<b>Net tangible asset value after tax on income and realised gains &amp; losses, and before tax on unrealised gains and losses</b>	<b>132.61</b>

<b>Net tangible asset value after tax</b>	<b>129.88</b>

The net asset value of the Company is unaudited and calculated using last sale price (less realisation costs) to value the investments.

The proposed change in sub-investment manager announced on 5 March 2026 by PCG may result in the realisation of previous unrealised gains in the investment portfolio and the corresponding deferred tax liabilities within the Company. If this occurs, it will reduce PIA's current pre-tax NTA to its after tax NTA once any such liabilities are realised and paid.
