ABOUT ASKARI METALS

Askari Metals is a focused African exploration company with a portfolio of highly prospective gold and critical minerals projects in Ethiopia and Namibia. The Company's flagship Nejo Project in Ethiopia is an advanced-stage brownfields gold and copper opportunity located on the Arabian-Nubian Shield, with a district-scale landholding of approximately 1,200km² surrounding the 1.7Moz Tulu Kapi Gold Mine and along strike from the 3.4Moz Kurmuk Mine.

In Namibia, Askari is advancing its 100%-owned Uis Project, a highly prospective polymetallic critical minerals project located within the Cape Cross–Uis Pegmatite Belt. The project sits close to Andrada Mining's operating Uis Tin Mine and is strategically positioned with access to the Walvis Bay Deepwater Port via sealed road infrastructure.

Askari continues to progress exploration across both core assets, with a focus on unlocking value through systematic drilling, target generation and resource growth opportunities.
