Nominations of new Directors or executives are considered by the full Board. If any vacancies arise on the Board or at executive level, all directors are involved in the search and recruitment of a replacement. The Board has taken a view that the full Board will hold special meetings or sessions as required. - (c) the length of service of each director.*

The Company recognises that independent directors are important in assuring shareholders that the Board is properly fulfilling its role and is diligent in holding senior management accountable for its performance. The Board assesses each of the directors against specific criteria to decide whether they are in a position to exercise independent judgment.

In making this assessment, the Board considers all relevant facts and circumstances. Relationships that the Board will take into consideration when assessing independence are whether a Director:

- is a substantial shareholder of the Company or an officer of, or otherwise associated directly with, a substantial shareholder of the Company;
- is employed, or has previously been employed in an executive capacity by the Company or another Company member, and there has not been a period of at least three years between ceasing such employment and serving on the Board;

The Company has an informal program for the induction of new Directors. This induction covers all aspects of the Company's operations including the provision of information and meetings with relevant senior executives so as to ensure that new Directors are able to fulfil their responsibilities and contribute to Board discussions.

Existing Directors are encouraged to participate in appropriate professional development opportunities to develop and maintain the skills and knowledge needed to perform their role as a Director. The Chairman of the Board of Titan assesses individual Board members skills during the performance review of each director. The Code of Conduct sets out the principles, practices, and standards of personal behaviour the Company expects people to adopt in their daily business activities.

All Directors, officers and employees are required to comply with the Code of Conduct. Senior managers are expected to ensure that employees, contractors, consultants, agents and partners under their supervision are aware of the Company's expectations as set out in the Code of Conduct.

Any material breaches of the Code of Conduct are reported to the Board.

All Directors, officers and employees are expected to:

- comply with the law;
- act in the best interests of the Company;
- be responsible and accountable for their actions; and
- observe the ethical principles of fairness, honesty and truthfulness, including prompt disclosure of potential conflicts.

Recommendation 3.3

A Listed Entity should:

- (a) have and disclose a whistleblower policy; and*

Principle 4 – Safeguard the integrity of corporate reports

Recommendation 4.1

A board of a Listed Entity should:

- (a) have an audit committee which:*

Titan Minerals Limited

Corporate Governance Statement

- i. has at least 3 members, all of whom are non-executive directors and a majority of whom are independent directors; and*
- ii. is chaired by an independent director, who is not the chair of the board;*

And disclose:

- iii. the charter of the committee*
 - iv. the relevant qualifications and experience of the member of the committee; and*
 - v. in relation to each reporting period, the number of times the committee met throughout the period and the individual attendances of the member at those meetings; or*
- (b) if it does not have an audit committee, disclose that fact and the processes it employs that independently verify and safeguard the integrity of its corporate reporting, including the processes for the appointment and removal of the external auditor and the rotation of the audit engagement partner.*

Given the size and scale of the Company's operations, the full Board undertakes the role of the Audit Committee. The role and responsibilities of the Audit Committee are summarised below.

The Audit Committee is responsible for reviewing the integrity of the Company's financial reporting and overseeing the independence of the external auditors. The Board sets aside time to deal with issues and responsibilities usually delegated to the Audit Committee to ensure the integrity of the financial statements of the Company and the independence of the auditor.

The Board reviews the audited annual and half-year financial statements and any reports which accompany published financial statements and recommends their approval to the members. The Board also reviews annually the appointment of the external auditor, their independence and their fees.

The Board is also responsible for establishing policies on risk oversight and management. The Company has not formed a separate Risk Management Committee due to the size and scale of its operations.

External Auditors

The Company's policy is to appoint external auditors who clearly demonstrate quality and independence. The performance of the external auditor is reviewed annually and applications for tender of external audit services are requested as deemed appropriate, taking into consideration assessment of performance, existing value and tender costs.

An analysis of fees paid to the external auditors, including a break-down of fees for non-audit services, is provided in the notes to the financial statements in the Annual Report.

There is no indemnity provided by the Company to the auditor in respect of any potential liability to third parties.

The external auditor is requested to attend the annual general meeting and be available to answer shareholder questions about the conduct of the audit and preparation and content of the audit report.

Non-audit services provided by the auditors during the year are detailed in the financial statements.

The Board continues to strive to meet the ASX Corporate Governance Principles and Recommendations or other such principles and guidance as the Board may consider appropriate from time to time, however the Board also recognises that complying with the ASX Corporate Governance Principles and Recommendation 4.1 is impractical given the size of the Company and the industry in which it operates. The board consists of three (3) members and

Titan Minerals Limited

Corporate Governance Statement

therefore the Directors believe, it is sufficient for the full board to assume those responsibilities that are ordinarily assigned to an audit committee.

Recommendation 4.2

A board of a Listed Entity should, before it approves the entity's financial statements for a financial period, receive from its CEO and CFO a declaration that, in their opinion, the financial records of the entity have been properly maintained and that the financial statements comply with the appropriate accounting standards and give a true and fair view of the financial position and performance of the entity and that the opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.

As a matter of process the Titan Board receives this certification from the CEO and CFO, or those within the entity that perform the duties of the CEO and CFO, outlining compliance with Principle 4.2 before the finalisation of any financial statements.

Recommendation 4.3

A listed entity should disclose its process to verify the integrity of any periodic corporate report it releases to the market that is not audited or reviewed by an external auditor.

The Company has a process whereby relevant reports are generated by the CEO and or Chief Financial Officer, reviewed by the Company Secretary, and approved by the Board before release on the ASX platform.

Principle 5 – Make timely and balanced disclosure

Recommendation 5.1

A Listed Entity should:

A listed entity should have and disclose a written policy for complying with its continuous disclosure obligations under listing rule 3.1.

The Company has access to investor relation experts who are able to provide advice on an as needed basis.

Recommendation 6.3

A listed entity should disclose how it facilitates and encourages participation at meetings of security holders.

The Company has policies and procedures that enable shareholders to receive the reports and participate in shareholder meetings by attendance or by written communication. The Board seeks to notify all shareholders so they can be fully informed for voting at the Annual General Meeting or any General Meetings that arise. Shareholders who have made an election receive a copy of the Company's Annual Report by mail; otherwise, the Annual Report is available on the Company's website.

Recommendation 6.4

Titan Minerals Limited

Corporate Governance Statement

A listed entity should ensure that all substantive resolutions at a meeting of security holders are decided by a poll rather than by a show of hands.

All resolutions at securityholder meetings are decided by a poll rather than a show of hands.

The Board is responsible for establishing policies on risk oversight and management. The Company has not formed a separate Risk Management Committee due to the size and scale of its operations.

Details of the relevant qualifications and experience of the members of the Board and the number of times the Board met are detailed within the Annual Report. The Board is accountable for the implementation of the risk management process and is ultimately responsible for the management of risks in the business.

The Board has adopted a Risk Management Policy and associated procedures so as to formalise the process of managing material business risks of the Company. A copy of the Policy is available on the Company's website.

The board or a committee of the board should:

- (a) review the entity's risk management framework at least annually to satisfy itself that it continues to be sound; and*
- (b) disclose, in relation to each reporting period, whether such a review has taken place.*

The Risk Management Policy requires Management to design and implement risk management processes and systems to identify and manage the Company's material business risks and report to the Board on whether those risks are being managed effectively.

The Board is briefed and involved in discussions in relation to many of the material business risks facing the Company.

The risk management framework is reviewed at least annually by the Board.

The Chief Executive Officer and the Chief Financial Officer are required to make a declaration in accordance with section 295A of the Corporations Act that the Company's financial reports present a true and fair view in all material respects of the Company's financial condition and operational results and are in accordance with relevant accounting standards, and to provide assurance that the declaration is founded on a sound system of risk management and internal control, and that the system is operating effectively in all material respects.

Recommendation 7.3

A Listed Entity should disclose:

- (a) if it has an internal audit function, how the function is structured and what role it performs; or*
- (b) if it does not have an internal audit function, that fact and the processes it employs for evaluating and continually improving the effectiveness of its risk management and internal control processes.*

The Company does not have a formal internal audit function. The Board monitors the need for an internal audit function having regard to the size, geographic location and complexity of the Company's operations.

The Company's Management periodically undertakes an internal review of financial systems and processes and where systems are considered to require improvement these systems are developed. The Board also considers external reviews of specific areas and monitors the implementation of system improvement

Recommendation 7.4

A listed entity should disclose whether it has any material exposure to environmental and social risks and, if it does, how it manages or intends to manage those risks.

The Company is involved in minerals exploration and, as such, faces risks inherent to its business, including economic, environmental and social sustainability risks, which may materially impact the Company's ability to create or preserve value for security holders over the short, medium or long term.

Principle 8 – Remunerate fairly and responsibly

Recommendation 8.1

The board of a listed entity should:

(a) have a remuneration committee which:

- i. has at least three members, a majority of whom are independent directors; and*
- ii. is chaired by an independent director,*

and disclose:

- iii. the charter of the committee;*
 - iv. the members of the committee; and*
 - v. as at the end of each reporting period, the number of times the committee met throughout the period and the individual attendances of the members at those meetings; or*
- (b) if it does not have a remuneration committee, disclose that fact and the processes it employs for setting the level and composition of remuneration for directors and senior executives and ensuring that such remuneration is appropriate and not excessive.*

The Board has not established a separate Remuneration Committee due to the size and scale of its operations. This does not comply with Recommendation 8.1 however the Board as a whole takes responsibility for such issues and has adopted a Remuneration Policy which can be found in the Corporate Governance section of the Company's website.

The responsibilities include setting policies for senior officers remuneration, reviewing and making recommendations on the Company's incentive schemes and superannuation arrangements, reviewing the remuneration of both executive and non-executive directors and undertaking reviews of the directors performance.

The board policy is to remunerate Directors at market rates for time, commitment and responsibilities. The Board determines payments to the Directors and reviews their remuneration annually, based on market practice, duties and accountability. Independent external advice is sought when required. Fees for Non-Executive Directors are not linked to the performance of the consolidated entity. However, to align Directors' interests with shareholders' interests, the Directors are encouraged to hold shares in the Company.

The Company's aim is to remunerate at a level that will attract and retain high-calibre directors and employees. Company officers and Directors are remunerated to a level consistent with the size of the Company.

The Board believes that it has implemented suitable practices and procedures that are appropriate for an organisation of this size and maturity.

In accordance with best practice corporate governance, the structure of Non-Executive Director and Executive compensation is separate and distinct.

Titan Minerals Limited

Corporate Governance Statement

In determining remuneration, the Board has taken a view that the full Board will hold special meetings or sessions as required. The Board are confident that this process for determining remuneration is stringent and full details of remuneration policies and remuneration received by directors and executives in the current period is contained in the “Remuneration Report” within the Directors’ Report of the Annual Report.

Recommendation 8.2

A listed entity should separately disclose its policies and practices regarding the remuneration of non-executive directors and the remuneration of executive directors and other senior executives.

A copy of the Remuneration Policy can be found in the Corporate Governance section of the Company’s website.

The Company has structured the remuneration of its senior executives, where applicable, such that it comprises a fixed salary, statutory superannuation and participation in Company Incentive Plans. The Company believes that by remunerating senior executives in this manner it rewards them for performance and aligns their interests with those of shareholders and increases the Company’s performance.

Non-executive directors are paid their director fees out of the maximum aggregate amount to be approved by shareholders for non-executive director remuneration. In addition, non-executive directors may receive some additional fees related to work that is considered in excess of their director duties at rates approved by Executive Directors. Total non-executive remuneration will be disclosed in the Company annual report. The Company does not necessarily adhere to Guidelines for non-executive director remuneration for example ‘Non-executive directors should not receive options with performance hurdles’. The Company has previously issued performance rights to non-executive directors and will potentially do so in the future. The Board is of the view that performance rights, and also direct issues of shares in the Company (for both executive and non-executive directors) are a non-cash cost effective benefit for small companies such as Titan that seek to conserve cash reserves.

The Remuneration Report contained in the Annual Report outlines the Director and executive remuneration arrangements of the Company in accordance with the requirements of the *Corporations Act 2001* and the Corporations Regulations. It also provides the remuneration disclosure required by AASB 124 Related Party Disclosures.

There are no schemes for retirement benefits, other than superannuation, for Non-Executive Directors, where applicable.

Recommendation 8.3

A listed entity which has an equity-based remuneration scheme should:

- (a) have a policy on whether participants are permitted to enter into transactions (whether through the use of derivatives or otherwise) which limit the economic risk of participating in the scheme; and*
- (b) disclose that policy or a summary of it.*

In order to conserve cash and align staff, advisors and consultants, the Company may from time to time issue Titan shares as part of total compensation for work or services undertaken as agreed in individual agreements.

Titan has adopted a Share Trading Policy that all participants in an equity based remuneration scheme are not allowed to use derivatives which hedges against the equity position provided via the equity based remuneration

scheme. A copy of the Share Trading Policy can be found on the Corporate Governance home page on the Company's website.
