About Decidr AI Industries (ASX:DAI)

Decidr AI Industries (ASX: DAI) is an agentic transformation group building and scaling portfolio companies that enable organisations to systematically organise, execute, and distribute work using enterprise-grade agentic systems. The Company’s strategy addresses the full agentic lifecycle, including organisational self-knowledge, human and agentic role definition, data and schema normalisation, task orchestration, and the distribution of work across teams, partners, and labour markets.

DAI’s portfolio includes Decidr.ai, developer of the Decidr Agentic Operating System, which provides an enterprise-grade platform for orchestrating agentic workflows and decision-

making, and Sugarwork, a knowledge-capture and workflow-automation platform that strengthens the group's capabilities in organisational intelligence and enterprise AI adoption.

Through its portfolio companies, DAI supports organisations as they transition from fragmented AI experimentation to coordinated, scalable, and commercially deployable agentic systems across industries and geographies.
