#### About Terragen

Terragen specialises in the development of biological products that improve animal and plant health for use in agriculture, companion animals and home gardens. Our proprietary research has led to the creation of innovative products that improve livestock and crop yields and deliver positive environmental outcomes, helping to decarbonise agriculture.

Currently, Terragen has two products available for sale across Australia and New Zealand, Terragen Probiotic™ for Ruminants (TPR) and Great Land Plus® (GLP). TPR is a feed supplement that increases average daily weight gain and reduces methane production. GLP is a plant bio-stimulant targeted for use in cropping that reduces reliance on chemical-based fertilisers, decreasing scope emissions. GLP also increases crop yields and soil organic carbon levels.
