

QUARTERLY ACTIVITIES REPORT FOR PERIOD ENDED 31 MARCH 2026

HIGHLIGHTS

Swanson Tantalum Project

- Binding Term Sheet¹ executed with Hongkong Xinhai Mining Services Limited, granting Xinhai the exclusive option to enter into a definitive agreement with Arcadia to:
 - **Construct and commission a gravimetric plant at ML223**, with a capacity of no less than the maximum described in the 2023 DFS² and,
 - **Conduct exploration over EPL 5047** for Mafic/Ultramafic mineralisation and Lithium and Tantalum bearing Pegmatites.
- Hongkong Xinhai Mining Services Limited is the Hong Kong entity of Shandong Xinhai Mining Technology & Equipment Inc. of China, a **major global mining services provider** offering integrated solutions, with experience servicing **2,500 mines and completing over 600 EPC+M+O projects across 100 countries and regions**.³
- The Binding Term Sheet with Xinhai follows the completion of an **extensive competitive offtake and funding process** completed by Arcadia during CY2025.
- During the Quarter, the option with Xinhai expired following the passing of 45 days, and Arcadia noted that Xinhai's due diligence was continuing and that discussions remained underway.⁴

Karibib Copper Gold Project

- Project remains in **good standing**.
- Arcadia is positioned to benefit from the Project's advancement via the **binding agreement executed**⁵ with Kaoko Metals through a potential four-stage earn-in.
- The transaction is set to bring in a credible and committed partner to **accelerate exploration and development** at Karibib.

TVC Projects

Includes the TVC Ta-Li & Ni-PGE Projects

- The Projects **remains in good standing, and discussions** with third parties remain ongoing (over EL7295 only following option agreement with Xinhai over EL5047), **reflecting sustained and increasing interest** in potential exploration joint ventures across the TVC Projects.

¹ Refer to ASX announcement, "Option Granted to Advance Swanson into Production", 30 January 2026.

² Refer to ASX announcement, "DFS Confirms Swanson Project Significant Cash Generator", 31 May 2023

³ <https://www.xinhaimining.com/>

⁴ Refer to ASX announcement, "Swanson Tantalum Project Continued Engagement with Xinhai", 23 Mar 2026

⁵ Refer to ASX announcement, "Arcadia secures Karibib Cu-Au Farm-in to Unlock Value", 27 October 2025

Bitterwasser Lithium Project

Lithium-In-Clays Project & Lithium Brines Project

- **The Project remains in good standing.** Arcadia continues to plan further low-cost test-work and a potential further infill drilling programme.

Post-Quarter

- **Swanson Project:** Discussions with Xinhai remain underway, **with definitive terms currently under negotiation.**⁶
- **Karibib Copper Gold Project:** Arcadia received formal notification from Kaoko Metals Ltd of completion of the binding agreement executed⁷ with Kaoko towards a potential four-stage earn-in by Kaoko into the Karibib Copper Gold Project. **Arcadia also received the first cash payment of A\$150,000 due upon completion.**

Arcadia Minerals Limited (ASX:AM7, FRA:8OH) (Arcadia or the Company) is pleased to provide its Activities Report and Appendix 5B Cash Flow Report for the quarter ending 31 March 2026 ("**Quarter**").

Arcadia holds a diversified portfolio of exploration-stage assets across Namibia, targeting critical, strategic, and precious metals.

During and following the end of the Quarter, the Company continued to engage with Hongkong Xinhai Mining Services Limited (**Xinhai**) regarding a potential Definitive Agreement for the Swanson Tantalum Project's development.

In addition, consistent with Arcadia's ongoing strategy to maximise shareholder exposure and minimise dilution, Arcadia continued to focus on securing further project-level joint ventures and other value-accretive proposals across all projects held within its portfolio.

⁶ Refer to ASX announcement, "*Tantalum Prices Surge as Strategic Engagement Continues*", 27 April 2026

⁷ Refer to ASX announcement, "*Arcadia secures Karibib Cu-Au Farm-in to Unlock Value*", 27 October 2025

SUMMARY OF MINING EXPLORATION FOR THE QUARTER

Swanson Tantalum Mine ("Swanson")

During the Quarter, Arcadia advised that the Company and Orange River Pegmatite (Pty) Ltd (ORP) had executed a Binding Term Sheet (**Term Sheet**) with Hongkong Xinhai Mining Services Limited (**Xinhai**) for Swanson (comprised of ML223 and EPL5047).

The Term Sheet granted Xinhai an option to enter into a definitive agreement with Arcadia with respect to the Swanson Tantalum Project for the following:

- **To construct and commission a gravimetric plant at ML223**, with a capacity of no less than the maximum described in the DFS⁸, and,
- **To conduct exploration over EPL 5047** for Mafic/Ultramafic mineralisation and Lithium and Tantalum bearing Pegmatites.

The Term Sheet stipulated that, if the option was exercised and a definitive agreement entered into, Xinhai could earn into ORP in tranches up to 70% after exclusively spending the required funds or providing corresponding value-added services. The arrangement would provide a clear pathway for Arcadia to transition the Swanson Tantalum Project into production, enabling the Company to establish a potential cashflow-generative mining operation while limiting upfront capital exposure and dilution across its broader project portfolio.

During the Quarter, the option expired following the passing of 45 days.⁹ Arcadia noted that Pursuant to the Binding Term Sheet, Xinhai was conducting a review of the Project and its various components. Xinhai had advised that its review is not yet complete, as it required clarification regarding mining costs and intends to obtain expert advice before reaching a final decision.

Following the end of the Quarter,¹⁰ Arcadia noted that Xinhai had completed its technical review and indicated that it wished to advance discussions by presenting draft definitive terms for Arcadia's consideration. Presently, discussions are ongoing with definitive terms currently under negotiation.

Arcadia notes that there is no certainty or guarantee that a definitive agreement in relation to the option agreement will be reached.

The Company will continue to update the market as discussions progress.

Karibib Copper Gold Project ("Karibib")

During and Quarter, the Karibib Project remained in good standing, and Arcadia conducted minimal exploration work on the Project.

As previously announced,¹¹ Arcadia executed a binding Farm-in Agreement with Kaoko Metals Pty Ltd ("**Kaoko**" or "**Kaoko Metals**") over its 80% interest in Karibib Pegmatite

⁸ Refer to ASX Announcement, "DFS Confirms Swanson Project Significant Cash Generator", 31 May 2023

⁹ Refer to ASX announcement, "Swanson Tantalum Project Continued Engagement with Xinhai", 23 Mar 2026

¹⁰ Refer to ASX announcement, "Tantalum Prices Surge as Strategic Engagement Continues", 27 April 2026

¹¹ Refer to ASX announcement, "Arcadia secures Karibib Cu-Au Farm-in to Unlock Value", 27 October 2025

Exploration (Pty) Limited ("**KPE**"), the entity which, via its shareholding in Goas Pegmatite Exploration (Proprietary) Limited ("**GPE**"), holds an 85% stake in the Karibib in Namibia.

Under the Agreement, Kaoko may earn up to a 100% shareholding interest in KPE through a four-stage farm in. Arcadia will be entitled to the following consideration under the Agreement (pro-rata to Arcadia's 80% interest in KPE):

- 1) A cash payment of **A\$150,000** payable on the Settlement Date.
- 2) A cash payment of **A\$250,000** upon the date that is 1 year from the Settlement Date;
- 3) The grant of a Royalty over the KPE licence; and
- 4) Milestone fully paid ordinary shares in the capital of Kaoko ("**Kaoko Shares**"), upon satisfaction of the respective Farm-in Stages:
 - i. Stage 2 Farm-In: **500,000 Kaoko Shares**.
 - ii. Stage 3 Farm-In: **750,000 Kaoko Shares**.
 - iii. Stage 4 Farm-In: **1,000,000 Kaoko Shares**.

In addition, it was agreed that **\$35,000** non-refundable deposit to KPE is payable within 5 business days of the execution of the Agreement, which was received in the previous quarter.

Post-Quarter on 28 April 2026, Arcadia received formal notification of completion of the agreement from Kaoko Metals and a cash payment of **A\$150,000**.

Kaoko is a privately held mineral exploration company headquartered in Perth, Western Australia.

Prospectivity of Karibib

Karibib is located in the highly prospective Damara Belt of Namibia and benefits from its proximity to several significant regional deposits, including the **Navachab Gold Mine** (~35 km to the north), **Osino Resources' Twin Hills Deposit** (~50 km north, acquired by Yintai Gold for US\$272 million in February 2024), and the **Kokoseb Gold Project** (owned by WIA Gold, (ASX:WIA), with a current market capitalisation ~A\$750m). Arcadia continues to believe that Karibib holds significant latent value that has yet to be tapped into, which can be fully harnessed through the application of modern exploration techniques as previously announced.¹²

TVC Project Area

TVC Ta-Li & TVC Ni-PGE Projects

During and Quarter, the TVC Project Area remained in good standing, and Arcadia conducted minimal exploration work on the Project.

As previously announced,¹³ Arcadia continues to assess a potential 1,000m drilling program over the broader TVC Project area (includes EL5047, which is presently the potential subject of a transaction with Xinhai and EL7295), following the strong exploration signals generated from recent stream-sediment sampling and the review of historic datasets.¹⁴ As previously announced, the Company considers the broader TVC Project area to be prospective for a wide array of critical minerals.¹⁵

¹² Refer to ASX Announcement, "Quarterly Activities Report – September 2024", 31 October 2025

¹³ Refer to ASX Announcement, "Quarterly Activities Report – December 2025", 30 January 2026.

¹⁴ Refer to ASX announcement, "Project and Corporate Update" 8 December 2025

¹⁵ Refer to ASX Announcement, "Sampling confirms critical minerals project-wide" 30 May 2025

Bitterwasser Lithium Project ("Bitterwasser")

Includes the Lithium-In-Clays Project & Lithium Brines Project

During the Quarter, the Bitterwasser Lithium Project remained in good standing, and Arcadia conducted minimal exploration work on the Project.

As previously announced,¹⁶ Arcadia is planning to undertake low-cost test-work over brines to confirm the existence of mineralisation, where two laboratories previously produced conflicting mineralisation results.¹⁷

Arcadia planned to utilise previously announced infill lithium drilling results¹⁸ for the potential reclassification of the Bitterwasser Clay Project's inferred Mineral Resource to an indicated Mineral Resource.

As previously announced,¹⁹ the Company has decided to shift its focus from Bitterwasser to the other projects within its portfolio, aligning with the current reduced sentiment in the lithium market. Arcadia continues to maintain Bitterwasser in good standing, anticipating a recovery in the lithium market's long-term fundamentals.

CORPORATE AND FINANCE

During the Quarter, the Company released its Half Year Financial Report.²⁰

During the Quarter, a total of \$63k was spent on activities related to the exploration and development of the Company's Projects. The Company has not incurred any expenditure for mining production activities during the Quarter.

No payments were made to related party parties of the Company in the Quarter.

ABOUT ARCADIA MINERALS

Arcadia Minerals Limited (ASX: AM7) holds a diversified portfolio of resources projects in Namibia, across the critical, precious, and strategic metals sectors. The Company's exploration strategy focuses on high-potential regions and advanced-stage projects, providing a balanced approach to creating value for shareholders. For more details, please visit www.arcadiaminerals.global

Bitterwasser Lithium Project (50% effective Interest)

The Bitterwasser Lithium Project is a highly prospective lithium asset and is comprised of Lithium-In-Clays and Lithium-In-Brine exploration opportunities. The project has already shown promising lithium concentrations in clay-rich zones and has an established JORC resource (refer to tables in appendix 1 below). Covering a vast area, the project's large and underexplored areas continue to present significant growth prospects.

TVC Projects (80% effective interest)

The TVC Projects focus on the Kum-Kum Intrusive Complex and the Tantalite Valley Complex, both of which shares a geological formation with strong nickel, copper and platinum group element (PGE) mineralisation. Historical data, combined with recent exploration data, highlights the area's potential for large-scale discoveries of these critical and precious metals.

Karibib Copper-Gold Project (68% effective interest)

The Karibib Copper-Gold Project is located in the Damara Belt, a region known for hosting major copper and gold deposits. Located within a rapidly growing gold district, the project benefits from excellent infrastructure and access to skilled labour. The project has significant potential for a major discovery through the application of modern exploration technology, such as that used by Osino Resources, recently acquired by Yintai Gold for US\$272m in February 2024.

Swanson Tantalum Mine (80% effective interest)

The Swanson Tantalum Mine is focused on tantalum, a critical material in electronics and industrial applications. In addition to the existing JORC resource which confirms the presence of high-grade tantalum, the project also includes multiple follow up pegmatite targets which are prospective for tantalum, lithium and niobium. Significantly, Swanson represents a sustainable and ethical source of tantalum that can be sourced outside of conflict zones, such as Democratic Republic of Congo. A bankable feasibility study has been completed for the Project, which demonstrated robust financial outcomes using relatively conservative inputs.

See the below **Tenement Table** for more detailed information.

TENEMENT TABLE: ASX LISTING RULE 5.3.3

Mining tenement interests held at the end of the quarter and their location.

PERMIT NAME	PERMIT NUMBER	REGISTERED HOLDER	AREA IN HECTARES	PERMIT STATUS	PERMIT EXPIRY	INTEREST

COMPETENT PERSONS STATEMENT & PREVIOUSLY REPORTED INFORMATION

The information in the referenced announcements footnoted in the table below that relates to Exploration Results, including the Mineral Resources or ore reserves has previously been released to the ASX. The Company confirms that it is not aware of any new information or data that materially affects the information provided in this announcement, and that all material assumptions and technical parameters underpinning the historical announcements tabled below continue to apply. The Company also confirms that the form and context in which the Competent Person's findings presented in this announcement have not been materially modified from the findings presented in the original market announcements. To the extent this report contains exploration results, estimates of mineral resource or ore reserves and supporting information, the Company confirms that the prior written consent of the relevant competent person has been obtained.

1 February 2024	Eden Pan Lithium Infill Assay Results Point to Updated Mineral Resource
13 March 2026	Half Year Financial Report
24 August 2022	Over 500% Increase in Lithium Resource with 287Kt of LCE Declared at Bitterwasser

Mineral Resources – Swanson

The Company confirms that it is not aware of any new information or data that materially affects the information included in the Swanson Mineral Resource estimate and all material assumptions and technical parameters underpinning the estimate continue to apply and have not materially changed when referring to its updated resource announcement made on 6 May 2022. The Company confirms the form and context in which the Competent Person's findings are presented and have not been materially modified from the original market announcement.

Ore Reserve – Swanson

The Company confirms that it is not aware of any new information or data that materially affects the information included in the Swanson Ore Reserve Statement and that all material assumptions and technical parameters underpinning the Ore Reserve Statement continue to apply and have not materially changed. The information in this announcement has been extracted from the announcement dated 31 May 2023 (*Feasibility Study confirms Swanson Project as significant cash generator*).

Mineral Resources – Bitterwasser, Lithium in Clays

The Company confirms that it is not aware of any new information or data that materially affects the information included in the Bitterwasser Mineral Resource estimate (Eden Pan) and the Bitterwasser Mineral Resources estimate (Madube Pan) and all material assumptions and technical parameters underpinning the mineral Resources estimates continue to apply and have not materially changed when referring to its updated resource announcement made on 24 August 2022 (Eden Pan) and the resource announcement made on 2 May 2023 (Madube Pan).

APPENDIX 1 – MINERAL RESOURCE ESTIMATES AND ORE RESERVE

Swanson Tantalum Project Mineral Resource

At Swanson a revised JORC Mineral Resource of 2.59Mt at an average grade of 486g/t Ta₂O₅, 73g/t Nb₂O₅ and 0.15% Li₂O was announced on the 6 May 2022, which was derived from 52 drillholes drilled over 10 pegmatites.

TABLE 1: SWANSON TANTALUM PROJECT MINERAL RESOURCE (JORC 2021)

D, E and F Classification	Area	Tonnes (kt)	Ta ₂ O ₅ Content (Tonnes)	Ta ₂ O ₅ ppm	Nb ₂ O ₅ ppm	Li ₂ O %
Indicated	Total D	568	207	365	87	0.27
Indicated	Total EF	577	334	578	65	0.07

7.6	Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.		

8.	Estimated cash available for future operating activities	\$A'000
8.1	Net cash from / (used in) operating activities (item 1.9)	(57)
8.2	(Payments for exploration & evaluation classified as investing activities) (item 2.1(d))	(63)
8.3	Total relevant outgoings (item 8.1 + item 8.2)	(120)
8.4	Cash and cash equivalents at quarter end (item 4.6)	364
8.5	Unused finance facilities available at quarter end (item 7.5)	-
8.6	Total available funding (item 8.4 + item 8.5)	364
8.7	Estimated quarters of funding available (item 8.6 divided by item 8.3)	3.0
<i>Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.</i>		
8.8	If item 8.7 is less than 2 quarters, please provide answers to the following questions:	
8.8.1	Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
Answer: n/a		
8.8.2	Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
Answer: n/a		
8.8.3	Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?	
Answer: n/a		
<i>Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.</i>		

Compliance statement

- 1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- 2 This statement gives a true and fair view of the matters disclosed.

Date: 30 April 2026

Authorised by: Board of Directors
(Name of body or officer authorising release – see note 4)

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
