The Placement was conducted following Janus Electric's request for a trading halt on 5 May 2026, pending an announcement regarding the outcome of the private placement.

The New Shares will rank equally with the Company's existing fully paid ordinary shares on issue.

The Placement is being completed in a single tranche using the Company's available placement capacity under ASX Listing Rules 7.1 and 7.1A. The Placement is not underwritten.

The Company will lodge an Appendix 3B in respect of the Placement.

Janus Electric Chief Executive Officer and Managing Director Ben Hutt, said:

“We are delighted by the support received for the Placement with bids far exceeding our capacity. The placement provides Janus Electric with additional capital to support the next stage of the Company’s growth strategy, and we are excited to partner with such a high-calibre of funds and investors on the next leg of the business’s scale.

The funding will assist Janus Electric as we continue to progress customer deployments, expand our dealer-led conversion model, secure battery supply and build the systems and capabilities required to scale.

We thank existing shareholders for their continued support and welcome new investors to the register as Janus Electric continues to build its position as an Australian technology company focused on zero-emission heavy transport.”
