

ZULEIKA GOLD

Zuleika Gold Corporate Update

ZULEIKA GOLD

About Zuleika Gold

Zuleika Gold is a development/exploration company, with high quality projects near Kalgoorlie. With more than 20 million ounces of historical production the Zuleika Shear is one of the most sought-after gold regions in Australia.

Strategic location

- Zuleika Gold's presence in the gold-rich Kalgoorlie region gives the company opportunity to develop resources and explore ground in this world class region.

Why Zuleika Gold

- Existing resources, mining leases and drill ready targets
- Experienced team with execution track record
- Fully funded for aggressive resource development, exploration and acquisition

ZULEIKA GOLD

About Zuleika Gold

Our Portfolio

- **Zuleika Project:** Contains Paradigm East Deposit and advanced regional targets
- **Credo Project:** Contains Credo Well deposit and numerous defined targets
- **Resources:** Total company mineral resource 35,200Au ounces
- **Listed Investments:** Approximately 4.2 million shares in Catalyst Metals

Our Vision

- Zuleika Gold is focused on delivering superior returns to shareholders through the systematic and aggressive application of commercial and technical excellence to discover, develop and acquire gold dominated geological opportunities.

ZULEIKA GOLD

Project Overview

Zuleika Project:

Large landholding immediately northwest of Kalgoorlie in an area richly endowed with gold mineralization (e.g., near Kundana). The Zuleika Project contains several advanced resource development and exploration targets.

- Mineral Resource at Paradigm East Deposit of 288,000t @ 1.36g/t for 12,600oz¹ of contained gold
- The project area hosts advanced Exploration Targets like Browns Dam and Breakaway Dam
- Regional exploration targets like White Lake

¹ ASX:ZAG 28 January 2026 - Maiden Mineral Resource for Zuleika's Paradigm East Deposit

ZULEIKA GOLD

Project Overview

Credo Project:

North of Kalgoorlie and close to the Paddington operation.

- Credo Well Deposit Mineral Resource of 289,000t @ 2.43g/t for 22,500oz² of contained gold
- Opportunity to immediately increase resource with targeted drilling
- Mine camp opportunity with multiple targets defined

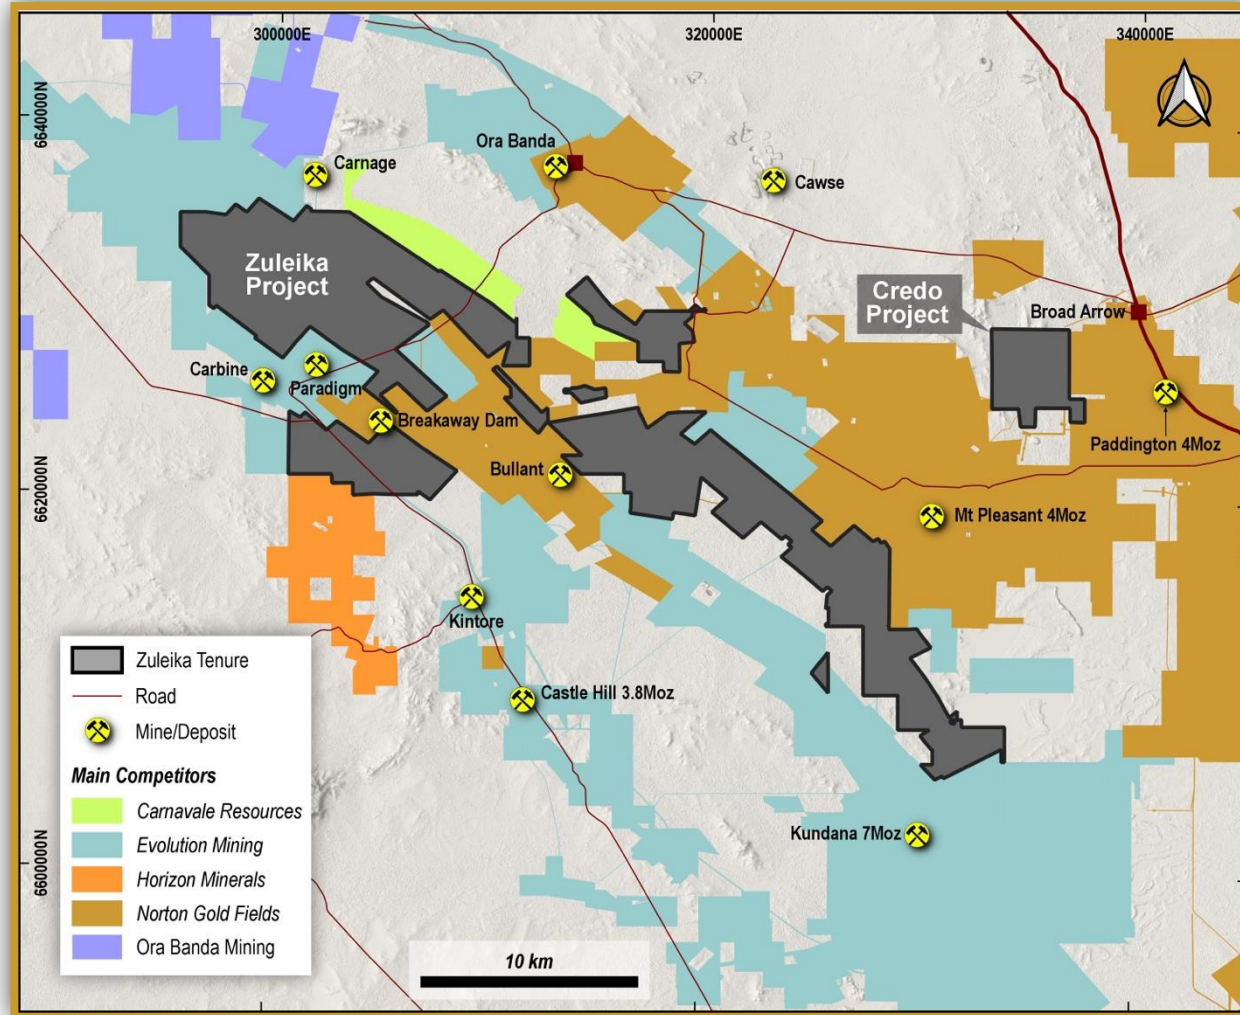

² ASX:ZAG 3 December 2025 - Significant Mineral Resource Upgrade to Credo Well Gold Project and Mining Studies to Commence

ZULEIKA GOLD

Regional Players

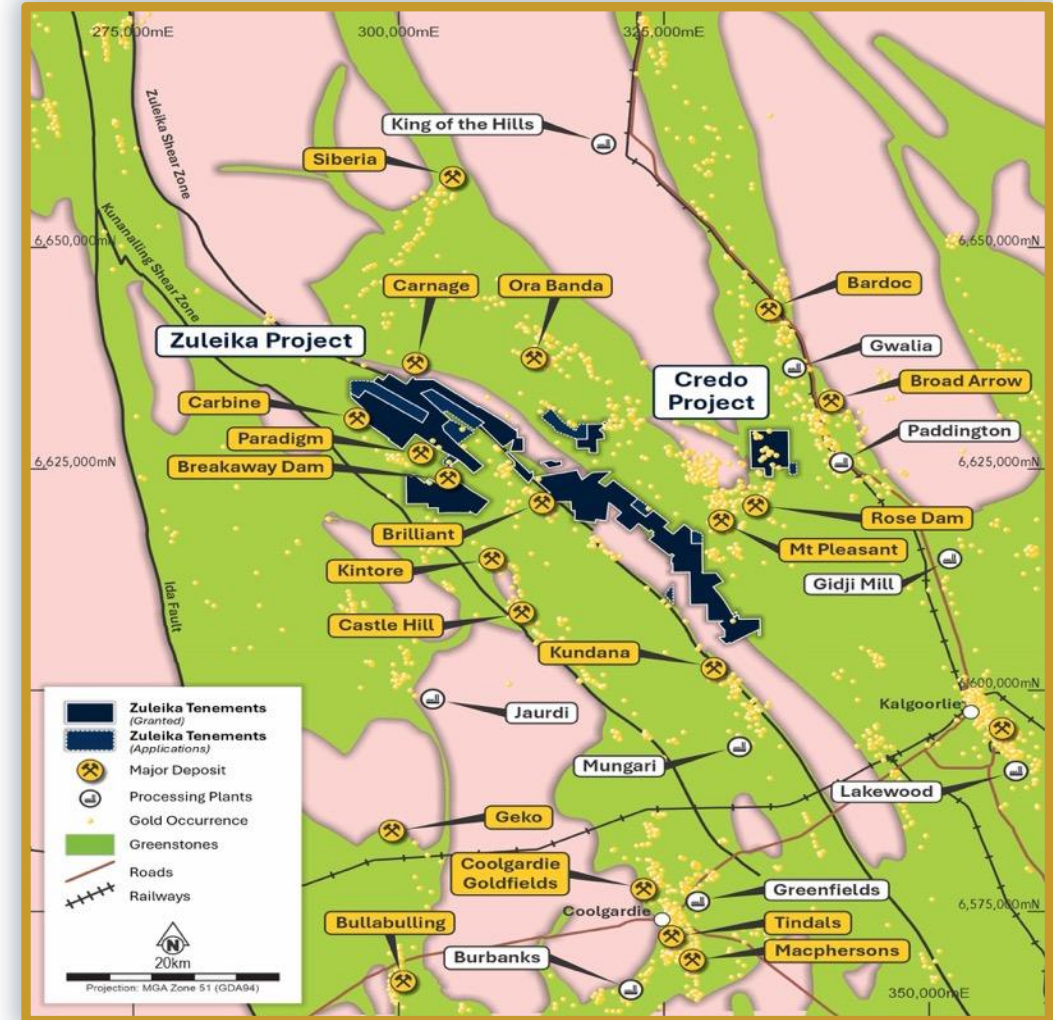

ZULEIKA GOLD

Zuleika Gold – Regional Setting

- Total land area 245km²
- 50km strike on Zuleika shear
- 20km strike on Carnage shear
- The region has produced over 20 million ounces of gold.
- The region has several operating mines and processing facilities.
- Existing Services and infrastructure are supportive of low cost accelerated mine development.

ZULEIKA GOLD

Prospects Summary

The Zuleika and Credo Projects form the company's portfolio. Zuleika has completed 30,000m of drilling with the aim of identifying, improving and expanding gold resources that can be commercialised in the medium term.

Resource Development Targets:

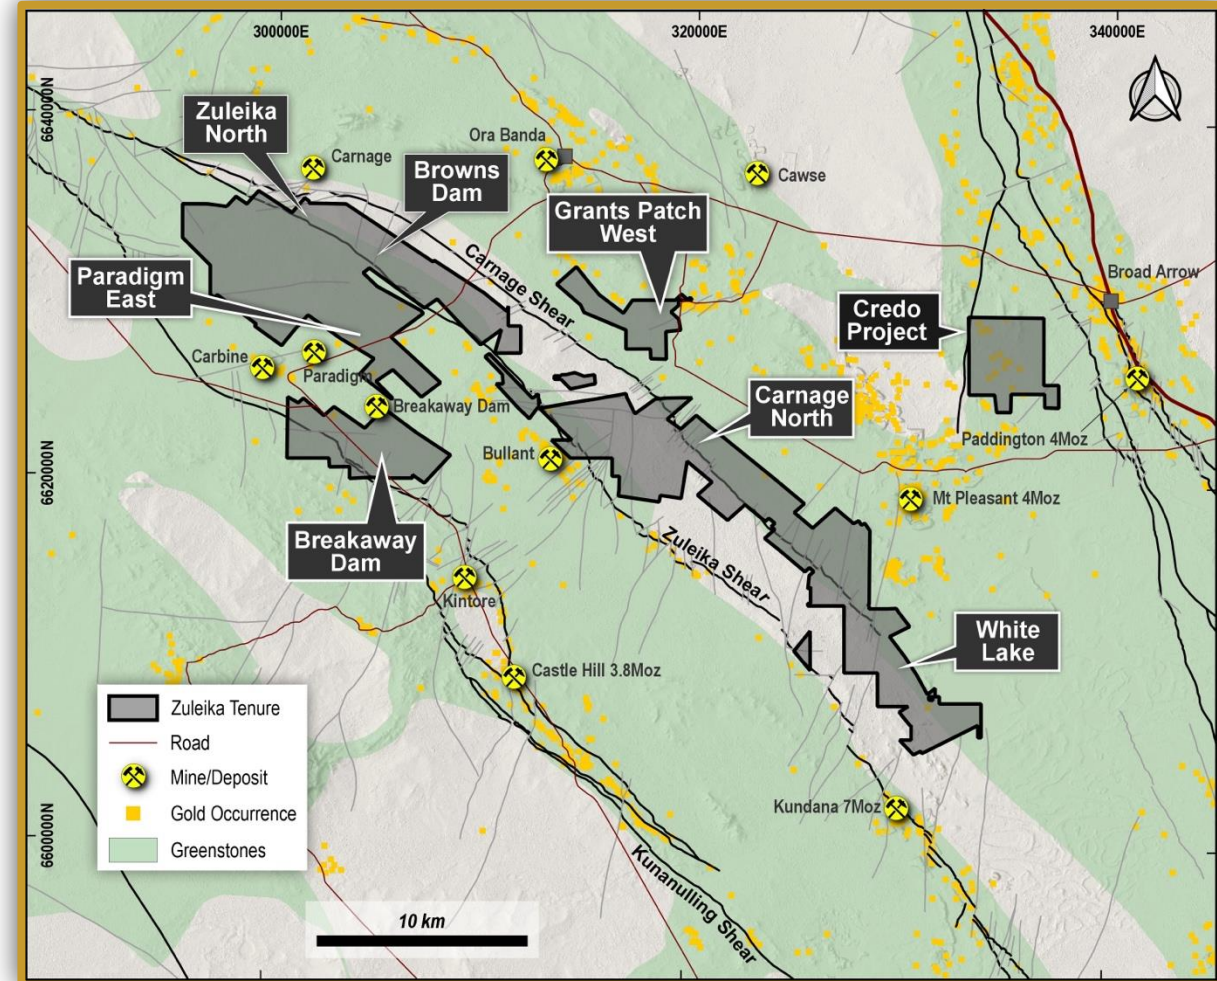

- Credo Well
- Paradigm East

Advanced Exploration Targets:

- Browns Dam
- Breakaway dam
- Paradigm South

Regional Targets:

- White Lake
- Carnage North
- Zuleika North

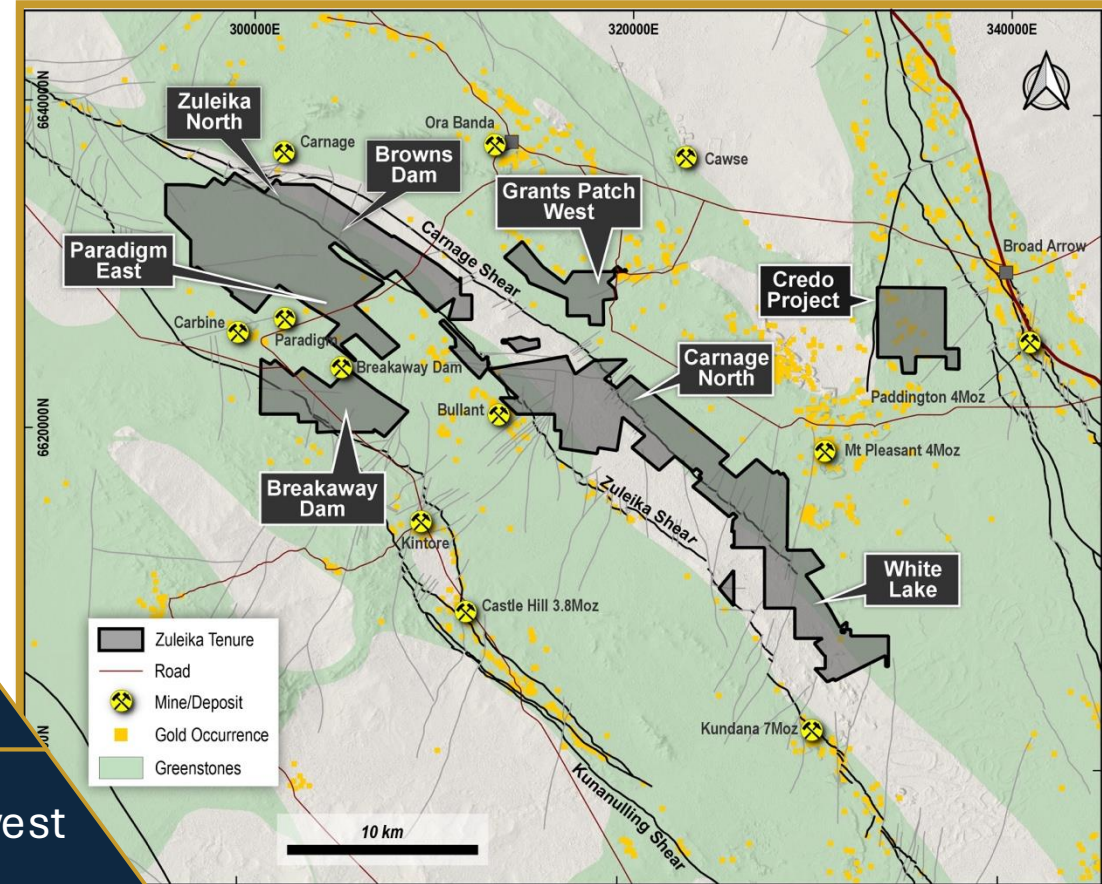

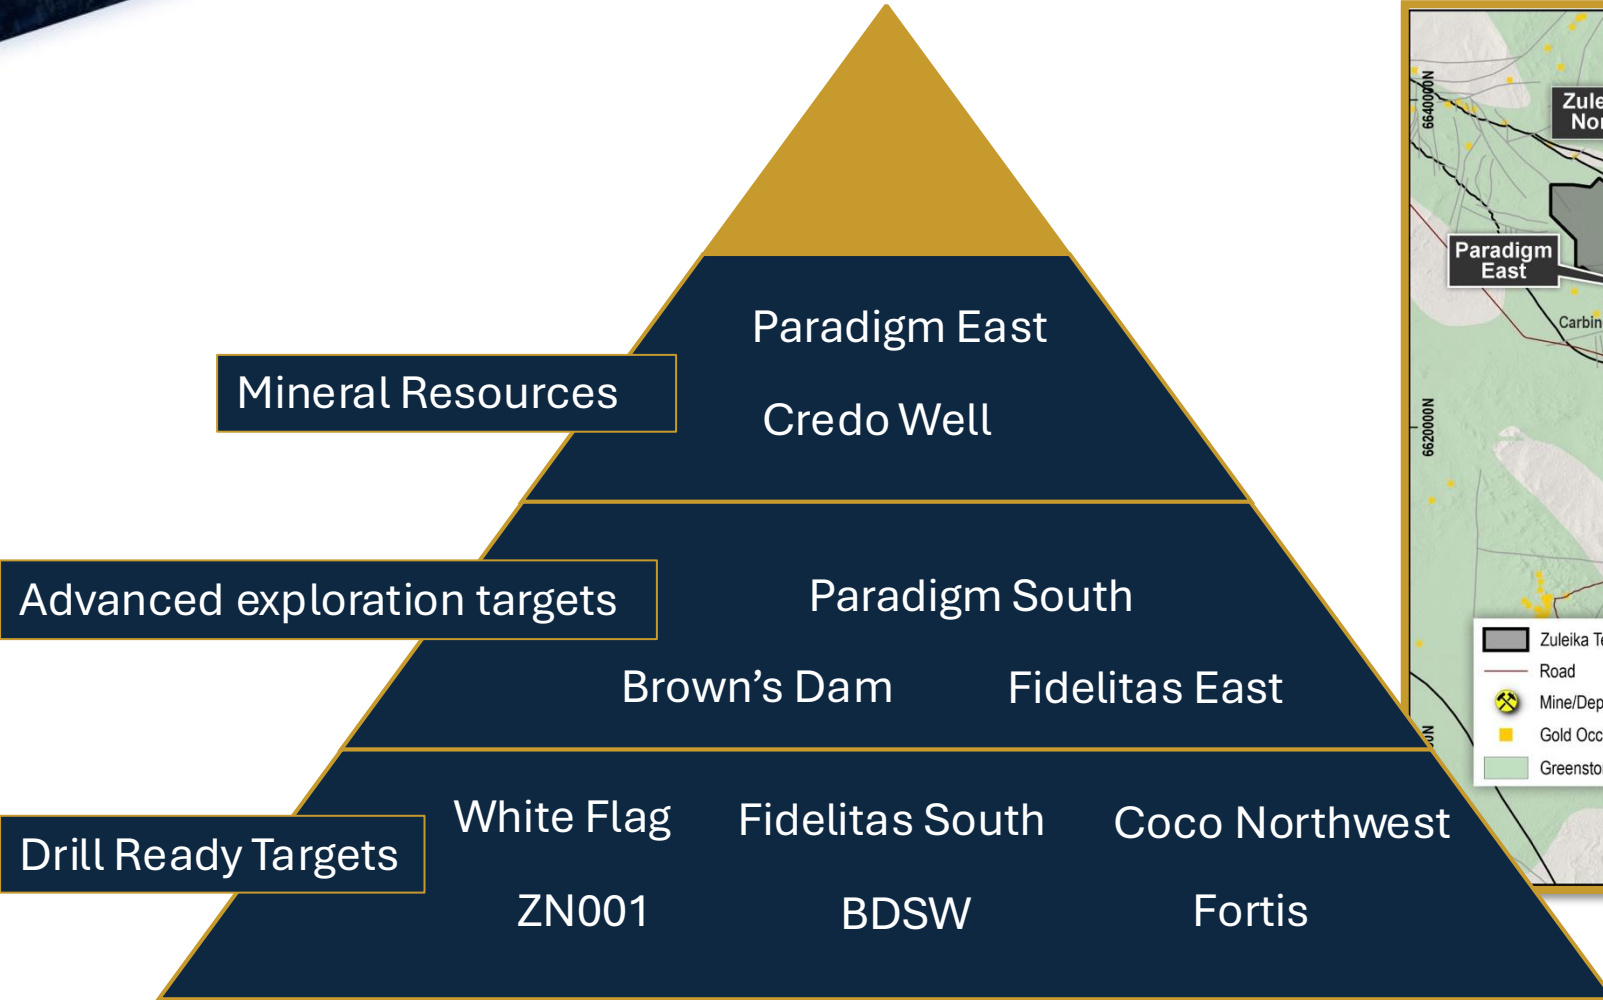

ZULEIKA GOLD

Prospects Summary

Monetisable Assets

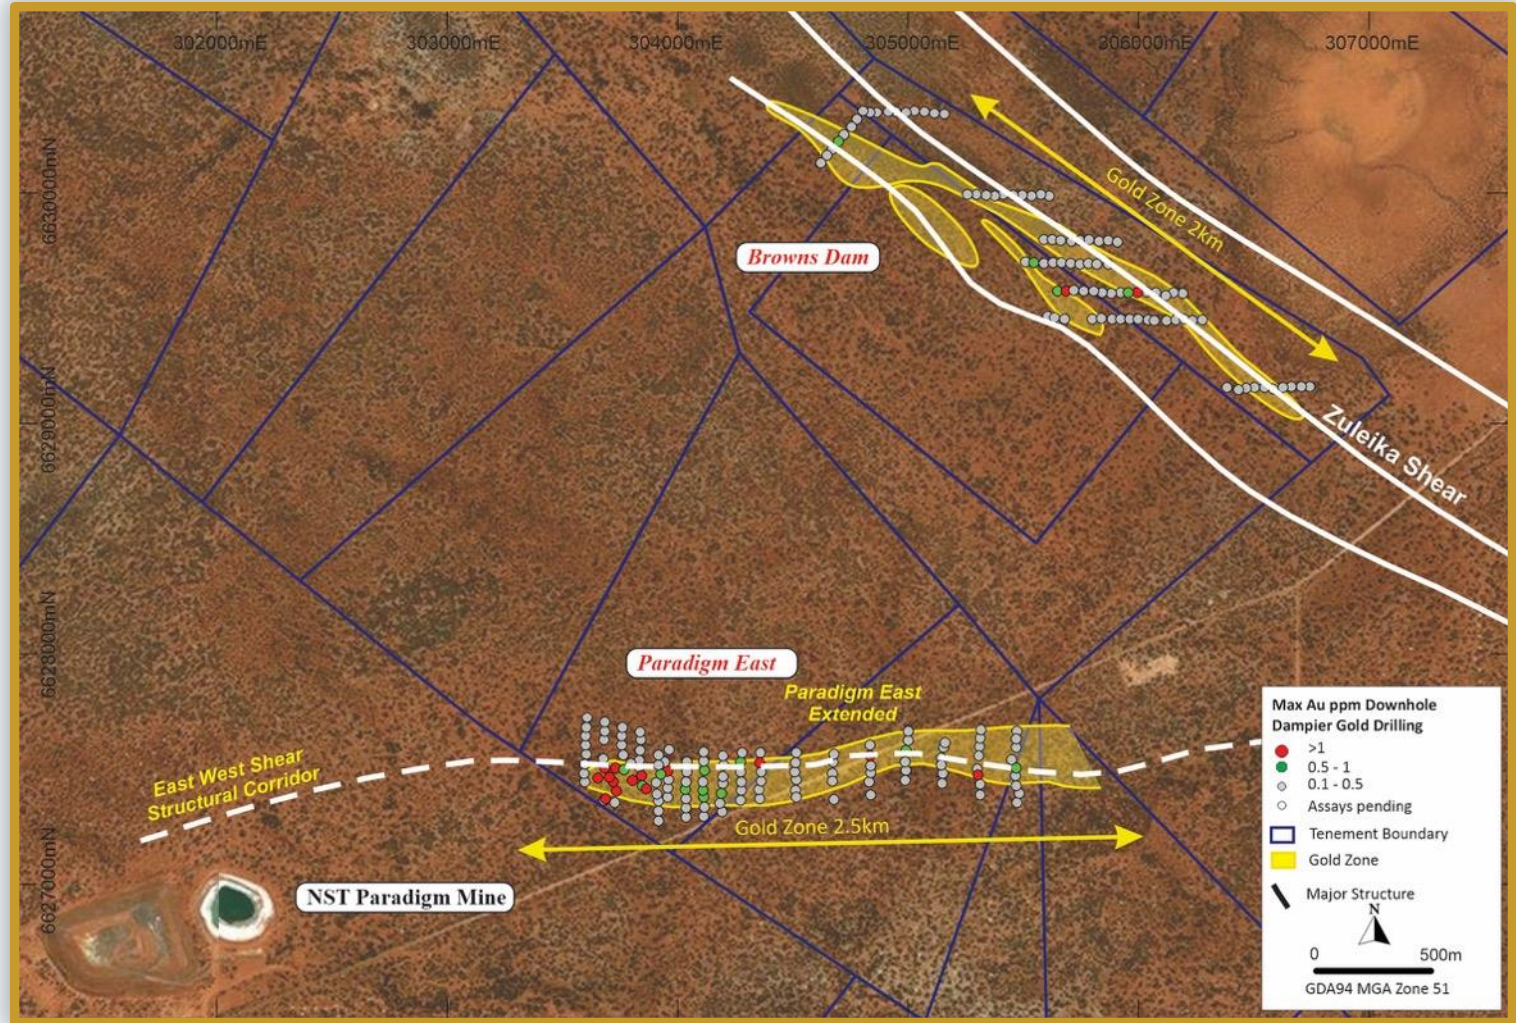

ZULEIKA GOLD

Resource Development Projects

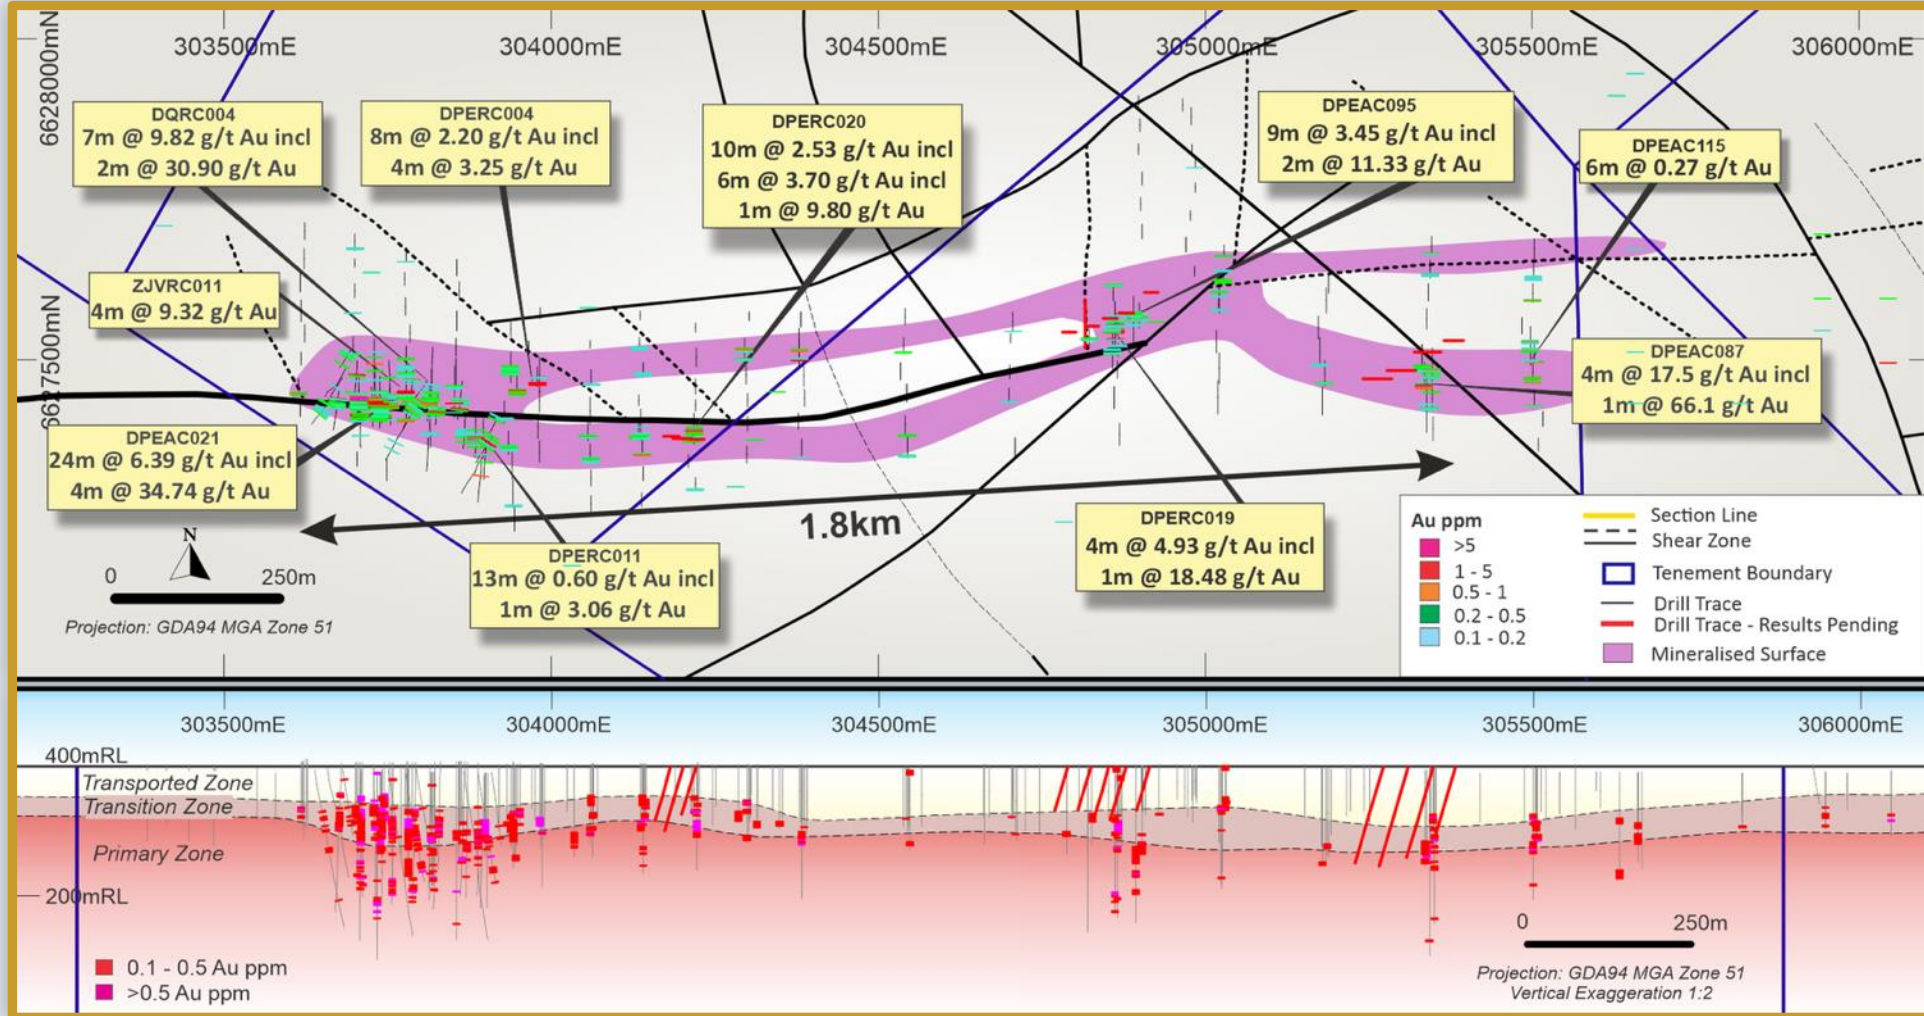

- Paradigm East

ZULEIKA GOLD

Paradigm East: Resource Development

ZULEIKA GOLD

Paradigm East: Mineralized Zone 1.8km

- 11 drillholes targeting the 1.8 km east-west mineralised structure at Paradigm East were completed and all results have now been received. High grade results beneath the supergene zones demonstrated a continuity of gold mineralisation at depth in the primary zone.
- Following the interpretation of the results, RC drilling will continue at Paradigm East with a focus to identify further zones of contiguous mineralisation.
- **4m @ 4.93 g/t Au from 71m³, including 1m @ 18.48g/t Au at 72m in DPERC019³ drilled beneath DPEAC095 which returned 11m @ 3.89 g/t Au from 48m⁴, including 6m @ 6.57 g/t Au from 52m⁴.**
- **10m @ 2.53 g/t Au from 51m³, including 6m @3.70 g/t Au from 52m³ and 1m @9.80 g/t Au at 52m in DPERCO20³.**
- Re-split 9m @ 3.45 g/t Au from 50m³, including 2m @ 11.33 g/t Au from 55m in DPEAC095³.

³ ASX:ZAG 27 July 2021 - Continuous High Grade Results at Paradigm East include 4m @ 4.93g/t Au and 10m @ 2.53 g/t Au | ⁴ ASXZAG 18 May 2021 - Spectacular Results at Paradigm East including 1m @ 66.1 g/t Au and 11m @ 3.9 g/t

ZULEIKA GOLD

Paradigm South: Advanced Exploration

- Located ~1.5 kms south of Paradigm East mineral resource and ~2 km north of the Breakaway Dam mine.
- Lines of air core drilling by Torian Resources identified relatively high-grade gold mineralisation in numerous holes.
- Wide-spaced follow up RC drilling by ZAG (as Dampier Gold) intercepted bedrock hosted mineralisation (**8m @ 3.14 ppm Au from 100 m⁸**) beneath gold mineralisation intercepted in air core drilling.
- No follow up drilling has yet been completed; the mineralised target remains open and untested.

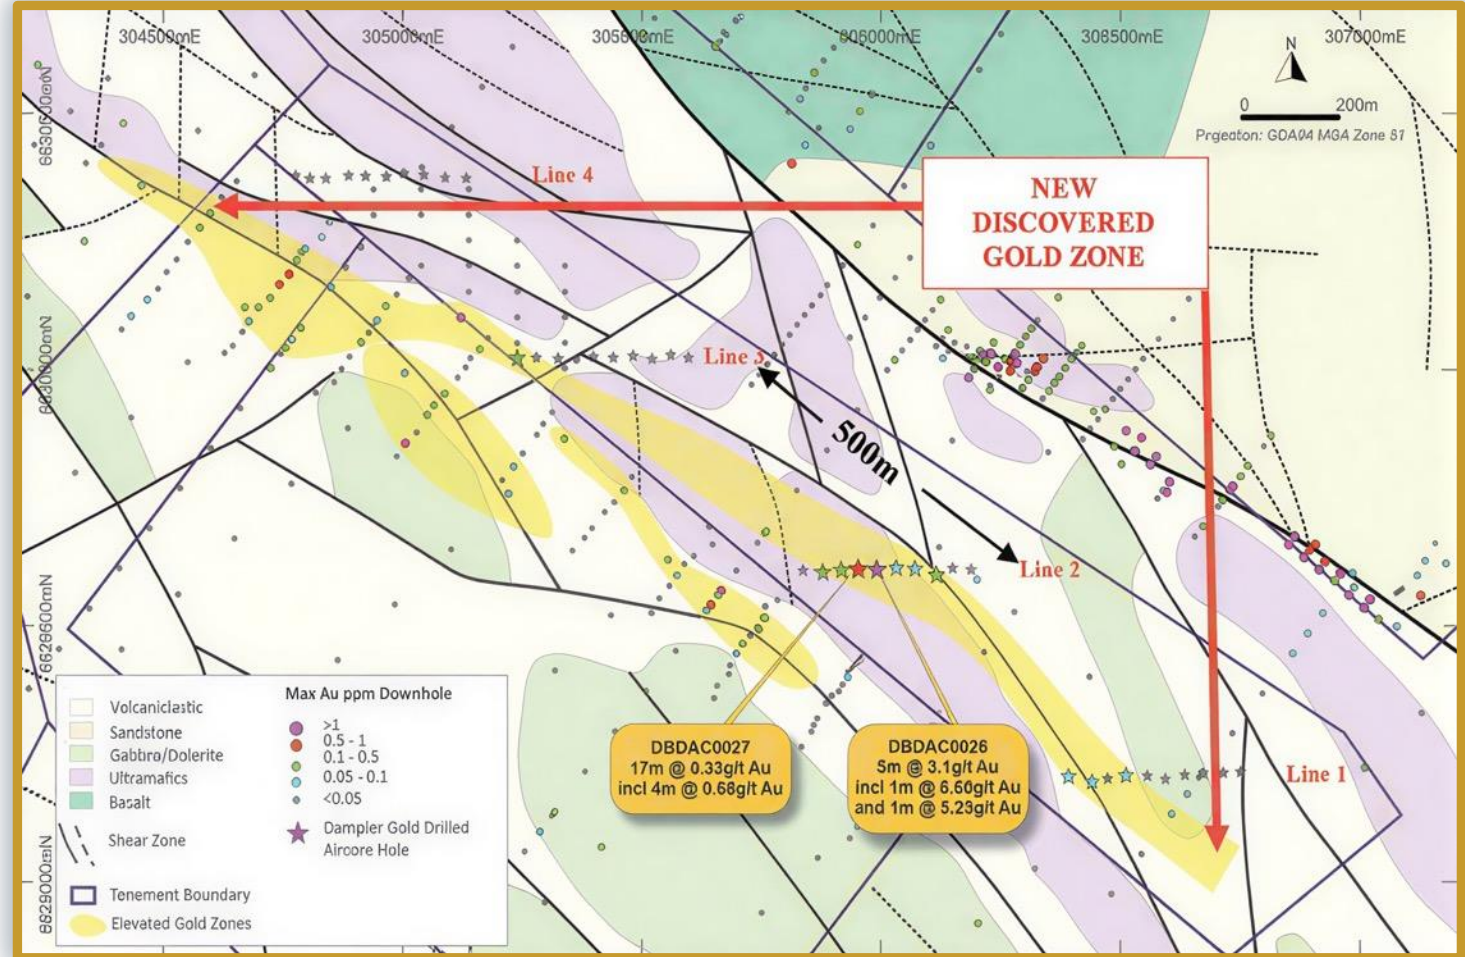

⁸ ASX:TNR (Torian Resources) 10 July 2018 - Significant RC Drill Results from Paradigm South at the Zuleika Project (incl. ZJVRC033 — 8m @ 3.14 g/t Au from 100m)

ZULEIKA GOLD

Browns Dam: Advanced Exploration

- First pass wide spaced 40m X 500m AC drilling completed in September 2020 returned peak result of 5m @ 3.1 g/t Au from 38m⁵ depth, including 1m @ 6.60 g/t Au from 42m⁵.
- Results also included high value gold anomalies including **>100ppb** Au which fall within a 120m wide anomalous zone, and **>50ppb** Au within a broader 300m wide anomalous zone.
- A new gold zone confirmed in a zone of interpreted weathered ultramafic intrusive and volcanics along the Zuleika Shear.

⁵ ASX:DAU (now ZAG) 15 October 2020 - Dampier Discovers New Gold Zone at Browns Dam

ZULEIKA GOLD

Browns Dam: Cross Section

Wide spaced Aircore drilling program at Browns Dam returned peak result of 5m @ 3.1 g/t Au from 38m⁵ depth.

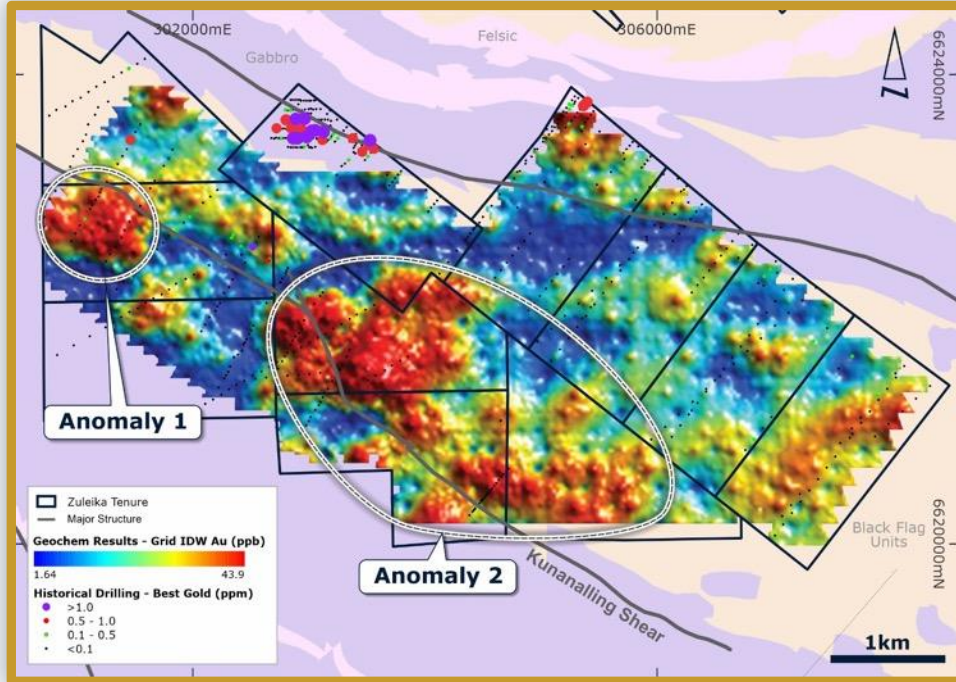

⁵ ASX:DAU (now ZAG) 15 October 2020 - Dampier Discovers New Gold Zone at Browns Dam

ZULEIKA GOLD

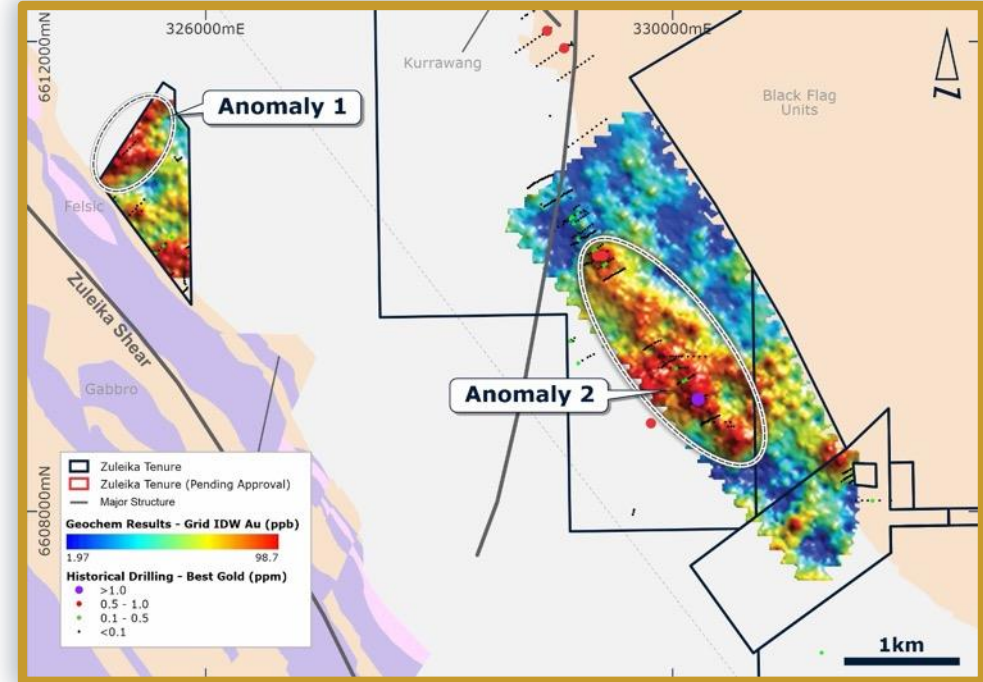

Advanced Regional Exploration Targets

Breakaway Dam

Data review and target ranking.

White Flag

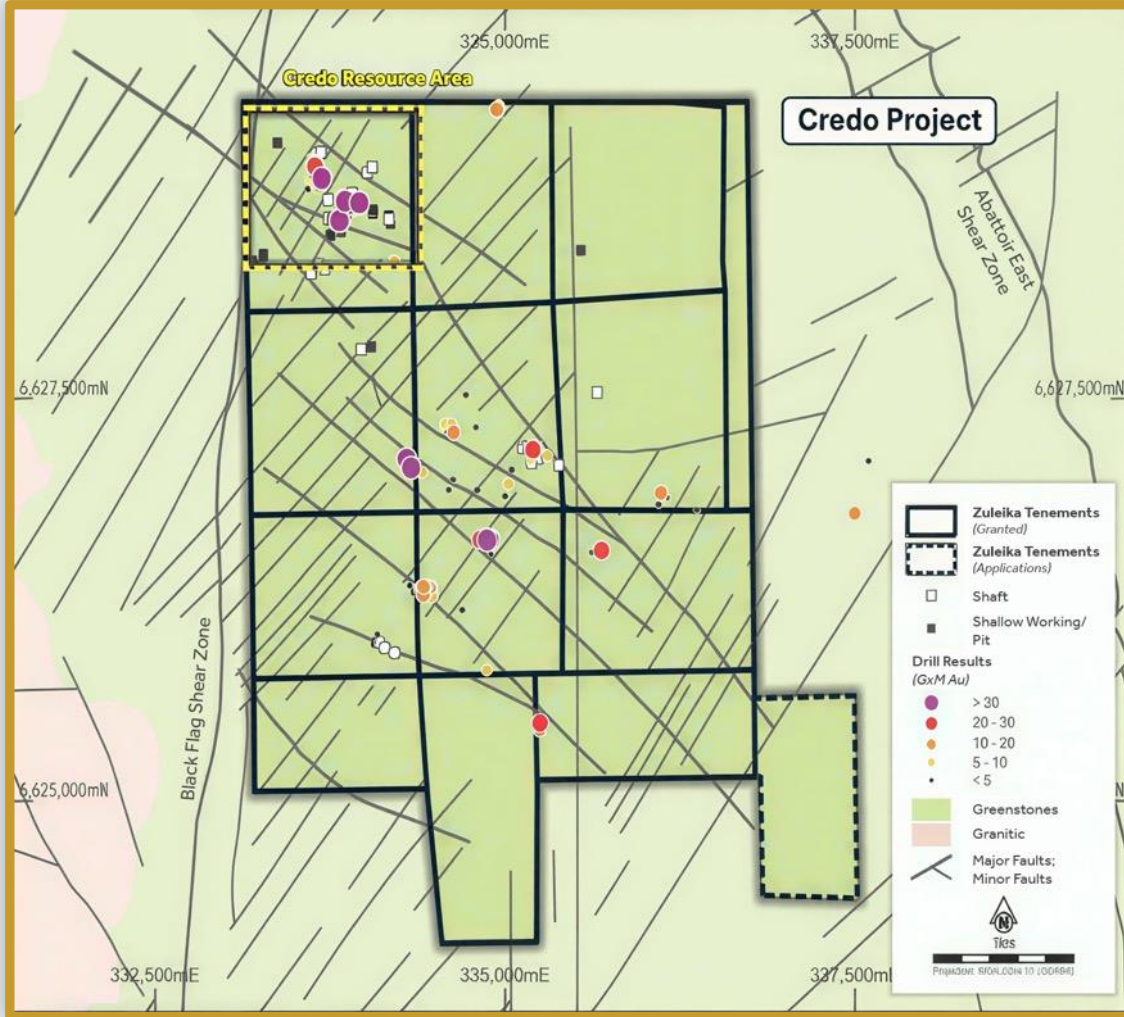

Develop targeted exploration plan:

- Drill to demonstrate prospectivity.
- If successful develop resource development strategy for selected prospects.

ZULEIKA GOLD

Credo Mine Camp Opportunity

ZULEIKA GOLD

Credo Project Advancement

Planning of works to advance the Credo project is underway. The companies' immediate priorities with Credo Mine Camp include:

- 1. Resource Expansion:** Immediate deeper drilling along Credo Well North to Credo Well Main to step out and target deeper extensions to resources and stacked lodes in the hanging and footwall zones.
- 2. Project Feasibility Advancement:** Diamond drilling to acquire diamond core samples from the Credo Well MRE zones. This is to acquire material for metallurgical sighter test work, acquire samples for specific gravity data to bolster the resource, and to obtain structural geological data.
- 3. Camp Scale Exploration:** Drilling of targets on the wider Credo property to rapidly pursue additional resources in parallel with the advancement of the Credo resource towards production. Gold mineralisation is present in numerous locations across the Credo project. Much of this drilling is present in air core and rotary air blast drillholes which do not identify the position and quality of the bedrock source of the mineralisation.

ZULEIKA GOLD

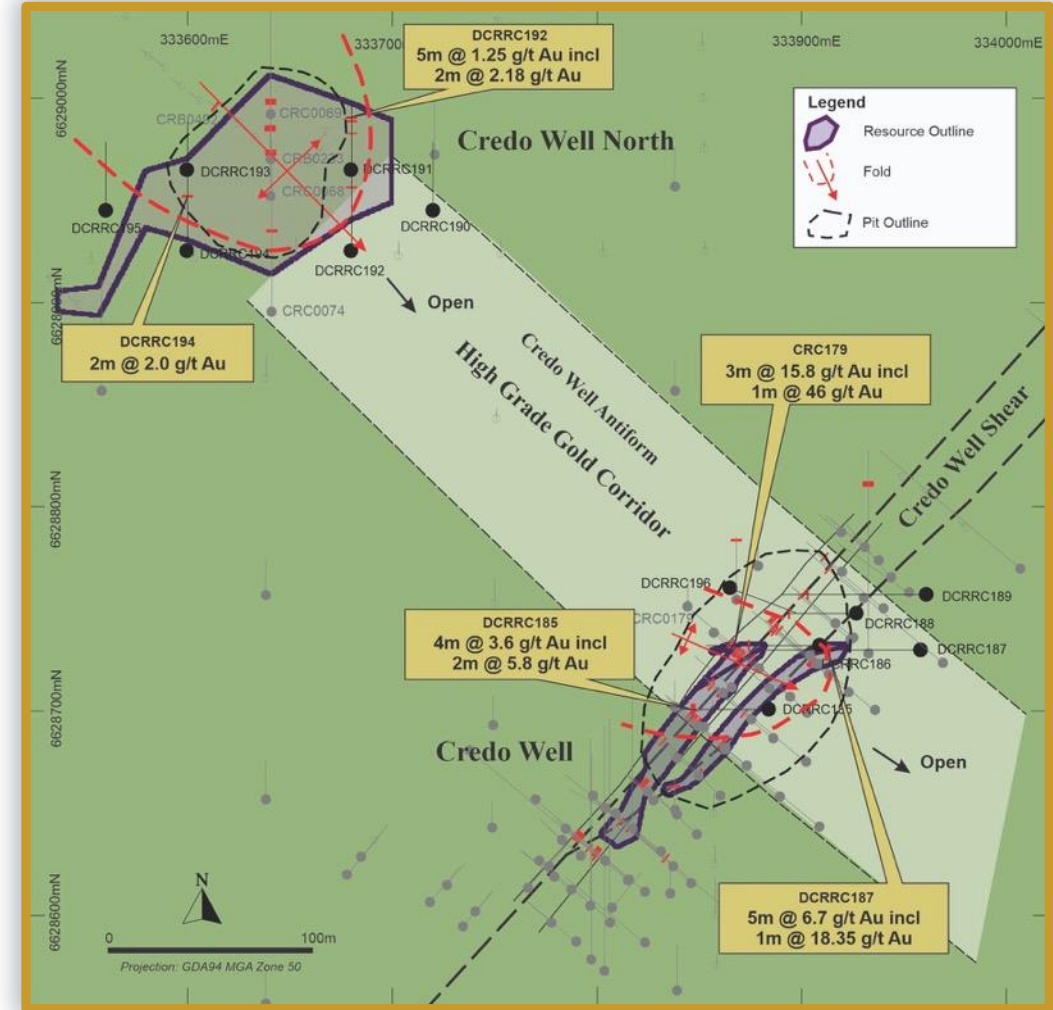

Credo Well Project: High Grade Corridor

Following on the successful first drilling, further soil program completed in September 2020 confirmed two high-grade gold Zones:

1. In the corridor between Credo NW and Credo Well with extension of 2.5km to the southeast;
2. Cross cutting structure parallel to known mineralized structures, **consistent with JORC models for Credo gold ore bodies** and open to South West.

Soil results from the Credo area include:

193ppb, 55.7ppb, 31.5ppb, 38.7ppb, 28.3ppb, 21.1ppb, 19.5ppb⁶

⁶ ASX:DAU (now ZAG) 21 January 2021 - High Grade Soils Results Confirm Anomalous Gold Corridors at Credo

ZULEIKA GOLD

Credo Project: Camp Scale Exploration

The wider Credo Project contains opportunity for the discovery of additional resources.

The Credo Well resource partially outcrops, whereas the remainder of the tenement to the south is covered.

This covered portion of the project contains gold in aircore drilling such as:

Target 9 Prospect

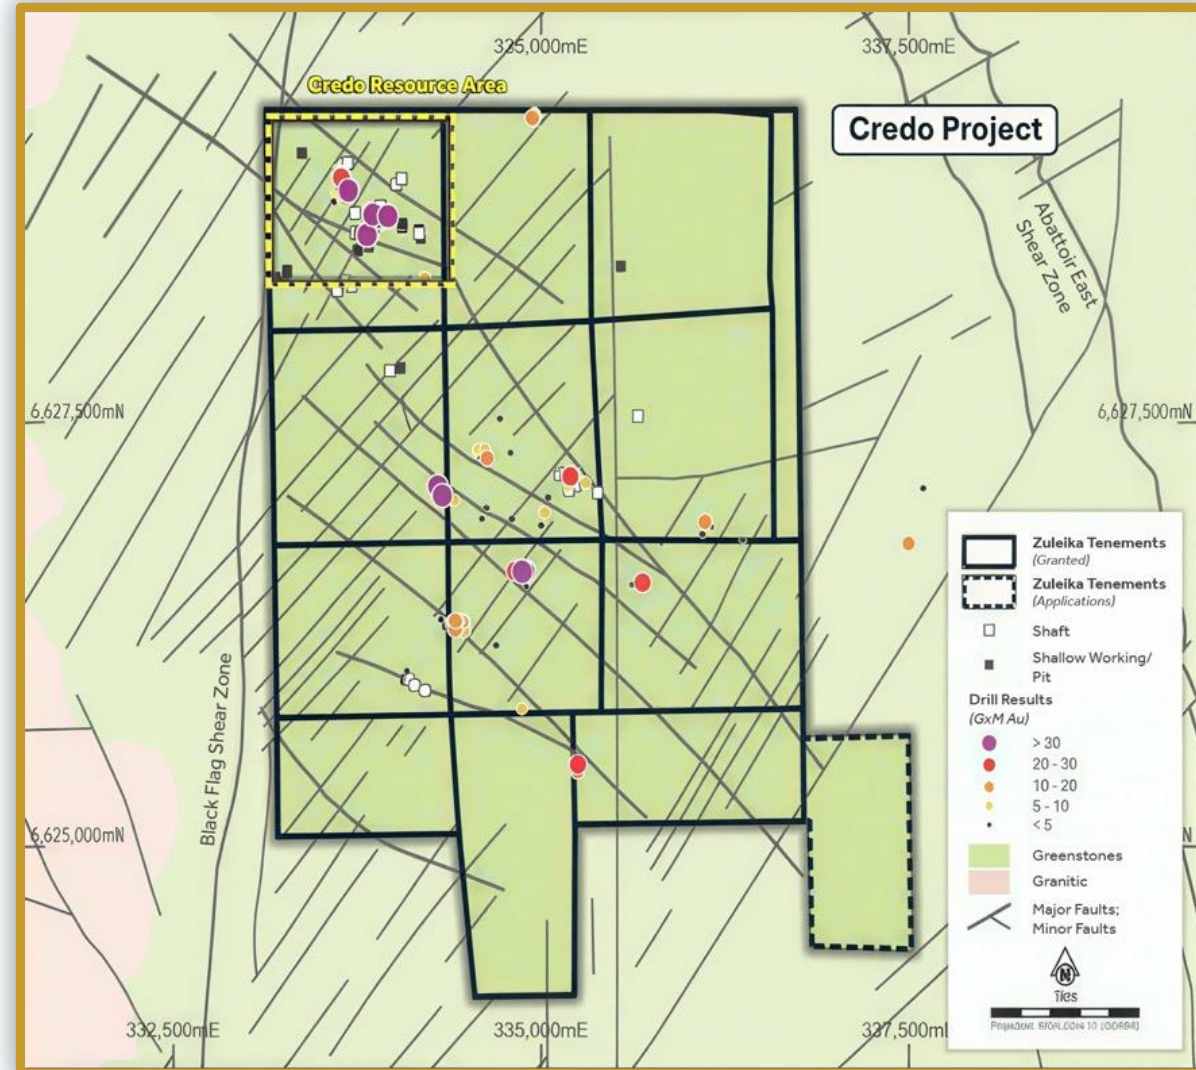

- 10 m @ 5.4 g/t Au from 45 m.⁹
- 5 m @ 10 g/t Au from 40 m.⁹

Fortis South Prospect

- 6 m @ 7.5 g/t Au from 0 m.⁹
- 8 m @ 4.35 g/t Au from 56 m.⁹

Future exploration at Credo will aim to delineate resources across the remainder project, as well as improving the quality of the Credo Well resource.

⁹ ASX:TNR (Torian Resources) 27 March 2019 - Credo Well Gold Project Update — Historical intersections from Fidelitas (south) include 5m @ 10.0 g/t Au from 40m

ZULEIKA GOLD

Credo Project: Camp Scale Targets Cross Section

Cross section displaying assays, drill traces, and historic *significant intercepts from the Fidelitas South and Target 9 targets.

*Significant intersections are based on > 4m at 0.3 ppm Au with a high-grade cap of 20 ppm. Shorter higher-grade intervals with a linear grade >2 are kept.

ZULEIKA GOLD

Credo Well Deposit

Current Credo MRE is 288,952t @ 2.43 g/t for 22,550Oz² contained.

Parts of the defined MRE remain open and ready for drill testing.

Drilling expected to improve and upgrade the MRE over the next 12 months.

Targeted work to:

- Improve and extend resource, immediate defined drill targets exist
- Aggressively test the defined mineralised northern 3km corridor
- Demonstrate regional mine camp scale potential
- Progress Mining Lease Application and MLA approval
- Fill gaps identified in latest MRE work:
 - SG
 - Metallurgy
 - Geotechnical

² ASX:ZAG 3 December 2025 - Significant Mineral Resource Upgrade to Credo Well Gold Project and Mining Studies to Commence

ZULEIKA GOLD

Credo Project: Conceptual Path to Production

- Community agreement and MLA application
- Resource drilling to upgrade to quality and scale of MRE
- Technical studies, SG, metallurgy, environment and mine closure
- Mining studies and approvals
- Contract for mining and logistics
- Competitive Ore Sale Agreement

ZULEIKA GOLD

Investment Highlights

- 100% Ownership with mining lease applications in progress
- Strategic location , services and infrastructure
- Existing processing facilities offer potential opportunity for early cashflow and commercialisation
- Capital intensity expected to be modest

P License-tenements pending application

ZULEIKA GOLD

Why Invest?

1. Immediate tangible strategy to increase the value of companies existing assets
2. Strategic location with low CAPEX path to commercialization
3. Aggressive resource definition drilling at Credo & Paradigm East
4. High priority regional targets to be tested
5. Potential for Company making discovery
6. Fully funded to pursue value creation

ZULEIKA GOLD

- ⁷ ASX:DAU (now ZAG) | 2 June 2020 - First Drill Program at Credo Delivers JORC Compliant Mineral Resources in High Grade Gold Corridor
- ⁸ ASX:TNR (Torian Resources) | 10 July 2018 - Significant RC Drill Results from Paradigm South at the Zuleika Project (incl. ZJVRC033 — 8m @ 3.14 g/t Au from 100m)
- ⁹ ASX:TNR (Torian Resources) | 27 March 2019 - Credo Well Gold Project Update — Historical intersections from Fidelitas (south) include 5m @ 10.0 g/t Au from 40m
- ¹⁰ ASX:DAU (now ZAG) | 19 December 2019 - Dampier ASX Due Diligence Update — Target 9 / Credo JV (referencing TNR ASX Ann. 14/2/2017)

Review notes: (i) Slide 14 deck text says Paradigm South RC was "by ZAG (as Dampier Gold)" — actually drilled by Torian Resources (TNR ASX 10-Jul-2018, ZJVRC033). (ii) Some Target 9 and Fortis South values on Slide 21 do not match exactly to any TNR/DAU/ZAG release in the archive — confirm original source / hole IDs. (iii) Slide 22 cross-section refers to "Fidelitas South" while Slide 21 calls it "Fortis South" — naming to reconcile.
