## Forward Looking Statements

Certain statements contained in this presentation, including information as to the future financial or operating performance of KSN and its projects, are forward looking statements. Such forward looking statements: include, among other things, statements regarding incomplete and uncertain proposals or targets, production and prices, operating costs and results, capital expenditures, and are or may be based on assumptions and estimates related to future technical, economic, market, political, social and other conditions; are necessarily based upon a number of estimates and assumptions that, while considered reasonable by KSN, are inherently subject to significant technical, business, economic, competitive, political and social uncertainties and contingencies; and involve known and unknown risks and uncertainties that could cause actual events or results to differ materially from estimated or anticipated events or results reflected in such forward looking statements.

KSN disclaims any intent or obligation to update publicly any forward-looking statements, whether as a result of new information, future events or results or otherwise. The words “believe”, “expect”, “anticipate”, “indicate”, “contemplate”, “target”, “scope”, “plan”, “intends”, “continue”, “budget”, “estimate”, “may”, “will”, “schedule” and similar expressions identify forward looking statements. All forward looking statements made in this presentation are qualified by the foregoing cautionary statements. Recipients are cautioned that forward looking statements are not guarantees of future performance and accordingly investors are cautioned not to put undue reliance on forward looking statements due to the inherent uncertainty therein.

## Disclaimer

No representation or warranty, express or implied, is made as to the fairness, accuracy, completeness or correctness of the information, opinions and conclusions contained in this presentation. To the maximum extent permitted by law, none of KSN, its directors, employees or agents, nor any other person accepts any liability, including, without limitation, any liability arising out of fault of negligence, for any loss arising from the use of the information contained in this presentation. In particular, no representation or warranty, express or implied is given as to the accuracy, completeness or correctness, likelihood of achievement or reasonableness or any forecasts, prospects or returns contained in this presentation nor is any obligation assumed to update such information. Such forecasts, prospects or returns are by their nature subject to significant uncertainties and contingencies.

The information contained in this presentation is for informational purposes only and does not constitute an offer to issue, or arrange to issue, securities or other financial products. The information contained in this presentation is not investment or financial product advice and is not intended to be used as the basis for making an investment decision. The presentation has been prepared without taking into account the investment objectives, financial situation or particular needs of any particular person. Before making an investment decision, you should consider, with or without the assistance of a financial adviser, whether an investment is appropriate in light of your particular investment needs, objectives and financial circumstances. Past performance is no guarantee of future performance.

For further information on the Life of Mine at Mineral Hill referred to in this Presentation, refer to the Company’s ASX Announcements dated 27 June 2023 and 30 September 2024.

Mineral Hill Processing Plant

# Important notices and disclaimer

## Exploration by Other Explorers

This presentation contains information sourced from the reports of other Explorers. References to the original reports are provided as footnotes where the information is cited in this presentation. KSN does not vouch for the accuracy of these reports. KSN has taken the decision to include this information as it is in the public domain and as we assess it to be of relevance to shareholders and investors.

## Production Target

The LOM plan includes Mineral Resource Estimates for Pearse pits, the Southern Ore Zone (SOZ) and Jack's Hut to estimate the Production Target<sup>1</sup>. All Ore Reserves and Mineral Resources underpinning this LOM plan have been prepared by Competent Persons in accordance with the 2012 JORC reporting guidelines. The Production Target comprises 51% Ore Reserves, 11% Measured & Indicated Resources and 38% Inferred Resources. The first 12 and 36 months of the Production Target are underpinned by 89% and 80% of Measured and Indicated Resources respectively.

There is a low level of confidence associated with Inferred Mineral Resources and there is no certainty that further exploration work will result in the determination of Indicated Mineral Resources or that the production target itself will be realised.

The stated production target is based on the Company's current expectations of future results or events and should not be solely relied upon by investors when making investment decisions. Further evaluation work and appropriate studies are required to establish sufficient confidence that this target will be met. The Company notes that the Project forecasts a positive financial performance and is therefore satisfied that the use of Inferred resources in production target reporting and forecast financial information is not the determining factor in overall Project viability and that it is reasonable to report the LOM plan with Inferred Resources.

The Company has concluded that it has a reasonable basis for providing the forward-looking statements included in this announcement. The detailed reasons for that conclusion are outlined throughout this presentation.

See ASX Announcements dated 27 June 2023, 2 April 2024 and 30 Sept 2024, for further detail and key assumptions.

SOZ underground haulage

# Investment highlights

KSNDDH017

12.5m @ 3.41% CuEq<sup>2</sup>

## Established producer with clear growth path

**Gold-silver** producer with **copper** in FY27

**Open Pit** production with **Underground development underway** - underground production ore in the June quarter

**10Mt of Mineral Resource<sup>1</sup>**, now with 60% Measured & Indicated, **Total Resource of 841 koz AuEq**

**Strong balance sheet** supported by cash flow from operations and with \$45m of deferred Misima<sup>3</sup> payments to come

**Near-term growth** levers: ongoing **underground drilling** targeting discoveries, extensions and additional ore sources

Shares on issue	841m
Warrants <sup>1</sup>	130.4m
Share price (20/03/2026)	\$0.085
Market cap	\$71m
Cash balance <sup>2</sup> @ 31 December 2025	\$24.9m
Restricted cash for environmental bond	\$7.5m

1. 25m unlisted warrants @ \$0.0816, exp 07 July 2027, 35.7m unlisted warrants @ \$0.0816 exp 29 June 2028, 69.7m warrants @ \$0.0879, exp 23 Feb 2028.

2. Cash balance excludes \$7.5m cash backed environmental bond.

## 1-Year Share Price Performance

## Shareholder Structure

# Cobar consolidation has begun

## Strategic Growth via Regional M&A

- PEEL assets Wirlong & Mallee Bull sold<sup>2</sup> to AERIS for \$214m

**Wirlong:** undeveloped copper resource  
**4.3Mt at 1.75% for 75kt Cu**

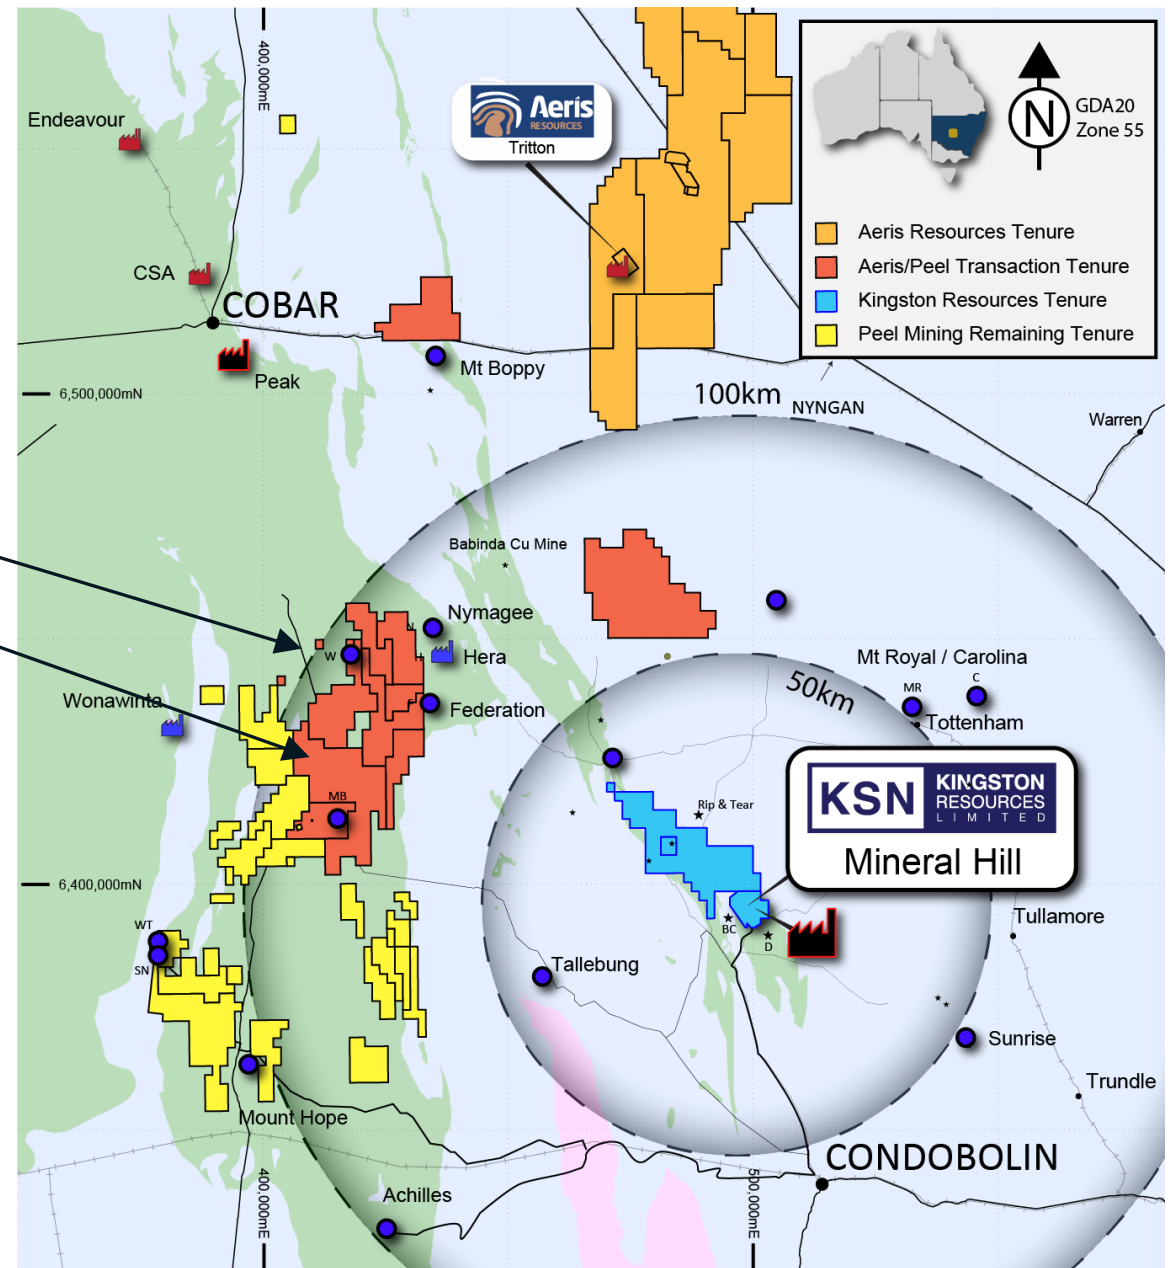

**Mallee Bull:** undeveloped copper resource  
**6.3Mt at 1.92% for 122kt Cu**

**Mineral Hill:** fully permitted operating mine  
 with fully operational multi-metal processing  
 plant **10Mt at 2.6% CuEq for 260kt Cu<sup>1</sup>**

- KINGSTON Market Cap = \$71m
- KINGSTON Cash approx. \$25m
- Plus deferred Misima<sup>3</sup> payments of \$45m

**Kingston's established plant positions the company as a natural processing option within the district.**

# Kingston's growth strategy for Mineral Hill

## Opportunity to grow scale and expand cash flow

### Milestones at Mineral Hill so far:

- \$23 million acquisition in January 2022
- Project-to-date revenue of \$178 million and operating margin of \$47 million<sup>1</sup>
- Growth in production and resources year-on-year
- Plant upgrades and a platform for expansion
- Current 6-year mine life

### Key growth enablers:

- Drilling to target a 10-year mine life
- Continue to grow gold and silver production
- Copper production to commence in FY27
- Plant expansion & optimisation studies
- Targeting a second mine to underpin a plant expansion.

1. Revenue and operating margin reported post-acquisition to 31 Dec 2025.

# Open pit and underground mining

## Pearse South Open Pit Mining

- Pearse South mining, targeting completion of open pit mining by July 2026.
- Pearse South processing, targeting completion by September 2026
- Geotechnical issue - North/West wall has been stable with a small cut back underway

## Underground Mining

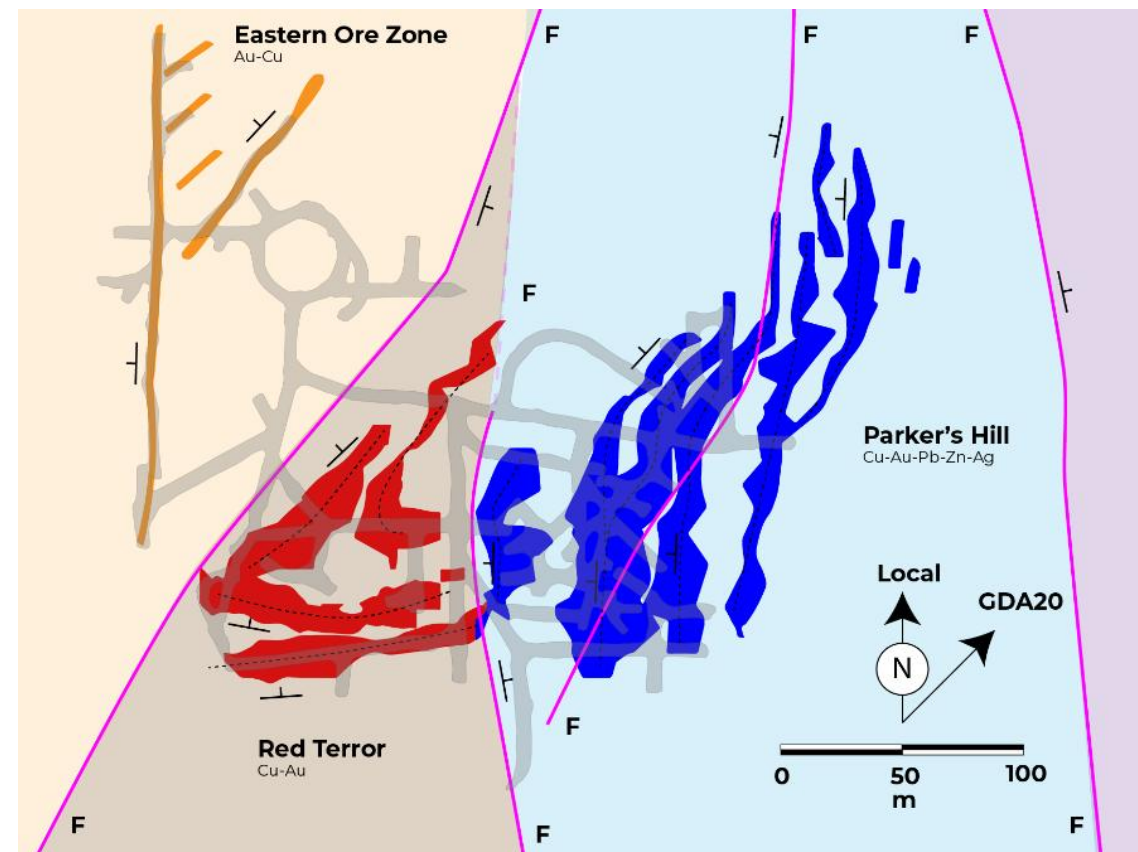

- On boarding of new employees largely complete
- Jumbo development ramping up in March
- Longhole drilling commenced in March
- Underground ore processing to commence end of the second quarter FY27, copper sales in FY27

# Mineral Hill 2025 Mineral Resource update

## Material resource growth with rising confidence

- Mineral Resource update:
  - 10Mt of total Resources<sup>1</sup> (up 29%)
  - 60% Measured & Indicated
  - Parker's Hill and Red Terror MRE updated
- Mining studies to commence on Red Terror and Parker's Hill for additions to the mine plan
- Ongoing infill and extensional drilling at SOZ and Red Terror
- Targeting an Ore Reserve update for Q1 FY27

Mineral Hill	Tonnes (kt)	Au g/t	Cu %	Pb %	Zn %	Ag g/t	Au koz	Cu kt	Pb kt	Zn kt	Ag koz
Measured	327	1.90	1.20	0.54	0.33	10	20	4	2	1	109

1. See ASX Announcement from 13 November 2025.

# Mineral Hill forward work programs

## Consolidate & expand Mineral Hill Resource Inventory

### Southern Ore Zone (SOZ)

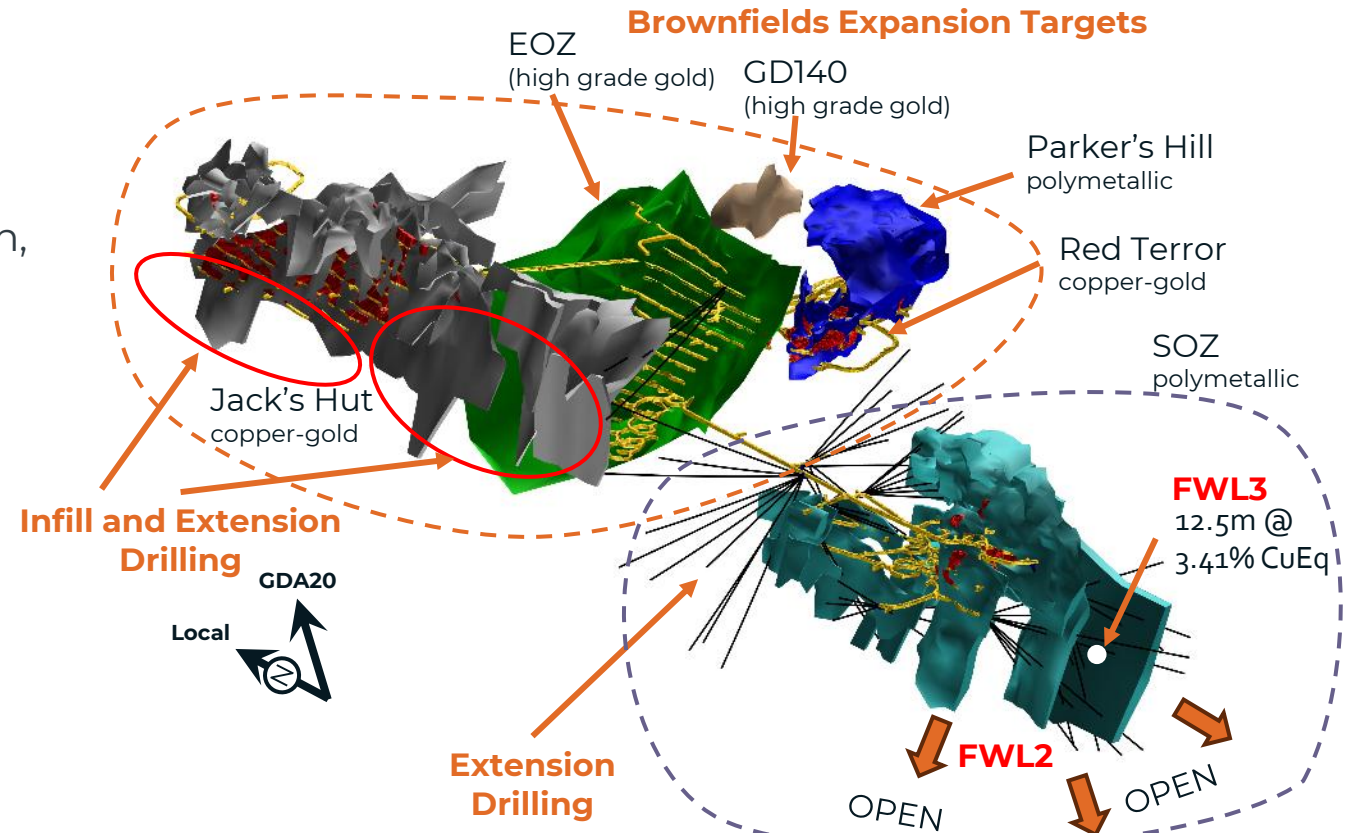

- Extension and infill/grade control drilling
- Footwall Lode 2 and 3 (FWL2 and 3) infill, extension, and confirmation drilling

### Parker's Hill – Red Terror

- Mining studies to leverage existing underground access - potential to add to the mine plan
- Infill and extension drilling

### Jacks Hut – Iodide

- Extension and infill drilling in the Cu-Au zone
- Extension drilling on Pb-Zn lodes to the south

# Underground expansion drilling

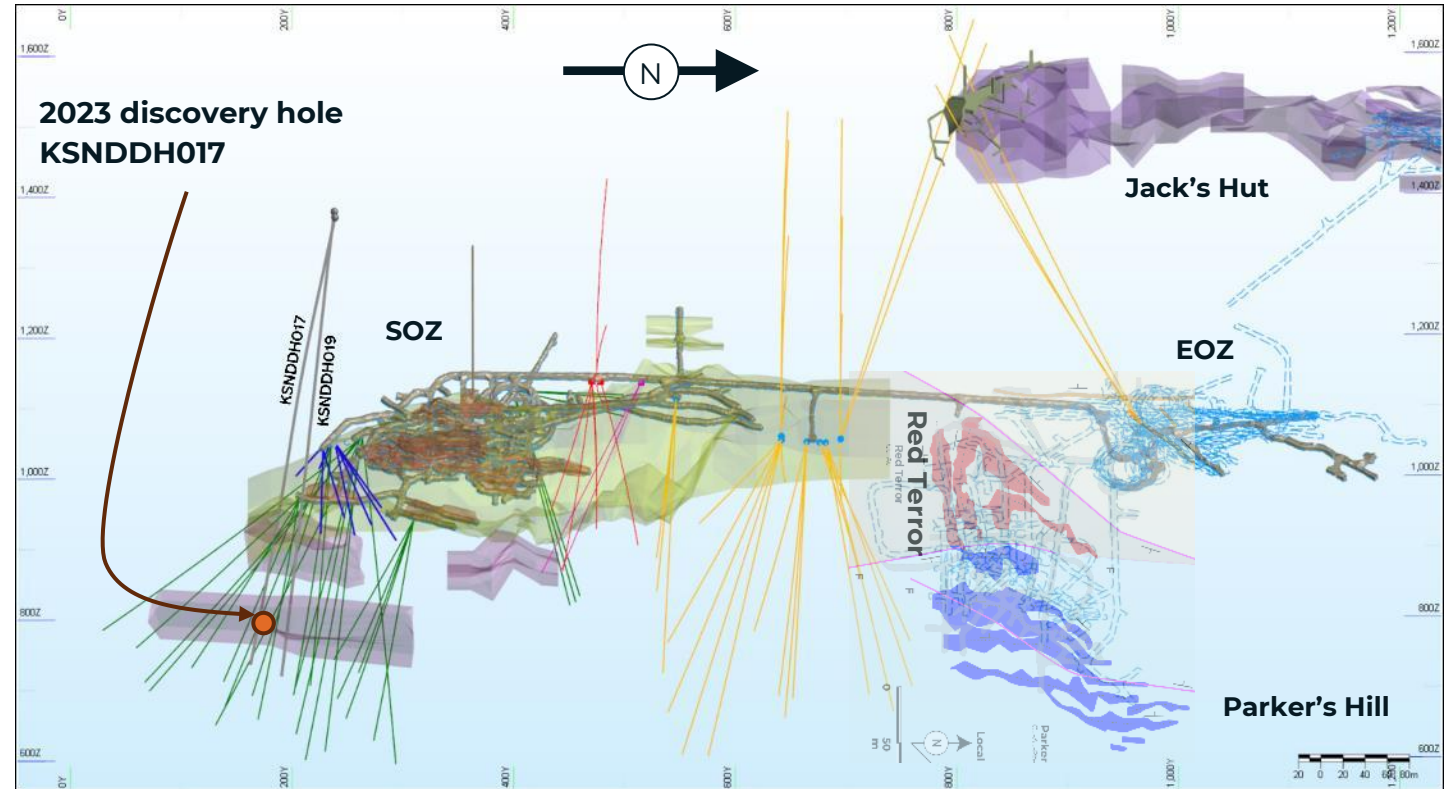

## Priority #1 - targeting additional underground ore sources

Extensive drill out planned to extend mineralisation footprint

20k metres of drilling budgeted within the ML for the next two years

Key focus areas:

- Follow up the 2023 discovery in the SOZ footwall lodes
- Extension drilling into high grade copper/gold lodes
- High grade gold copper zones of Jack's Hut
- Lead/zinc extension areas to the south of Jack's Hut

Planned underground drilling designs

## Exceptional high-grade gold and copper

### Underground drilling results - Southern Ore Zone (SOZ)

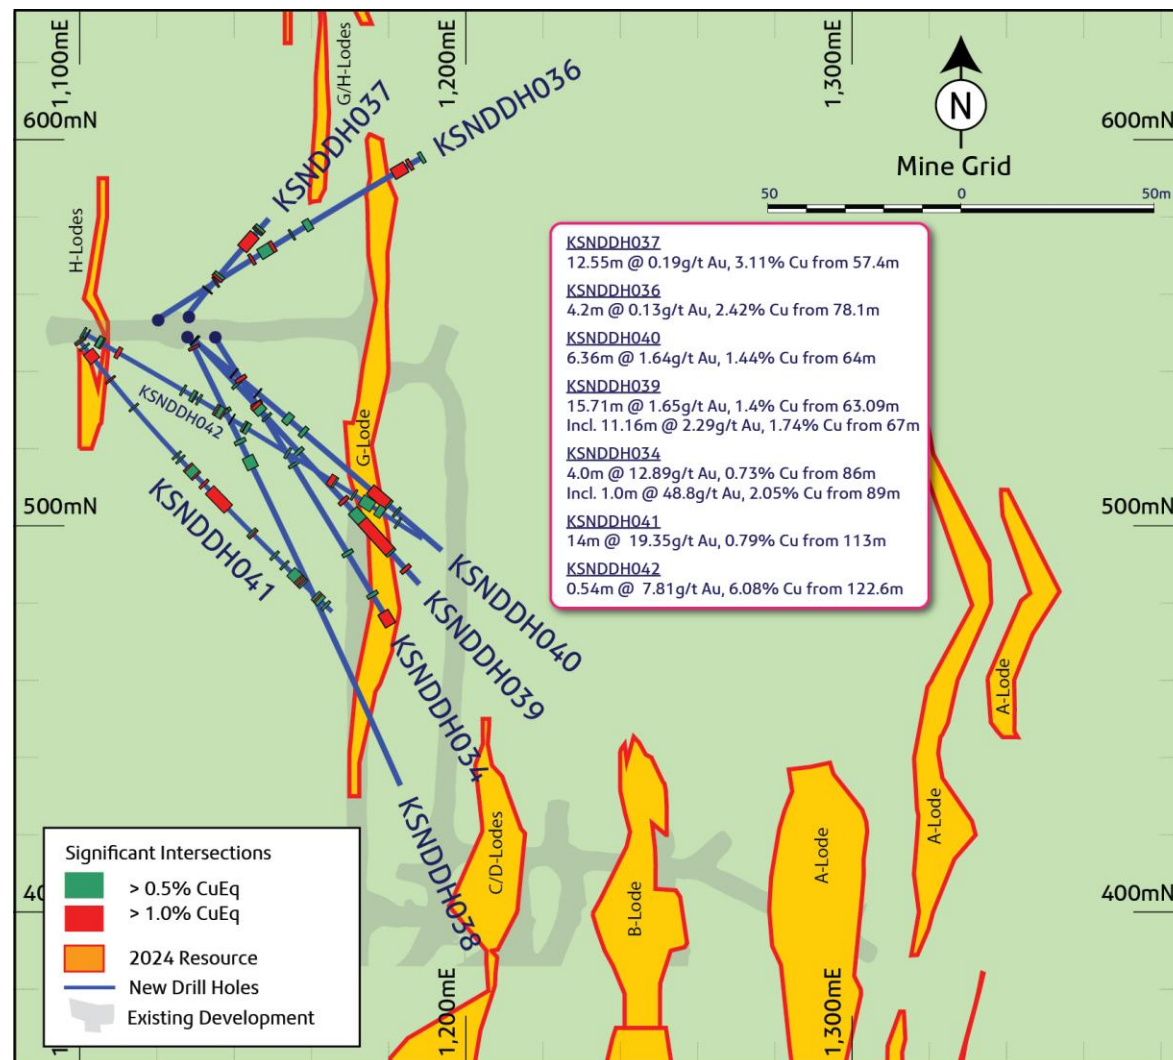

Initial stope production planned from high-grade gold and copper lodes.

Results from recent drilling<sup>1</sup> into planned stopes:

- 8.8m @ 42.5g/t Au, 1.77% Cu (KSNDDH032).
- 4.0m @ 12.89g/t Au, 5.05g/t Ag and 0.73% Cu from 86m (KSNDDH034).
- 14m @ 19.35g/t Au, 3.07g/t Ag and 0.79% Cu from 113m (KSNDDH041).
- 4.2m @ 0.13g/t Au, 11.4g/t Ag and 2.42% Cu from 78.1m (KSNDDH036).

Extensions of 50-100m beyond current resource envelope.

Additional underground drilling currently being assayed.

Plan view of the high-grade gold and copper lodes at the Southern Ore Zone

1. See ASX Announcement dated 3 June 2025, 23 July 2025

# Regional exploration - advancement of key targets

## Aiming for discoveries on highly prospective greenfield targets

Phase 1 RC drilling at Bogong, Long Panel, Walkers Hill complete, Downhole EM underway at Bogong

Complete Phase 1 geophysics – Long Panel & Yellow Mountain

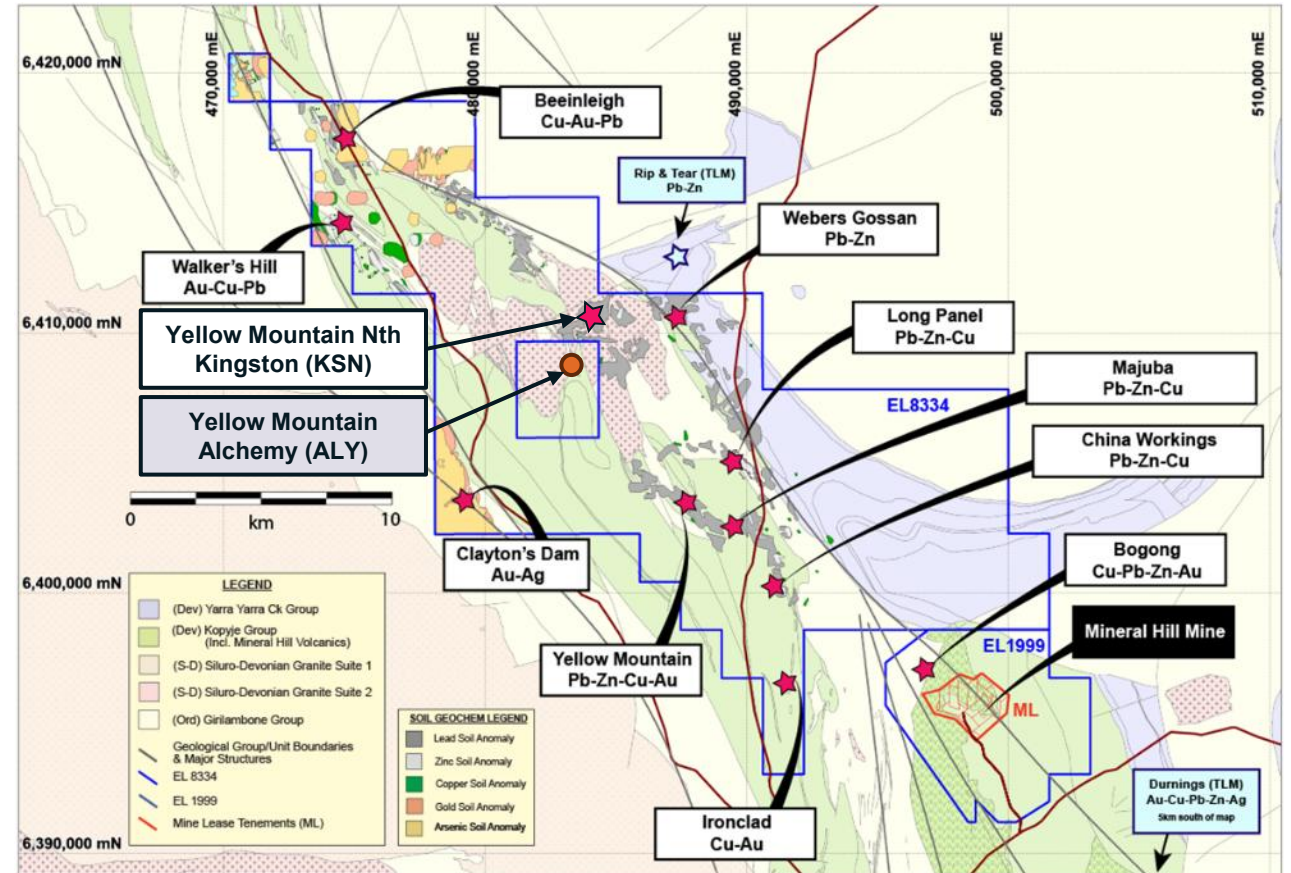

95% access secured across EL1999 & EL8334

Copper-gold expertise added to the exploration geology team

Prioritising Mineral Resource growth and mine life additions

SOZ Underground Mine

## Organic growth strategy: Focus on expanding Mineral Hill

**Leveraging the existing gold-copper asset base while advancing future growth opportunities**

Growing production base, transitioning to underground mining and targeting a 10-year mine life

Drilling on under-explored, highly prospective mining lease and exploration leases

Growing the asset to a meaningful scale and cash flow

Strong cash flow and balance sheet to rigorously pursue growth in all areas of the business

## Appendix

# Competent Person Statement

## Competent Person's Statement – Mineral Resource Reported in Accordance with 2012 JORC Code – Mineral Hill

The information in this report that relates to the reporting of the Mineral Hill Mine Mineral Resource Estimate is based on and fairly represents, information and supporting documentation compiled by Mr. Stuart Hayward (BAppSc (Geology)) MAIG, who is a Member of the Australian Institute of Geoscientists. Mr. Stuart Hayward is a full-time employee of Kingston Resources Limited. Mr. Hayward has sufficient experience relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Mr. Hayward confirms that the information in the market announcement provided is an accurate representation of the available data and studies for the material mining project and consents to the inclusion in this report of the matters based upon the information in the form and context in which it appears. The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original report.

## Competent Person's Statement – Ore Reserve Reported in Accordance with JORC Code – Mineral Hill

The Ore Reserve and Mineral Resources estimates were prepared by a Competent person in accordance with the JORC Code 2012. Pearse, Parkers Hill, Jacks Hut and the Southern Ore Zone Mineral Resource estimates and Ore Reserves have been adjusted by mining depletion using the production wireframes created by the site survey department at the time of mining. These wireframes represent the mining activities at these deposits to the best of Kingston's knowledge although they are not to be viewed as complete or accurate in their entirety and therefore mining depletion may be revised when Kingston is able to produce revised determinations on more complete data and verification thereof. Information pertaining to Mineral Resource Estimates (MRE) and Ore Reserves (OR) in this presentation has been previously released to the public. The tables on this page indicate the authors of the historical Resources/Reserves and the dates they were initially published. Kingston is not reporting these estimates as its own with exception of the MRE and OR for the TSF which has not been reported previously by any other company. The other original reports are available through the ASX website.

The Competent Person signing off on the overall Pearse Open-cut Ore Reserves Estimate is Mr John Wyche BE (Min Hon) BComm CP, of Australian Mine Design and Development Pty Ltd, who is a Fellow of the AusIMM and who has sufficient relevant experience in operations and consulting for open pit metalliferous mines. Mr Wyche consents to the inclusion in this report of the information pertaining Mineral Hill Pearse open pit Ore Reserves in the form and context in which it appears.

The Competent Person signing off on the overall underground SOZ Ore Reserves Estimate is Mr Steven Weckert BE ME (Min) CP, of Australian Mine Design and Development Pty Ltd, who is a Member of the AusIMM and who has sufficient relevant experience in operations and consulting for underground metalliferous mines. Mr Weckert consents to the inclusion in this report of the information pertaining to the Mineral Hill SOZ Ore Reserve in the form and context in which it appears.

Kingston is not aware of any new information or data that materially affects the information included in this announcement. All material assumptions and technical parameters underpinning the Mineral Resource estimates and production targets continue to apply and have not materially changed.

### Ore Reserve

Deposit	JORC Ed.	ASX Announcement	Competent Person	Company
Pearse South	2012	KSN 30/9/2024	John Wyche	AMDAD
SOZ	2012	KSN 30/9/2024	Steven Weckert	AMDAD

### Mineral Resource

Deposit	JORC Ed.	ASX Announcement	Competent Person	Company
Pearse South	2012	KSN 15/03/2023	Stuart Hayward	KSN
Southern Ore Zone	2012	KSN 13/11/2025	Stuart Hayward	KSN
Jack's Hut	2012	KSN 21/03/2023	Stuart Hayward	KSN
Parkers Hill and Red Terror	2012	KSN 13/11/2025	Stuart Hayward	KSN

## Metal equivalents

This presentation quotes metal equivalent grades defined by Kingston Resources. Price assumptions used are based on market consensus forecasts with adjustments to account for reasonable prospects for eventual economic extraction (RPEEE), as guided by JORC reporting guidelines. Gold equivalent (AuEq) and copper equivalent (CuEq) conversion factors are used within the presentation and are calculated by multiplying the grades for each contributing metal by their respective metal price and recovery and dividing by the multiplication of the primary metal's price and recovery (gold or copper for AuEq and CuEq respectively).

Metallurgical recoveries are based on historical production (2010-2016) as well as recent metallurgical test work and are applied to the Resource and Reserve calculated grades for each commodity. The Company is of the opinion that all the elements included in the metal equivalent calculations have a demonstrated potential to be recovered and sold. Mineral Hill is currently producing metal concentrates and dore (from the CIL) on site. Upon the commencement of underground polymetallic production, the Company will have a Cu flotation circuit, Pb flotation circuit and Zn flotation circuit to produce three different concentrates as well as precious metal dore.

$$\text{AuEq g/t} = \text{Au g/t} + (1.060 * \text{Cu \%}) + (0.011 * \text{Ag g/t}) + (0.179 * \text{Pb \%}) + (0.223 * \text{Zn})$$

$$\text{CuEq \%} = \text{Cu \%} + (0.943 * \text{Au g/t}) + (0.011 * \text{Ag g/t}) + (0.169 * \text{Pb \%}) + (0.210 * \text{Zn})$$

Commodity	Unit	Price
Gold	US\$/oz	3,503
Silver	US\$/oz	36.77
Copper	US\$/lb	5.11
Lead	US\$/lb	1.01
Zinc	US\$/lb	1.43

Deposit	Commodity	Recovery (%)	AuEq Factor	CuEq Factor
SOZ	Gold	83	1.000	0.943
	Silver	88	0.011	0.011
	Copper	88	1.060	1.000
	Lead	75	0.179	0.169
