**ASX Announcement**

## Completion of Gascoyne REE Project Divestment

**Kingfisher Mining Ltd (ASX: KFM)** ("Kingfisher" or "the Company") is pleased to announce that, further to its announcement on 2 March 2026, it has successfully completed the sale of 100% of its interest in 12 exploration licences in the Gascoyne region of Western Australia to **Dreadnought Exploration Pty Ltd**, a wholly owned subsidiary of **Dreadnought Resources Limited (ASX: DRE)** ("Dreadnought").

**HIGHLIGHTS:**

- 🕒 **Transaction Finalised:** All conditions have been met, and the divestment is now complete.
- 🕒 **Upfront Consideration Received:** Kingfisher has received \$2.0 million in fully paid ordinary shares of Dreadnought Resources Limited (DRE:ASX).
- 🕒 **Strategic Realignment:** New South Wales projects established as the Company's primary focus, allowing for the full allocation of resources toward its high-priority copper-gold, Silver and base metal projects which are supported by the strategic agreement recently announced with Broken Hill Mines (See ASX:KFM – 'KFM & Broken Hill Mines Enter Mining & Processing Agreement' 4th March 2026).
- 🕒 **Ongoing Exposure:** Kingfisher remains leveraged to the success of the Gascoyne REE projects through its significant shareholding in DRE and potential future milestone cash payments of up to \$1.5 million.

Managing Director, Christopher Bittar, commented:

*"The conclusion of the Gascoyne divestment marks a significant milestone in our strategy to simplify the Company's portfolio and direct our full attention toward our NSW copper-gold, silver, lead and zinc projects. The completion of this sale provides us with additional capital flexibility and a clear, singular focus on our exciting NSW portfolio, led by the Copper Blow project."*

*"With the BHM agreement providing a clear pathway to production, Kingfisher is uniquely positioned in the Broken Hill region. We now have both the operational focus and the processing framework required to rapidly scale our NSW projects, and we look forward to providing further updates on our upcoming exploration activities and drilling programs shortly."*

**Strategic Focus: Advancing the NSW Portfolio**

The conclusion of this divestment allows Kingfisher to focus all resources toward high-priority targets in the premier mining jurisdictions of Broken Hill, Cobar, and the Macquarie Arc.

This strategy is underpinned by the 10-year Strategic Mining and Processing Agreement with Broken Hill Operations Pty Ltd (ASX:BHM) (See ASX:KFM – 'KFM & Broken Hill Mines Enter Mining & Processing Agreement' 4th March 2026), providing a potential pathway to utilise the Rasp Mine's existing infrastructure. This partnership significantly reduces future capital requirements and provides a framework to rapidly scale the Company's projects.

Near term priorities for Kingfisher include resource-definition and extensional drilling at Copper Blow, exploration drilling at Broken Hill West, and advanced geophysics at the Wellington Project.

### Director Incentives

As part of the Company's strategy to align Board and management with shareholder value and the successful execution of its NSW strategy, the Company intends to issue the following Performance Rights to its Board. The Performance Rights are subject to specific vesting conditions linked to share price performance and significant operational milestones. These Performance Rights will be subject to shareholder approval at the Company's next General Meeting or Annual General Meeting.
