About Connexion Mobility

Connexion is a public, enterprise-grade, automotive mobility and software company servicing the global Automotive Retail industry. Its mission is to be the connection between fleet owners and the future of mobility, combining proprietary software platforms with a strategic physical footprint.

The Company’s core proprietary platforms, OnTRAC and Connexion, incorporate embedded telemetry, fleet & contract management, and data analytics tools to help OEMs and dealerships move people, parts, and vehicles. This software powers courtesy transportation, rental and test-drives for thousands of dealerships across North America, maximizing asset utilization and operational efficiency while elevating the end-customer experience.

Complementing its software operations, Connexion owns and operates independent automotive service and repair facilities. This physical presence serves as an operational testbed, allowing the Company to validate its proprietary software workflows and anchor its technology in real-world workshop environments.
