

Investor Webinar

Sydney, 4 June 2026: Australian natural gas developer and explorer Eastern Gas Corporation Limited (ASX: EGA) is pleased to advise it will host an investor webinar at 11:00am AEST on Tuesday June 9, 2026.

Managing Director David Spring will provide an update on the next phase of the Company's Queensland gas development strategy, after it recently executed a drilling contract for a material appraisal campaign in the Surat Basin.

The upcoming drilling campaign represents the Company's first major operational program since listing on the ASX earlier this year and comes amid increasing focus on east coast gas supply security, tightening domestic market conditions and the need for new sources of supply.

The first well, Venus-2H, is scheduled to spud in June 2026 and has been designed to evaluate gas deliverability and support the progression of the Company's resources towards future commercialisation.

The briefing will be followed by a Q&A Session. Questions can be submitted now to alex@investorstream.com.au or investor@easterngas.com.au or in written form during the webinar.

Anyone wishing to attend the webinar must register using the below link:

About Eastern Gas Corporation Limited

Eastern Gas Corporation Limited (ASX: EGA) is an Australian natural gas exploration and development company focused on supplying reliable energy to east coast domestic markets.

The Company's east coast natural gas portfolio features two highly prospective tenements in Queensland's prolific Surat Basin (Walloon CSG fairway) and Cooper Basin.

With a natural gas shortage and energy crisis around the world, we believe LNG will play a critical role in fuelling the transition to a carbon-free economy in the long term. Eastern Gas is focused on progressing its gas resources toward commercialisation to support Australia's energy security.
