Sales

Total sales of sustainable products were \$4.0m in Q3 FY26, up 4.1% on prior corresponding period (PCP), 0.2% QoQ and 1.7% YTD Q3 on PCP. QoQ sales increase primarily reflects strong growth in Council and waste management sales (+41.6% QoQ) partially offset by Retail and Corporate channels sales. Q3 on PCP sales increased across all channels.

Results include:

- Retail channels sales were \$2.0m in Q3 FY26, up 1.7% on PCP and down 9.5% QoQ. MyEco® branded Australian sales were \$1.4m in Q3 FY26, up 10.4% on PCP and down 6.0% QoQ, following record sales in Q2 FY26's festive season in major Australian supermarkets.
- Council and waste management sales were \$1.3m in Q3 FY26, up 2.1% on PCP and up 41.6% QoQ.
- Corporate channels sales, of which over 75% relates to resin sales, were \$0.7m in Q3 FY26, up 15.6% on PCP and down 17.3% QoQ.
- Gross margin increased to 24.8% in YTD Q3 FY26 up from 23.6% in YTD Q3 FY25 due to operational improvements and a favourable product mix compared to PCP.

Further information on sales performance is provided in the Sales Update below.

Cash

Net operating cash flows were negative \$0.9m in Q3 FY26 primarily driven by the Company building up inventory ahead of the upcoming launch of a new sustainable MyEcoBag® product range in Australian retail in Q4 FY26. Cash receipts from customers in Q3 FY26 were \$4.3m, down \$0.2m QoQ. Cash payments to suppliers/employees in Q3 FY26 were \$5.4m, up \$0.8m QoQ, primarily driven by required increases in production to build up inventory to meet anticipated orders to be delivered in Q4 FY26, and down \$0.4m on PCP reflecting the success of the Company's operational restructure program started in H1 FY26. Capital expenditure of \$0.02m was invested during Q3 FY26.

In addition, the Company received commitments of \$0.92m less costs through the successful issue of its Series 2 Convertible Note Program on 20 April 2026, as announced to the ASX on the same day.

Retail Channels

Global MyEco® Products

YTD Q3 FY26 sales of \$4.2m were up 1.9% compared to PCP. Q3 FY26 MyEcoBag® sales of \$1.4m were down 16.6% on the seasonally strong Q2 FY26 result and down 4.4% on PCP.

Australian sales of \$1.4m in Q3 FY26 (96% of the channel's sales this quarter) were down 6.0% compared to the record last quarter which included the Festive Season retail sales peak, and up 10.4% on PCP.

The 46.2% increase in Q3 FY26 compared to PCP for sales to major Australian Retailers Coles and Woolworths was partially offset by lower sales to Independents, down 40.9% on PCP mainly due to a peak in orders in Q3 FY25 by a single customer.

MyEcoBag® sales to the USA of \$0.1m in Q3 FY26 were down 77.0% QoQ and down 76.8% on PCP due to the variability of demand in the US.

MyEco® branded compostable bin and caddy liners continue to lead market share in both Coles and Woolworths at 42%² and 62%³ respectively.

White Label

Sales for the quarter increased to \$0.6m, up 14.4% QoQ and up 20.5% on PCP, driven by additional orders by UK-based Home Bargains, first orders from BUNZL, a global distributor for compostable shopping bags, and recurring sales to longstanding customers. YTD Q3 FY26 sales of \$1.5m were up 4.1% on PCP.

² IRI Scan Data 23/04/25 to 21/4/26

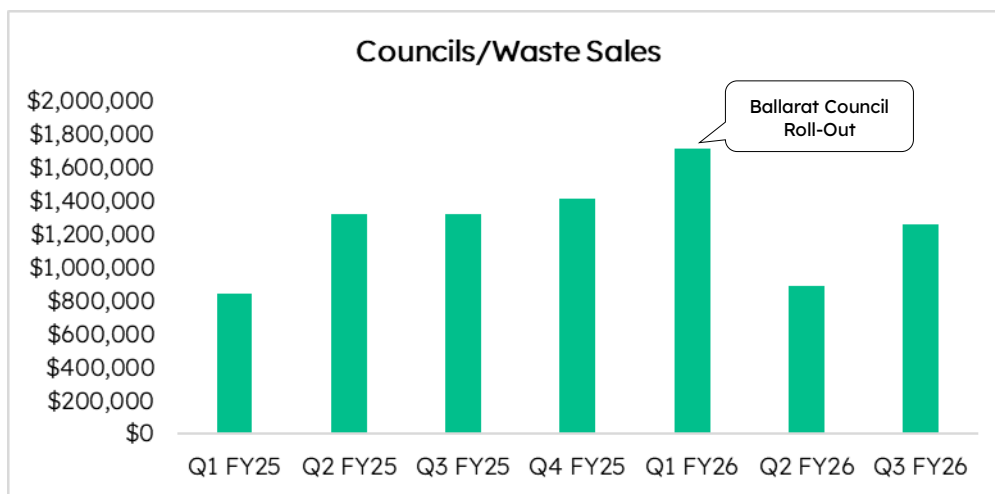

³ Quantum Scan Data 23/04/25 to 21/4/26

Council and Waste Channel

Council and Waste sales of \$1.3m for the quarter were up 41.6% QoQ, following lower than expected Q2 FY26 sales which were impacted by timing of customer deliveries, and up 2.1% on PCP. YTD Q3 FY26 sales of \$3.9m were up 13.8% on PCP.

The Company currently supplies Kitchen Caddy Liners and Pet Waste Bags to councils and waste management providers nationally. With further FOGO programs being rolled out by councils nationally, particularly in NSW, MyEco Group is actively bidding in FOGO related tenders, providing the opportunity to secure multi-year supply commitments. Two tenders submitted in Q3 FY26 delivered positive outcomes for MyEco Group with one win and one as preferred tenderer.

MyEco Group will be exhibiting at the upcoming Coffs Waste Conference in Coffs Harbour (NSW) in May 2026, presenting to councils and waste management providers the Company's demonstrated capability and capacity to meaningfully partner with councils in FOGO rollouts.

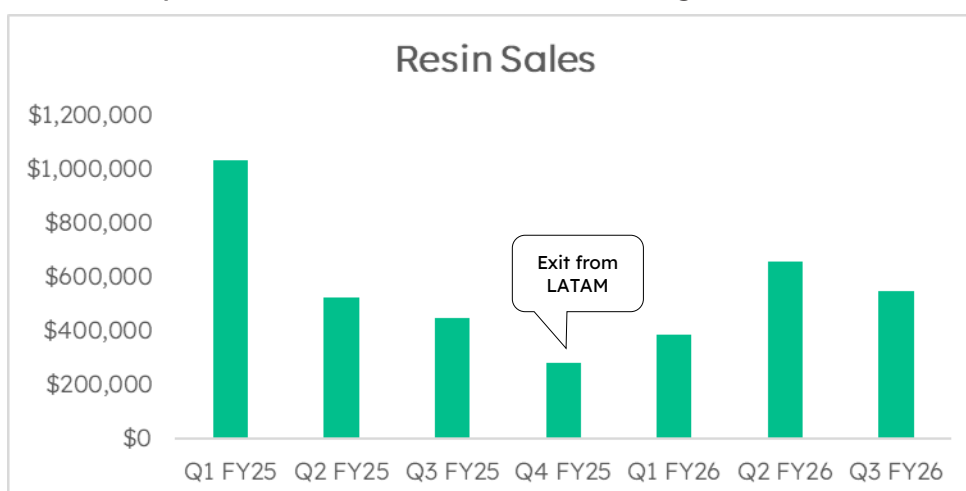

Corporate Channel

Resin

Resin sales to major converters and strategic partners of \$0.5m in Q3 FY26 were up 21.7% on PCP but were down 16.8% QoQ and 20.6% YTD Q3 on PCP reflecting softening of non-strategic resin sales in Malaysia and market volatility relating to the latter period.

The Group is continuing with the development of more technologically advanced resins to broaden applications for compostable packaging, in collaboration with the Solving Plastic Waste Cooperative Research Centre and leading Australian universities.

Film

Film sales represent a relatively small component of the business and the quarterly sales of \$0.2m were down 18.7% QoQ and 0.8% YTD Q3 on PCP, up 0.3% on Q3 PCP.

Cash Flow Update

The Q3 FY26 net operating cash outflows of \$0.9m were \$0.8m higher QoQ and \$0.1m higher than PCP. The increased outflows in the quarter were mainly driven by building up inventory ahead of the Company's upcoming launch (Q4 FY26) of a new sustainable MyEcoBag® product range in Australian retail, and timing of customers receipts.

Cash receipts from customers in Q3 FY26 were \$4.3m, down \$0.2m QoQ mainly due to customer deposits received in the previous quarter for sales in the current quarter. Cash payments to suppliers/employees in Q3 FY26 were \$5.4m, up \$0.8m QoQ, driven by the build-up of inventory for the new MyEcoBag® product launch, but down \$0.4m on PCP and down \$1.9m on YTD PCP, reflecting the success of the Company's operational restructure program started in H1 FY26. The company received \$0.2m in research & development tax incentives from the Australian Taxation Office in Q3 FY26, \$0.2m lower than PCP.

Capital expenditure (investing cash outflows) amounted to \$0.02m during the quarter.

The net financing cash outflows of \$0.2m comprise \$107,987 of principal lease payments recognised under IFRS 16 and \$42,478 of interest paid on convertible notes (including interest to Directors and their associates) during the quarter.

The cash balance as at 31 March 2026 was \$1.5m, with no bank debt, and an unused financing facility of up to \$1.0m⁴, which was renewed in January 2026, is repayable by 31 January 2027 and can be renewed by mutual agreement. The Company has subsequently received commitments of \$0.92m less costs from the issue of its Series 2 Convertible Note Program on 20 April 2026.

⁴ The drawn amount at any given time is a maximum of \$1.0 million and cannot exceed 80% of eligible trade receivables held by Cardia Bioplastics Australia (a wholly owned subsidiary of MyEco Group)

Pursuant to ASX Listing Rule 4.7C, as noted in item 6.1 of the Company's Appendix 4C Cashflow Statement, payments made to related parties and their associates total \$138,995 for Q3 FY26 relating to Directors' remuneration and fees, and interest on the Company's Series 1 Convertible Note.

Outlook

MyEco Group continues to pursue growth in accordance with the sales strategies by channel as described in the Chairman's address at the last annual general meeting of shareholders (see MyEco Group's ASX announcement dated 13 November 2025).

Outlook for the Company's major sales channels include:

Retail Channels (Global MyEco® Products and White Label)

- Forthcoming release of a new-to-market MyEco® branded product in Q4 FY26, both through retail and online channels.
- Further expected sales growth of existing products in Coles and Woolworths where MyEcoBag® has category leadership.
- Initiatives focused on acquiring new retail accounts within Australia, which commenced in Q4 FY26, as the Company drives expansion of its MyEco® branded products domestically.
- In the current context of increased cost pressure, the Company is actively engaging with customers to ensure it continues to provide fit-for-purpose products at adequate prices.

Councils and Waste Channel

- Continued investment in sales and marketing efforts to accommodate the 1 July 2026 NSW Government mandate for supermarkets, institutions and hospitality businesses to comply with organic waste separation requirements.
- Deployment of a new council-focused value proposition in Q4 FY26 by introducing new services which support new-to-FOGO councils (such as MyEco Group's council-residents online ordering portal).

The Company also expects to benefit from the material reduction in its cost base following the operational restructure in H1 FY26. The operational restructure has materially reduced costs in YTD FY26, while increasing flexibility to scale production through production partners that are better aligned to support MyEco Group's sales and distribution at lower capital cost.
