Core Lithium Ltd (ASX: CXO) (**Core** or the **Company**) refers to its announcement "Final Investment Decision and Funding Secured for the Restart of the Finniss Lithium Operation" on 18 March 2026 and is pleased to announce that it has received binding commitments for a non-underwritten two-tranche institutional placement to raise A\$120 million (before costs) through the issue of approximately 571 million new fully paid ordinary shares (**New Shares**) at an issue price of A\$0.21 per New Share (**Offer Price**) (the **Placement**).

The Placement was strongly supported by a number of new and existing high-quality institutional, sophisticated and professional investors, reflecting confidence in Core's restart strategy and the strengthened financial platform underpinning the Finniss Lithium Operation.

Proceeds from the Placement, together with funding committed under the Strategic Funding Package, will be applied to advancing the Finniss Lithium Operation (**Finniss**) in line with the FID. Core Managing Director Paul Brown said:

“The strong support we have received through this equity raising is a clear endorsement of Core’s restart strategy and the long-term value of the Finniss Operation. Combined with the strategic funding from Glencore, InfraVia and Nebari, this places Core in a fully funded position to execute the restart in line with the FID. This outcome reflects the confidence investors have in our disciplined planning, improved project economics and the capability of our team to deliver a safe, staged and efficient return to production.

With funding now secured, we can move immediately into mobilisation, early works and development activities to position Finniss for first concentrate production in the September quarter of 2026.”
