- Group EBITDA for the quarter of \$3.8 million, compared to \$4.5 million for the same period in the previous year. - During the quarter the related party loan increased by \$1.0 million due to the accrual of unpaid interest despite a favourable foreign currency exchange movement of \$1.6 million. The Group remains able to take advantage of discounted interest rates when cash is paid compared to the interest accrued if the accrual is not paid in cash. This incentivization scheme remains available until 31 January 2027.

Australian Operations

The third quarter of the financial year was adversely impacted by an increased level of wet weather incidents coupled with lower customer activities, compared to the prior corresponding period. Mining operations remain suspended at two major client sites, together with deferred work programs with other customers due to short term subdued demand with the steelmaking coal mines, especially in Queensland.

UK Operations

The moratorium on hydraulic fracturing remains in force and the company continues to progress several conventional gas opportunities on its onshore Licenses, which are unaffected by this moratorium.

REVIEW OF FINANCIAL CONDITION

Refer Appendix 4C attached.

RELATED PARTY PAYMENTS

Item 6 of the Appendix 4C cash flow report for the quarter includes payments to related parties of approximately \$481,000 which represents amounts paid to executive and non-executive directors and other key management personnel, including payments to tax authorities and superannuation for the financial period.

The amount does not include non cash remuneration expenses such as leave accrued in accordance with employment laws.

This announcement has been authorised for lodgment by the Board.

¹ Group recommenced quarterly reporting from 1 July 2025. The previous corresponding period has not been previously released.

The Senior syndicated finance facility provided by Balmain, is a revolving asset based loan. Originally drawn in October 2019, on 9 May 2025 this facility was increased to \$50 million and the maturity was extended to May 2027. The facility can be drawn to an upper limit of \$50 million (previously \$35 million) subject to certain prescribed levels of Security Assets. At 31 March 2026, the facility was drawn to \$21.2 million, while the undrawn availability under the facility was \$3.7 million.

The facility is secured by a first ranking charge over the Group's assets including the Drilling Division's plant and equipment, billed receivables, and unbilled receivables represented by contract assets in the Statement of Financial Position (together the "Security Assets").

Interest is calculated on the daily balance outstanding at the bank bill swap rate plus a margin and is payable monthly in arrears. In line with increases in BBSY the applicable interest rate on the facility is 11.52% on 31 March 2026 (December 2025: 11.22%).

While the Senior Syndicated facility matures in May 2027, it is classified as a current liability due to its revolving nature. Each repayment and subsequent drawing are separately disclosed in the Consolidated Statement of Cash Flow as Repayment of Borrowings and Proceeds from Borrowings, respectively.

The facility is subject to financial covenants have been complied with during the period.

Loans from related party

The loan from Kerogen, a related party holding 56.67% of the Company's issued shares at 31 March 2026 (unchanged from June 2025), is denominated in US dollars.

On 9 May 2025, the facility was amended to extend its maturity to July 2027. As part of this amendment, the facility became subordinated to the Senior Syndicated Facility and the facility was restructured into two tranches.

Interest accrued on the facility prior to 9 May 2025 was charged at 18% per annum. The current interest rate on Tranche 1 is 16% per annum and on Tranche 2 is 17% per annum. However, if interest is paid in cash prior to 31 January 2027, the applicable rates will be reduced to between 9% and 10% per annum as detailed below:
