

FIRB Approval Received for Franco-Nevada's Final \$95 million Payment of Royalty Funding

Further to its announcement of 23 February 2026 regarding its \$220 million strategic funding package, Minerals 260 Limited (ASX:MI6) ("**Minerals 260**" or "**the Company**") is pleased to announce that Franco-Nevada Australia Pty Ltd ("**Franco-Nevada**") has received approval from Australia's Foreign Investment Review Board ("**FIRB**") for its mortgage arrangements over certain Bullabulling Gold Project tenements.

As set out in the Company's 23 February 2026 announcement, FIRB approval was a condition precedent to Franco-Nevada making the final Royalty Funding payment of \$95 million ("**Second Tranche**") under the Royalty Deed. The Second Tranche is payable by no later than 27 March 2026.

The Second Tranche payment will complete the \$220 million strategic funding package with Franco-Nevada to accelerate and de-risk development of the 4.5Moz Bullabulling Gold Project, located 65km from Kalgoorlie in Western Australia.

Management Comments

Commenting on the receipt of FIRB approval, Minerals 260 Managing Director, Luke McFadyen, said: *"We are pleased that Franco-Nevada has been able to obtain FIRB approval so quickly, enabling finalisation of the \$220 million funding package which has been positively received since being announced in late February. Expanding our relationship with the world's leading gold royalty company at this early stage of Bullabulling's development has been a major endorsement of the project and a milestone that allows us to accelerate the Project towards production, expand our exploration strategy and de-risk our funding pathway."*

This announcement has been authorised for release by the Board of Minerals 260 Limited.

Competent Person Statements

The information in this announcement that relates to the Mineral Resource Estimate for the Bullabulling Gold Project is extracted from the Minerals 260 Limited ASX announcement titled "Bullabulling Gold Project Mineral Resource Doubles to 4.5Moz" dated 1 December 2025. This announcement is available on www.minerals260.com.au.

The Company confirms that it is not aware of any new information or data that materially affects the information included in the original announcement and that all material assumptions and technical parameters underpinning the estimates in the previous announcement continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Persons findings are presented have not been materially modified from the original market announcement.

Forward Looking Statements

This announcement may contain forward-looking statements, guidance, forecasts, estimates, prospects, projections or statements in relation to future matters that may involve risks or uncertainties and may involve significant items of subjective judgement and assumptions of future events that may or may not eventuate (Forward Statements).

Forward Statements can generally be identified by the use of forward-looking words such as "anticipates", "estimates", "will", "should", "could", "going", "may", "expects", "plans", "forecast", "target" or similar expressions. Forward Statements including references to updating or upgrading mineral resource estimates, future or near-term production and the general prospectivity of the deposits at the Bullabulling Gold Project (Project), likelihood of permitting the Project and taking a financial investment decision, among other indications, guidance or outlook on future revenues, distributions or financial position and performance or return or growth in underlying investments are provided as a general guide only and should not be relied upon as an indication or guarantee of future performance.

In addition, these Forward Statements are based upon certain assumptions and other important factors that, if untrue, could materially affect the future results, performance or achievements expressed or implied by such information or statements. There can be no assurance that such information or statements will prove to be accurate.

Key assumptions upon which the Company's forward-looking information is based include, without limitation, assumptions regarding the exploration and development activities, receipt of timely approvals and permits, ability to obtain timely finance on reasonable terms when required in the future and contracting for development, construction and commissioning of any future mining operation on terms favourable to the Company, the current and future social, economic and political conditions and any other assumption generally associated with the mining industry. To the extent that certain statements contained in this announcement may constitute 'Forward Statements' or statements

about forward looking matters, then the information reflects the Company's (and no other party's) intent, belief or expectations as at the date of this announcement. No independent third party has reviewed the reasonableness of any such statements or assumptions. None of the Company, its related bodies corporate and their respective officers, directors, employees, advisers, partners, affiliates and agents (together, the MI6 Parties) represent or warrant that such Forward Statements will be achieved or will prove to be correct or gives any warranty, express or implied, as to the accuracy, completeness, likelihood of achievement or reasonableness of any Forward Statement contained in this announcement.

Forward Statements are not guarantees of future performance and involve known and unknown risk, uncertainties and other factors, many of which are beyond the control of the Company, and their respective officers, employees, agents and advisors, that may cause actual results to differ materially from those expressed or implied in such statements. Except as required by law or regulation, the Company assumes no obligation to release updates or revisions to Forward Statements to reflect any changes. Recipients should form their own views as to these matters and any assumptions on which any of the Forward Statements are based and not place reliance on such statements.
