

ASX Announcement | 8 May 2026

Webinar: X2M Providing Data for AI in Utilities for Smart Cities, Communities and, potentially, Data Centres

Revised date: 11:00am AEST, Monday 11 May 2026

X2M Connect Limited (ASX: X2M) is pleased to invite shareholders and investors to attend a live online investor briefing hosted by Chief Executive Officer, Mohan Jesudason.

X2M is at a critical inflection point, with global demand for its technology, which enables AI in utilities for smart cities, communities and, potentially, data centres.

X2M has existing utility customers whose serviced households offer a Total Addressable Market (TAM) of \$A600 million in upfront revenue and \$A40 million in annual recurring revenue if all existing utility customers provided X2M's technology to all those households. X2M has proven its ability to continually increase its penetration into these markets via repeat orders from utilities.

Webinar Details:

- Date: Monday 11 May 2026
- Time: 11:00am AEST
- Register here: https://zoom.us/webinar/register/WN_980YtmJyQRmLDMp3wxMzBQ#/registration
- Questions: A live Q&A will follow the presentation. You may submit questions via the registration page.

Investors are encouraged to submit questions via the Q&A function during the session.

A recording of the webinar will be made available to shareholders who are unable to attend the live presentation. To receive the replay via email, please register and opt in to the mailing list.

The Board of X2M has approved this announcement.

About X2M Connect Limited

X2M Connect Limited (ASX:X2M) is a leading Australian smart city technology company delivering patent supported solutions that enhance productivity, reduce operational costs and improve public safety for utility and government customers. Smart cities involve the collection, aggregation and processing of data from a wide range of sensors to

automate controls that improve the speed, effectiveness and accuracy of outcomes for cities and their residents. X2M's platforms enable real-time data exchange, remote control and predictive insights by connecting water, gas and electricity resource devices as well as other critical sensors to edge and cloud based software. X2M provides the millions of data points needed for application of AI.

X2M's core platform underpins three product families, '*Vision by X2M*', '*Hive.AI by X2M*' and the '*Help Me*' safety device, supporting more than 85 customers across five key geographies. The Company has connected over 500,000 devices to date and continues to expand its footprint, leveraging strong government and enterprise relationships throughout Japan, South Korea, Taiwan and the Middle East. X2M generates revenue through a mix of hardware sales, recurring SaaS and platform fees, and device connection charges.
