## Activeport Appoints Michael Glynn as Chief Operating & Commercial Officer

Activeport Group Ltd (ASX: ATV) (“Activeport” or “the Company”) is pleased to announce the appointment of Michael Glynn as Chief Operating & Commercial Officer.

Michael is a telecommunications executive with deep experience during the startup years of Pacnet, PIPE Networks, Megaport, Superloop and Console Connect, businesses that achieved multi-billion-dollar market capitalisations and generated hundreds of millions of dollars in annual revenue.

- **Michael Glynn appointed Chief Operating & Commercial Officer.**
- **Has an exemplary track record of revenue generation and business development from decades of experience at Intertouch, Pacnet, Vocus, Megaport, Superloop and Console Connect.**
- **Is responsible for all aspects of Activeport’s business operations including revenue growth, product development, strategy and team building.**

Michael has spent more than 25 years helping create, scale and commercialise next-generation network platforms. The appointment marks a significant milestone for Activeport as it accelerates international revenue growth, scales recurring software revenue and expands its global channel and partner ecosystem.

Most recently, Michael spent seven years with PCCW Global building Console Connect into the industry’s leading software-defined Network-as-a-Service platform. He led the global go-to-market strategy, launching Datacentre Interconnect, Connect to Cloud, Multi-Cloud, Cloud Router, Internet on Demand, and the Console Marketplace, expanding the platform into 1,200 datacentres worldwide.

Michael has developed global reputation as an innovator with exceptional insight, commercial execution capability with deep expertise in carrier, enterprise and wholesale connectivity.

At Activeport, Michael will drive strategy, product direction, partnerships, and market expansion, accelerating the company’s growth in network automation, cloud connectivity, GPU orchestration, AI infrastructure, and global carrier partnerships to accelerate revenue growth and profitability.

Michael Glynn said:

*“I’m excited to be joining Activeport at such a pivotal moment in the industry. As networks continue evolving towards software-defined and AI-enabled infrastructure, Activeport has built a highly differentiated software platform for telcos and data centres globally. I look forward to working with the Board and team to help accelerate Activeport’s international growth and “Activate” networks worldwide with Activeport’s software.”*

The appointment further strengthens Activeport’s leadership team as the company continues to expand across network automation, cloud connectivity, AI infrastructure and global carrier partnerships. As service providers increasingly seek more automated, software-defined and integrated digital infrastructure solutions, Activeport is focused on enabling carriers, data centre operators and strategic partners to deliver next-generation connectivity services at global scale.

### About Activeport

Activeport develops software for telecommunications providers and data centre operators. Activeport’s orchestration software cloud-enables traditional network infrastructure to improve the customer experience using self-service portals to automate service provisioning, accelerate ‘time to live’ for new services and enable flexible pay-per-use consumption. Activeport offers comprehensive orchestration features covering last mile, core network, data centre infrastructure and GPU’s for cloud gaming and AI.
