BPH Global Launches New Investor Hub

BPH Global Limited (ASX: BP8) is pleased to announce the launch of a new investor-focused website, powered by InvestorHub.

As BPH Global advances its seaweed commercialisation strategy - with operations now generating revenue from its Indonesia-based seaweed business - the Board recognised the need for a more direct and transparent channel through which shareholders can follow the Company's progress.

The new website consolidates everything investors need in one place: real-time ASX announcements, financial reports, investor presentations, and company updates.

Importantly, the platform includes a direct Q&A feature, allowing shareholders to submit questions to the Company and fostering the kind of two-way dialogue that BPH Global believes is fundamental to a well-informed shareholder base.

Matthew Leonard, Managing Director, commented:

"We're at an important stage of our development - seaweed revenues are coming in, our advanced research & development programs are progressing towards commercialisation, and there's a real story to tell. This platform gives us a better way to tell it, and gives our shareholders a better way to stay close to it. We want investors to have access to the same clarity we do."

The Board encourages all current and prospective investors to visit the new website and register for updates. Sign up using this link: <https://bphglobal.com/auth/signup>

This announcement has been authorised by the Board.
