

26 May 2026

Company Update

4DS Memory Limited (“4DS” or “the Company”) is pleased to provide an update on the imec payment and the planned Indian commercialisation pathway.

imec Payment

The Company confirms the payment of approximately A\$755,000 to imec for research and development services provided and accrued for during the first half of 2025.

India Commercialisation Pathway

4DS advises that the planned trip to India by Executive Chairman, Mr David McAuliffe, is likely to now occur in June 2026 rather than May 2026 as previously announced.

ENDS

Authorised for release by the Board.

About 4DS

4DS Memory Limited (ASX: 4DS), with facilities located in Silicon Valley, is a semiconductor technology company bringing high bandwidth, high endurance, persistent non-volatile memory to advanced CMOS process nodes. Its technology, known as Interface Switching ReRAM, features tuneable persistence and low energy per bit for today’s most challenging compute intensive and AI processor applications. Established in 2007, 4DS owns a patented IP portfolio, comprising 34 USA patents, and is the first company to develop PCMO ReRAM, on an advanced CMOS processing node.
