- **Investment excellence at its core:** Pinnacle Affiliates have delivered sustained outperformance over their benchmarks

- Aggregate Affiliate FUM (at 100%) at 31 March 2026 of \$208.1 billion

05 Growth Agenda

Prepared for, and seeking, further expansion opportunities – committed to fully leveraging our established global multi-affiliate platform by selectively expanding and deepening our model internationally, while maintaining unwavering discipline on quality and valuation

- Continue to build Pinnacle by taking a measured approach to growth
- Support the growth of current Affiliates with increased investment in distribution channels (e.g., international and listed markets)
- Invest in / seed new Affiliates and strategies where management teams have a strong track record and growth potential
- Seeking to further diversify into asset classes with substantial growth potential
- Actively pursuing international opportunities – ability to ‘export our model’

Ongoing margin expansion	Impacts ‘Pinnacle Parent’ costs	Required capital to fund acquisitions
<p>✓ Horizon 1 – EPS grew at a CAGR of 32% in the nine years since Pinnacle listed as a ‘pure play’ investment management business in 2016 to 30 June 2025; FUM grew at a CAGR of 25% over that same period (22% excluding ‘acquired’ FUM)</p>	<p>✓ Horizon 2 – Built ‘from scratch’: Hyperion, Plato, Solaris, Palisade, Antipodes, Spheria, Firetrail, Longwave, Riparian</p> <p>✓ Horizon 2 – Built ‘from scratch’ outside of Australia: Aikya, Langdon, Life Cycle</p>	<p>✓ Horizon 3 – Acquired interests in, then grew: Resolution Capital, Metrics, Coolabah, Five V, Pacific Asset Management, VSS</p>

An excellent platform in place to move ahead with sustained growth

Distribution Platform Expansion

- Investment in (and continuing to evolve and grow in size and sophistication) our distribution platform
- Investment in high growth, high margin retail and international channels
- Adoption of advanced digital marketing tools
- Listen to clients and move quickly to meet their evolving needs

Robust, Flexible Operating Platform

- Robust, flexible platform enabling strong further growth
- Continuing investment excellence (strong reputation for such)
- Widespread industry recognition and support
- ‘Article of faith’ reputation for performance, quality and capability excellence – significantly improves ‘speed to market’ for new Affiliates
- Leveraging Pinnacle’s scale for the benefit of all Affiliates

Start-Up Affiliate Enablement

- Develop investment capability and support growth
- Significant opportunity to launch new strategies to further diversify FUM
- Gaining traction as strategies mature and performance record established

Existing Affiliate Expansion

- Investment in new strategies adds diversification and further growth
- Sustainability and Impact strategies
- Global equities (developed & emerging markets)
- Alternative Fixed income
- Private capital (debt & equity)
- Absolute return (single & multi-asset)

Acquisitive Growth

- Existing Affiliates are increasingly able to build or buy (with Pinnacle backing) then grow additional new businesses - ‘Affiliates within Affiliates’
- International markets provide a large range of opportunities, carefully ‘exporting our model’
- Natural acquirer of further equity in existing Affiliates as this becomes available

Result: additional growth, corporate stability/robustness, better meeting clients’ evolving and expanding needs

- All Affiliates were profitable in 1H FY26 with no ongoing net cost from Horizon 2 initiatives within Pinnacle or Affiliates during the half
- Revenues continue to build, reducing the net cost to Affiliates and Pinnacle and providing early evidence of anticipated future growth. Once initiatives are breakeven, we remove them from the calculation even though they may not have reached maturity
- Pinnacle and Affiliates will continue to pursue these initiatives where it is commercially sensible to do so
- We continue to seek additional initiatives of compelling quality
- Each 'investment' is made in partnership with Affiliates, demonstrating the commitment made by Affiliates to growth and a strong degree of incentivization and alignment to achieving growth objectives
- Each initiative is only entered into after careful consideration of the longer-term benefits and with reasonable limits set on both time to success and size of 'investment' required, given the drag on profitability
- Past Horizon 2 initiatives have delivered exceptional returns, within Pinnacle itself and through its share of the profits from Affiliate initiatives – to date, contribution to Pinnacle profit has been over 10x the capital outlay (not including any consideration of increased capital value)

Pinnacle raised equity to expand international platform with strategic acquisitions in the UK, US and Japan:

- In November 2024, Pinnacle undertook an equity raise (\$400m institutional placement and \$50.5m share purchase plan) to finance investments in New York based structured capital manager VSS and London based asset manager Pacific Asset Management (PAM) and to create additional balance sheet capacity to pursue future Horizon 2 and 3 growth initiatives
- In October 2025, Pinnacle announced the acquisition of up to 13% of Japan and pan-Asia private equity firm Advantage Partners over a 3-year period, via an initial 5% stake for A\$92m and a 3-year option over a further 8% on the same terms
- Aligned with Pinnacle’s objective to diversify internationally and increase exposure to global private assets, particularly in the attractive mid-market segment
- In February 2026, Pinnacle announced an agreement to acquire the remaining equity in PAM, with the transaction completing in April 2026

Pacific Asset Management (UK)

- In February 2026, Pinnacle entered into an agreement to acquire the remaining 79.2% (75% pre-dilution from Staff LTIP) interest in Pacific Asset Management LLP (PAM) for a total consideration of ~£212.4m (~A\$418.8m). Transaction completed on 24 April 2026
- Complements and strengthens our existing expertise and continues our diversification into international markets
- Significant distribution network in the strategic UK market, accelerating and deepening our international private wealth footprint
- Supports international capability in sourcing other potential Horizon 2 and Horizon 3 opportunities
- Proprietary managed account technology platform enables turnkey solutions for private wealth clients
- \$2.1bn of net inflows in 1H FY26. Since Pinnacle acquired an equity interest, PAM's FUM has grown from ~A\$17bn to ~A\$26bn (at 31 December 2025)

VSS (US)

- Demonstrates our attractiveness as a partner to fund managers globally across a broad range of asset classes
- Strategic foothold in the US market, providing a platform for further growth in North America
- Continued increased exposure to private capital markets through this high-quality private markets Affiliate with a focus on the US lower mid-market
- Currently raising VSS Structured Capital Fund V. Successful first close in January 2026
- Working with Pinnacle on an evergreen fund for the Australian wholesale market
- Hired a private debt team in the US to add a new growth adjacency
- Hired in investment, IR and finance/ops area to enable greater scaling of business with larger fund sizes

Advantage Partners (Japan)

- Provides Pinnacle with a leading private markets investment platform and substantial LP footprint in Japan, one of the world’s largest pension and insurance markets
- Mid-market PE leader in Japan, with their flagship Japan Buyout (JBO) strategy highly sought after, offering scarcity value, a demonstrated track record and strong global appeal to Pinnacle’s LP base
- Strong organic growth potential, with near term growth driven primarily by larger fund raises of JBO and Private Solutions funds, expected to take group FUM from approximately US\$3bn to US\$6.5bn+ within the next 12 months
- Currently raising JBO VIII with expected size ¥250bn- ¥300bn (vs Fund VII ¥130bn); final close in April 2026

06 Conclusion

A preeminent multi-affiliate investment firm

1. Distinguished from competitors by comprising the highest quality investment management firms

2. High quality, experienced, dedicated, passionate investment professionals – strongly focused on performance; with substantial equity in their own business and their interests aligned with clients

3. All the advantages, benefits and superior conditions of a ‘boutique environment’

4. Plus, institutional grade shared common ‘infrastructure’, including major distribution capability (the ‘best of both worlds’)

5. Importance of succession planning within Affiliates; long-term sustainable businesses

Investors want their investment management firms to be long-term, enduring and sustainable

Pinnacle's diverse Affiliate stable and extensive distribution channels foster resilience and growth

Fundamentals in place for organic sales growth and improving the underlying FUM composition

- Highly regarded Affiliates with strong local and international investment consultant and research house ratings
- Diverse stable of Affiliates (asset class, style, strategy, geography and maturity) delivering 'all-weather' relevance to asset owners as market conditions change through time
- Australian institutional fund consolidation creates risk to mandate retention; however, 'supported' start-ups offer the capacity, fees, alpha potential, operational hygiene and financial viability that mega-funds seek
- Global equities, global emerging markets, alternative public credit, private markets and managed account solutions expected to drive ongoing FUM growth
- Multi-channel global distribution provides multiple paths for growth

New Affiliates, strategies, channels and geographies provide new levers for expansion

- Launching of new Affiliates and product sub-sets/extensions create opportunities for further expansion
- Horizon 2 investments within Affiliates foster resilience and growth by leveraging existing capabilities, brands and infrastructure into adjacent, complementary asset classes
- Wholesale & retail distribution leaning into under-penetrated investor verticals via private market asset classes and exchange-traded funds (closed-end and open-end)
- International distribution becoming a strong growth engine following organic, multi-year build-out of global investor networks, strategies and infrastructure
- Successful incubations and acquisitions of internationally domiciled Affiliates with 'reputational halos' create 'positive feedback loop' with larger Northern Hemisphere markets (investors, prospective Affiliates and distribution talent alike)

Balance sheet capacity and flexibility is an important enabler of growth

- Additional capital raised in November 2024 provided additional balance sheet capacity and flexibility, placing Pinnacle in a stronger competitive position when negotiating new Affiliate acquisitions and enabling it to appropriately support the growth of existing Affiliates through the careful provision of seed capital (which is continually recycled)
- Cash and PI, net of the \$100m debt facility, of A\$339.6m at 31 December 2025. Tranche 1 of the Advantage acquisition completed in January, for A\$92m, and the cash component of the PAM transaction of A\$228m completed in April 2026. Pinnacle increased its debt facility with the CBA to \$250m in April 2026, providing further balance sheet flexibility, with estimated dry powder now ~\$230m
- Seed capital commitments have proved to be an important commercial accelerator for start-ups and new strategies
- Primary capital investments in private markets firms gives them capacity to accelerate their growth by acquiring complementary platforms/businesses, moving into new market segments and adjacent asset classes
- Balance sheet capacity is also an enabler of succession and equity recycling within Affiliates and a source of low-risk earnings accretion for Pinnacle
