to date.

Figure 2 shows the relationship of the rock-chip sampling conducted and the planned drilling at Northern Gold and Eastern Breccia while Figure 4 shows the location of both the Dooloo Creek and Alma tenements in Queensland:

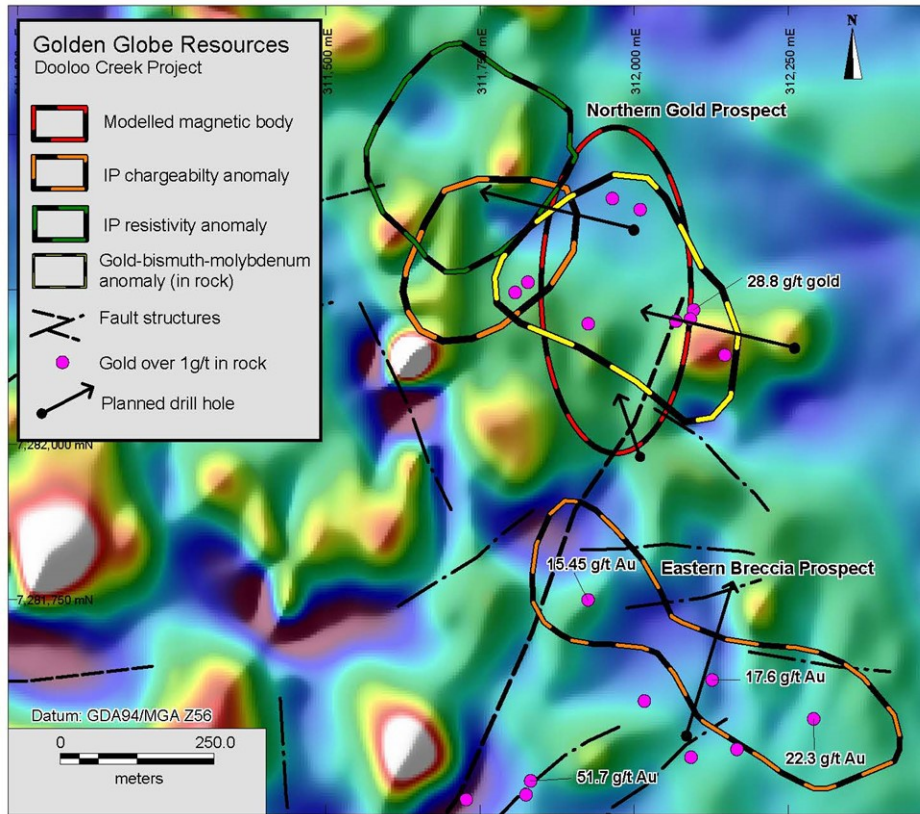

Figure 2. Rock-chip sample and proposed drill hole locations at Northern Gold and Eastern Breccia Prospects shown over Magnetic RTP image with IP chargeability and resistivity model outlines.

Neila Creek Project, New South Wales; EL8864

Drilling at the Company's Neila Creek project in the Lachlan Fold Belt will begin in early Q1 2026. During the half-year, only initial site access, preparation, and drill hole location marking took place.

Three initial diamond drill holes, each about 400–500 metres deep, will test for an intrusive-related gold and copper system suggested by historic mining and a proprietary AI model available through the ARGODATA Farm-In Joint Venture.

Figure 3 shows the location of the Neila Creek tenement in New South Wales.

The Company anticipates commencing the initial drilling phase, highlighting that no prior diamond drilling has occurred within this approximately 43 square kilometre project area. The objective is to generate directional indicators toward the modelled gold and copper system at moderate depths beneath the surface-exposed and interpreted mineralisation.

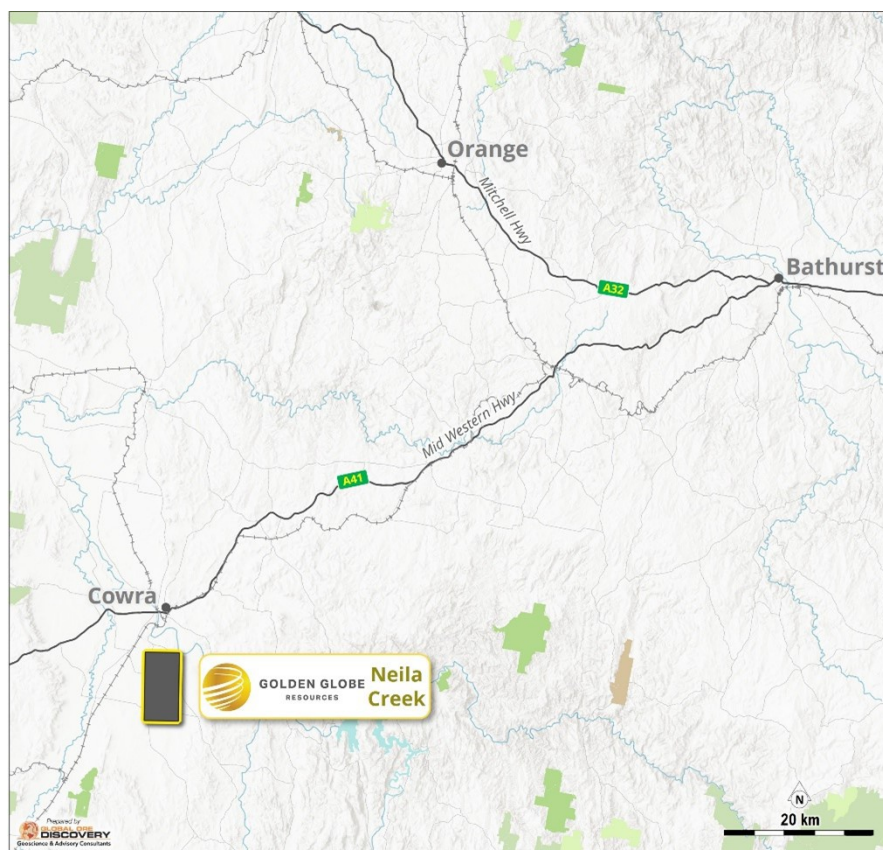

Figure 3. Neila creek tenement EL8864 location.

Alma Project; EPM 27722

The Alma Project in Queensland is situated within a highly prospective and largely underexplored area approximately 15 km south of the historic Mount Morgan mine. According to the Company's Prospectus, several gold and copper targets were delineated based on preliminary geochemical sampling of stream sediments and soils throughout the extensive tenement, which covered approximately 295 square kilometers prior to relinquishment.

No exploration occurred for the Alma Project during the reporting period. A required 50% relinquishment was completed before 21 December 2025. The Company plans to start exploration with a desk-top review of primary targets in Queensland, aiming for fieldwork to begin in the second half of 2026. This review began during the half-year period following the relinquishment.

Figure 4 shows the location of the Alma and Dooloo Creek tenements in Queensland.

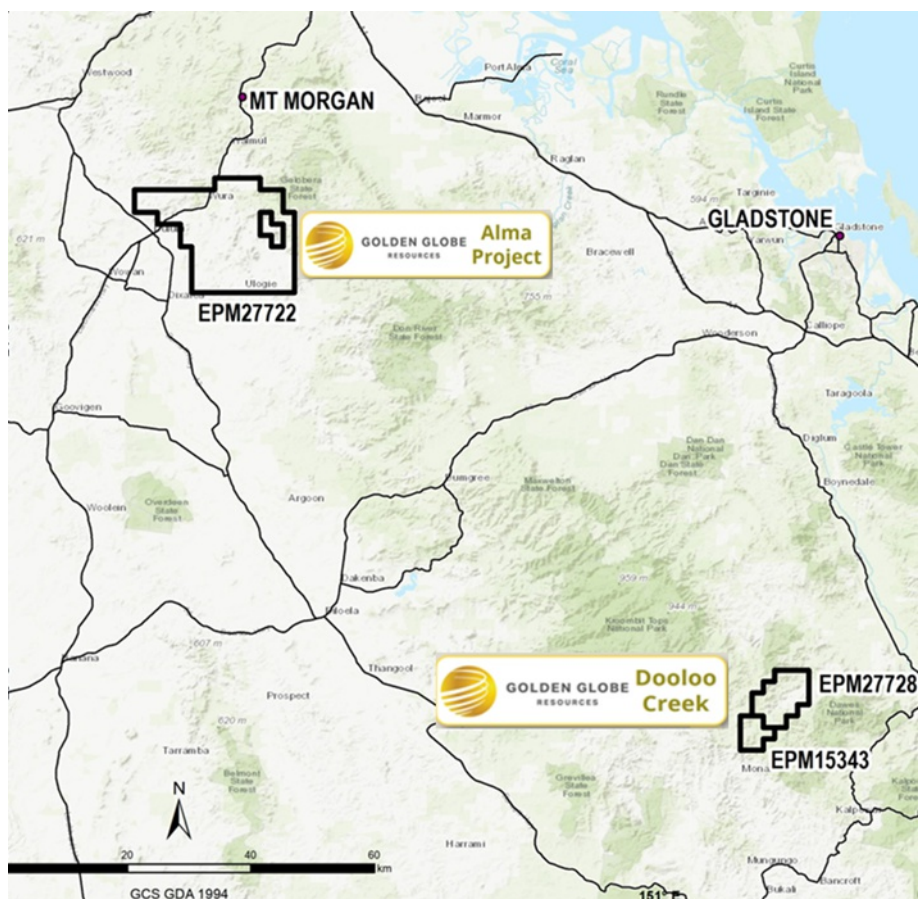

Figure 4. Alma tenement EPM27722 and Dooloo Creek tenement EPM27728 & EPM15343 locations.

Competent Persons Declaration

The information included in the report that relates to Exploration is a fair representation of available information compiled by Colin McMillan B.Sc., MAusIMM, a competent person who is a Member of the Australian Institute of Mining and Metallurgy. Colin McMillan is employed by the Company as Managing Director & CEO and has been Head of Geology for the Company. Colin McMillan has sufficient experience that is relevant to the style of mineralisation and type of deposits under consideration and to the activities being undertaken, to qualify as a Competent Person as defined in the 2012 edition of the Australasian Code of Reporting of Exploration Results, Mineral Resources and Ore Reserves. Colin McMillan consents to the inclusion in this report of the matters based on his work in the form and context in which it appears.

Significant changes in the state of affairs

The Company successfully completed its Initial Public Offering (IPO) subscription process, having reached the maximum subscription amount of \$8.5m. The Company commenced trading on the ASX from 31 October 2025.

There were no other significant changes in the state of affairs of the Group during the financial half-year.

Matters subsequent to the end of the financial half-year

The Group cancelled 750,000 vested share options on the 3rd of March 2026.

No other matter or circumstance has arisen since 31 December 2025 that has significantly affected, or may significantly affect the Group's operations, the results of those operations, or the Group's state of affairs in future financial years.

Dividends

There were no dividends paid, recommended or declared during the current or previous financial period.

Share options

Unissued ordinary shares of the Company under option at the date of this report are as follows:

Environmental issues

The Group's exploration and evaluation activities are subject to environmental regulation. The Directors confirm that the Group has complied with all applicable environmental laws and regulations and are not aware of any instances of non-compliance as at the date of this report.

Auditor's independence declaration

A copy of the auditor's independence declaration as required under section 307C of the Corporations Act 2001 is set out immediately after this directors' report.

This report is made in accordance with a resolution of directors, pursuant to section 306(3)(a) of the Corporations Act 2001.

On behalf of the directors

Auditors' Independence Declaration under Section 307C of the Corporations Act 2001 to the Directors of Golden Globe Resources Ltd

I declare that, to the best of my knowledge and belief, during the half year ended 31 December 2025, there have been:

- (i) no contraventions of the auditor independence requirements as set out in the *Corporations Act 2001* in relation to the review; and
- (ii) no contraventions of any applicable code of professional conduct in relation to the review.

Note 1. Material accounting policy information

These general purpose financial statements for the interim half-year reporting period ended 31 December 2025 have been prepared in accordance with Australian Accounting Standard AASB 134 'Interim Financial Reporting' and the *Corporations Act 2001*, as appropriate for for-profit oriented entities. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 'Interim Financial Reporting'.

These general purpose financial statements do not include all the notes of the type normally included in annual financial statements. Accordingly, these financial statements are to be read in conjunction with the annual report for the year ended 30 June 2025 and any public announcements made by the Company during the interim reporting period in accordance with the continuous disclosure requirements of the *Corporations Act 2001*.

The accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, unless otherwise stated.

New or amended Accounting Standards and Interpretations adopted

The Group has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

Going concern

The consolidated financial statements have been prepared on a going concern basis, which contemplates the continuation of normal business operations and the realisation of assets and settlement of liabilities in the normal course of business.

During the period ended 31 December 2025, the Group incurred a net loss after tax of \$1,233,098 (31 December 2024: net loss of \$135,379) and had a net cash outflow from operating activities of \$1,479,029 (31 December 2024: net cash outflow of \$12,771).

The successful completion of the IPO provided the Group with additional funding to support its planned activities and mitigate the uncertainty previously identified. Accordingly, the Directors are satisfied that the Group will have sufficient funds to meet its obligations as and when they fall due and to continue its planned operations. On this basis, the financial statements have been prepared on a going concern basis.

Note 8. Events after the reporting period

The Group cancelled 750,000 vested share options on the 3rd of March 2026.

No other matter or circumstance has arisen since 31 December 2025 that has significantly affected, or may significantly affect the Group's operations, the results of those operations, or the Group's state of affairs in future financial years.

Golden Globe Resources Limited
Directors' declaration
31 December 2025

In the directors' opinion:

- the attached financial statements and notes comply with the *Corporations Act 2001*, Australian Accounting Standard AASB 134 'Interim Financial Reporting', the Corporations Regulations 2001 and other mandatory professional reporting requirements;
- the attached financial statements and notes give a true and fair view of the Group's financial position as at 31 December 2025 and of its performance for the financial half-year ended on that date; and
- there are reasonable grounds to believe that the Group will be able to pay its debts as and when they become due and payable.

Signed in accordance with a resolution of directors made pursuant to section 303(5)(a) of the *Corporations Act 2001*.

On behalf of the directors

Colin McMillan
Director

INDEPENDENT AUDITOR'S REVIEW REPORT

TO THE MEMBERS OF GOLDEN GLOBE RESOURCES LTD

Report on the Half-Year Financial Report

Conclusion

We have reviewed the accompanying half-year financial report of Golden Globe Resources Ltd (the Company), which comprises the consolidated statement of financial position as at 31 December 2025, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the half-year ended on that date, a statement of accounting policies, other selected explanatory notes, and the directors' declaration of the company and the consolidated entity comprising the Company and the entities it controlled at the year's end or from time to time during the financial year.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Golden Globe Resources Ltd is not in accordance with the Corporations Act 2001 including:

- (a) giving a true and fair view of the consolidated entity's financial position as at 31 December 2025, and of its financial performance for the half-year ended on that date; and
- (b) complying with the Australian Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.

Independence

In conducting our review, we have complied with the independence requirements of the Corporations Act 2001. In accordance with the Corporations Act 2001, we have given the directors of the Company a written Auditor's Independence Declaration.

Directors' Responsibility for the Half-Year Financial Report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with the Australian Accounting Standards and the Corporations Regulations 2001 and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility for the Review of the Half-Year Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the Corporations Act 2001 including: giving a true and fair view of the consolidated entity's financial position as at 31 December 2025 and its performance for the half year ended on that date, and complying with Australian Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001. As the auditor of Golden Globe Resources Ltd, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
