### Overview

Anax Metals Limited (ASX: **ANX**) ("**Anax**" or the "**Company**") is pleased to advise that it has received firm commitments from new and existing institutional, professional and sophisticated investors to subscribe for ~434.8 million new fully paid ordinary shares in the Company ("**New Shares**") at an issue price of \$0.023 per New Share ("**Offer Price**"), to raise \$10.0 million (before costs) via a two-tranche placement ("**Placement**").

### **Anax's Managing Director Geoff Laing commented:**

*"We are very pleased with the level of support for the raising, which was led by leading specialist institutional investors and existing shareholders. The strong response to this equity raising reflects the growing recognition that Anax now has a clear development pathway ahead of it to advance one of the most advanced copper assets in Australia into production. Importantly, the raising places the Company in a stronger financial position ahead of final debt and offtake discussions and enables repayment of the Jetosea Loan B, removing the potential 2.5% NSR royalty overhang."*

## Use of Proceeds

The Placement positions Anax with a strengthened balance sheet and an estimated pro-forma cash position of ~\$7 million following the repayment of the \$3.5 million loan from major shareholder Jetosea Pty Ltd ("**Jetosea**"), as announced on 8 December 2025 and subsequently varied on 12 March 2026 ("**Loan B**"). Importantly, upon repayment of Loan B the Company will not grant a 2.5% net smelter royalty over the Company's participating interest in the Whim Creek joint venture<sup>1</sup>.

Following completion of the Placement, the Company expects to be in a materially stronger financial position as it continues to progress and finalise debt and off-take funding solutions.

The Placement will also provide funding to accelerate exploration activities, which have the potential to expand resources and extend mine life at Whim Creek.

## Development Funding Update

As announced on 24 February 2026, the Company has received several non-binding, indicative term sheets from a select group of highly reputable and experienced debt and off-take providers. Anax has been very encouraged by the size, structure and implied cost of the financing packages outlined in the respective term sheets which include offers of up to A\$57 million to fund Anax's 80% interest (equating to 75% of Anax's all-in development contribution of \$76 million).

Anax continues to engage with potential funding partners including off-take and strategic debt funding providers that are interested in partnering with the Company on the development of the Whim Creek Copper Project.

## Placement Details

The Placement will be conducted in two tranches:

- an unconditional first tranche comprising the issuance of 225,532,948 New Shares at \$0.023 per New Share to raise \$5,187,258 utilising the Company's existing placement capacity under Listing Rules 7.1 and 7.1A (115,319,769 New Shares and 110,213,179 New Shares respectively ("**Tranche 1**"); and

Tranche 2 is subject to shareholder approval, to be sought at an Extraordinary General Meeting expected to be held in mid-May 2026 ("**EGM**").

<sup>1</sup> Refer to the Company's announcements dated 8 December 2025 and 12 March 2026 for further details regarding the loan from Jetosea Pty Ltd.

The New Shares will rank equally with the Company's existing shares on issue.
