
NAB 2026 Product and Ecosystem Update

Expanding the Atomos ecosystem across on-set production, accessories, cloud workflows and reference monitoring

Melbourne, Australia - Atomos Limited ('ASX:AMS', 'Atomos' or the 'Company'), a global leader in professional video monitoring and workflow tools, provides an update on its latest product, accessory, and workflow announcements presented at NAB 2026. The announcements were led by Sumo PRO 19 and also included new accessories, workflow tools and ATOMOSphere functionality that continue to broaden the Atomos ecosystem and support more of the video production pipeline.

These new products complement the recently completed Flanders Scientific ('FSI') acquisition, and together represent the most significant expansion of the Atomos ecosystem to date, extending the Company's coverage from on-camera capture and on-set production through to cloud collaboration, post-production and final delivery.

At NAB, Atomos announced several new products, namely:

- Sumo PRO 19,
- Shogun AV FlyPack,
- A-Eye Controller PRO,
- StudioSonic AIR Headphones,
- CFexpress Card Reader,
- FieldPro Vest, and
- Updates to ATOMOSphere

Commenting on the NAB 2026 announcements, Atomos Managing Director and CEO, Peter Barber, said "Sumo PRO 19 and our broader NAB 2026 product lineup reflect continued execution against our product roadmap and strategy of building a more connected Atomos ecosystem. These releases expand our offering across on set production, accessories and cloud-based workflows, supporting more of the content creation process from capture through to delivery. Together with the recently announced acquisition of Flanders Scientific, they further broaden our product coverage across the professional video production workflow."

Sumo PRO 19

Price – \$4,399¹; Shipping – early June 2026

Our flagship product announced at NAB 2026 was the Sumo PRO 19, a new 19-inch 4K HDR monitor recorder switcher designed for modern on-set production. Evolving from the Sumo 19SE, Sumo PRO 19 is targeted at Directors, Directors of Photography, Digital Imaging Technicians and Video Assist teams seeking reliable multi-camera monitoring, image review and recording capability in demanding production environments.

Sumo PRO 19 acts as a central production hub on set, supporting recording in ProRes, ProRes RAW and Avid DNx, RAW workflows up to 8K, and media options including CFexpress and USB-C storage. The product also includes professional monitoring and workflow features such as EL Zone, waveform, focus peaking, LUTs, quad view, Wi-Fi, Ethernet, AirGlu timecode, built-in NDI HX3 and direct upload to ATOMOSphere, Frame.io and Dropbox.

The Sumo PRO 19 is our 7th product release of new and upgraded products in the last 12 months, reinforcing progress against Atomos' future product roadmap (refer [link](#)) and supporting the Company's commercial momentum.

At NAB, Sumo PRO 19 was widely praised and reviewed by attendees. It was also awarded multiple Best of Show Awards, reflecting a continued industry recognition of our innovation and product development. See articles below

A-Eye Controller PRO

Price - \$2,139; Shipping – August 2026

An advanced PTZ controller designed for multi camera production across broadcast, live events, studios and creator workflows. The controller supports NDI, VISCA, VISCA IP, Pelco and P&D and can manage up to 254 PTZ cameras from a single workstation.

StudioSonic AIR Headphones

Price – \$439; Shipping – July 2026

Dual mode production headphones designed for both on set and edit suite use, supporting wireless and wired monitoring, Bluetooth 5.4 and Pro-Active Noise Cancellation.

Shogun AV FlyPack

Price - \$329; Shipping – late June 2026

A rugged transport and rack solution for production crews, featuring an aluminium clad casing, integrated carry handle and 8RU rack mount rails.

CFexpress Card Reader

Price - \$219; Shipping – July 2026

A high-speed file transfer and backup accessory designed for ProRes RAW and high frame rate workflows, supporting transfer speeds of up to 40Gbps.

FieldPro Vest

Price – \$149; Shipping – June 2026

A wearable storage solution designed to improve on set mobility and access to essential gear, including multiple secure and quick access pockets and a convertible carry bag format.

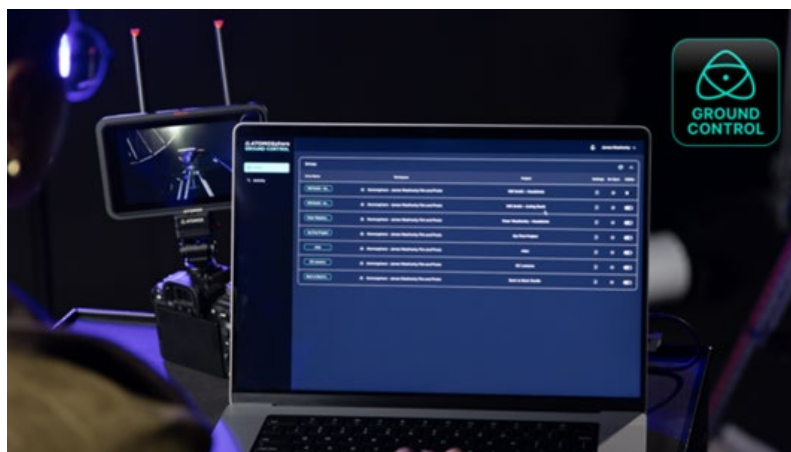

ATOMOSphere Update

NAB 2026 also included two significant updates to ATOMOSphere, further developing the platform's cloud-based editing, collaboration and workflow capabilities.

ATOMOSphere Editor is now available for paid subscribers and allows editing to begin the moment footage is uploaded, supporting cloud-based editing and team collaboration without requiring file downloads. Paid plans unlock expanded storage, advanced editing tools and premium features, with annual plans of 1TB and above also including a 15% discount on Atomos online store purchases, an integration designed to deepen the connection between the Company's hardware and software offerings.

Ground Control, a new desktop application, connects ATOMOSphere directly to a user's computer and presents cloud projects as accessible drives, enabling file browsing, organisation and preview through intelligent streaming and caching. Ground Control is expected to enter public beta shortly after NAB 2026.

Expanded Ecosystem Strategy and Reference Monitoring Capability

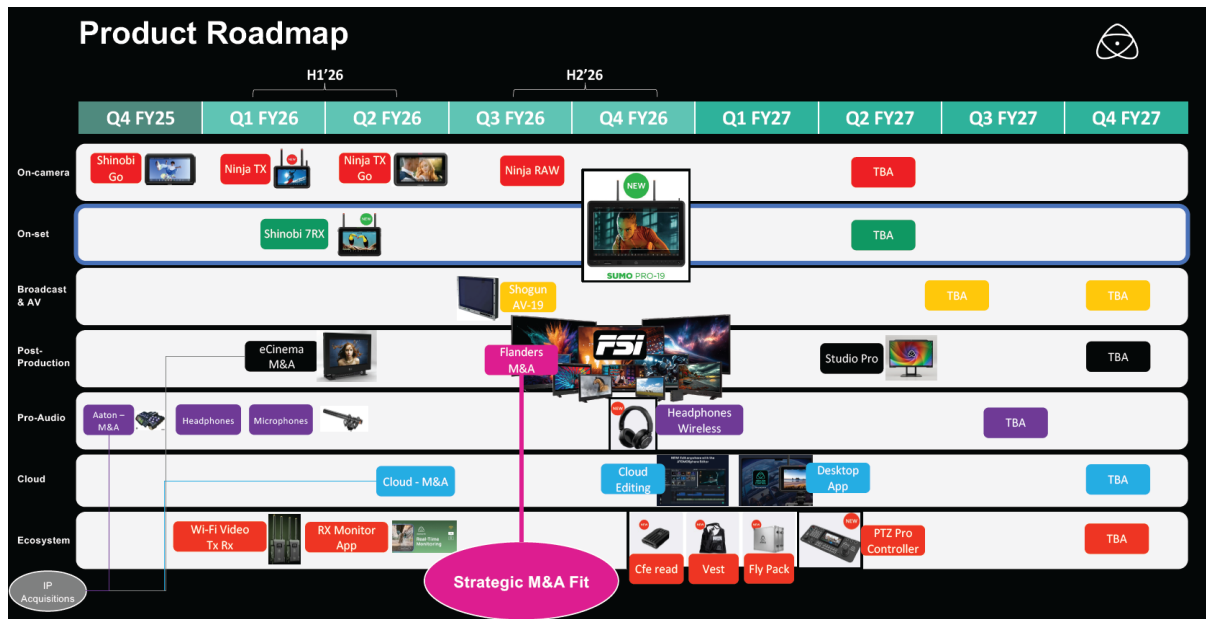

These new product announcements continue Atomos' strategy of broadening its product and workflow offering across more of the professional video production process, from on-camera capture and on-set monitoring through to cloud collaboration, post-production and final delivery. They are complemented by the recent acquisition of Flanders Scientific, which expands the Company's capability in professional reference monitoring.

Shareholders should refer to the Company's ASX [announcement](#) dated 13 April 2026 for further details regarding the acquisition.

FSI's GaiaColor AutoCal and Analyzer also won a TV Tech Best of Show award - [link](#)

Our current Product Roadmap and recent releases are shown below.

This announcement has been authorised for lodgement with ASX by the Board of Directors.
