

Bellavista starts trading on the OTCQX Market

Bellavista gains direct access to North American investors as the Company accelerates growth at its Pickle Crow Gold project in Canada

Bellavista Resources Ltd (ASX: BVR) ("Bellavista" or the "Company") is pleased to announce that its common shares have qualified to trade on the OTCQX® Best Market ("OTCQX"), a U.S. market operated by OTC Markets Group Inc. and commenced trading on 15 May 2026 under the symbol "BVRXF". The common shares of the Company will continue to trade on the ASX.

OTCQX is the highest-level market of OTC Markets on which over 12,000 U.S. and global securities trade. Bellavista has been admitted to OTCQX as it meets high financial standards, follows best-practice corporate governance and has demonstrated compliance with applicable securities laws.

This upgrade enables the Company to connect with U.S. capital markets, data providers, and media outlets, ensuring that U.S. investors have access to the same high-quality information and disclosures available to Australian investors, delivered through U.S.-focused platforms. Furthermore, the OTCQX quotation allows U.S. investors to trade Bellavista's ordinary shares in U.S. dollars during U.S. market hours, providing a more cost-effective alternative to trading via the ASX platform.

The quotation of Bellavista's shares on OTCQX gives the Company direct access to retail and high net worth investors in North America without incurring the costs and compliance burden that comes with a listing on one of the major US exchanges. OTC trading is non-dilutive to existing Bellavista shareholders, as no new shares are being issued to enable trading on OTCQX.

Bellavista's Managing Director, Glenn Jardine said:

"We are very pleased to commence trading on OTCQX, which enhances accessibility of the Company's shares for North American investors and supports our goal of expanding Bellavista Resources presence in this key market. The Company's presence on OTCQX reflects our strong engagement with the North American investment community as we continue to advance the Pickle Crow Gold Project in Canada and deliver long-term value".
