ASX Announcement (AMX)

Aerometrex Awarded Major NSW Government Aerial Imagery Contract

- MetroMap selected as aerial imagery provider to the NSW Government Digital Information Office (DIO).
- Total contract value of A\$1.5 million over an initial three-year term.
- Services to support multiple NSW agencies.
- Further validates MetroMap's position as a critical spatial data service for government.

Aerometrex Limited (ASX: AMX) is pleased to announce that it has been awarded a contract by the NSW Government for the delivery of aerial imagery and spatial data services via its MetroMap platform.

The total contract value (TCV) of A\$1.5 million over an initial three-year term, with two optional one-year extension periods available.

Contract Overview

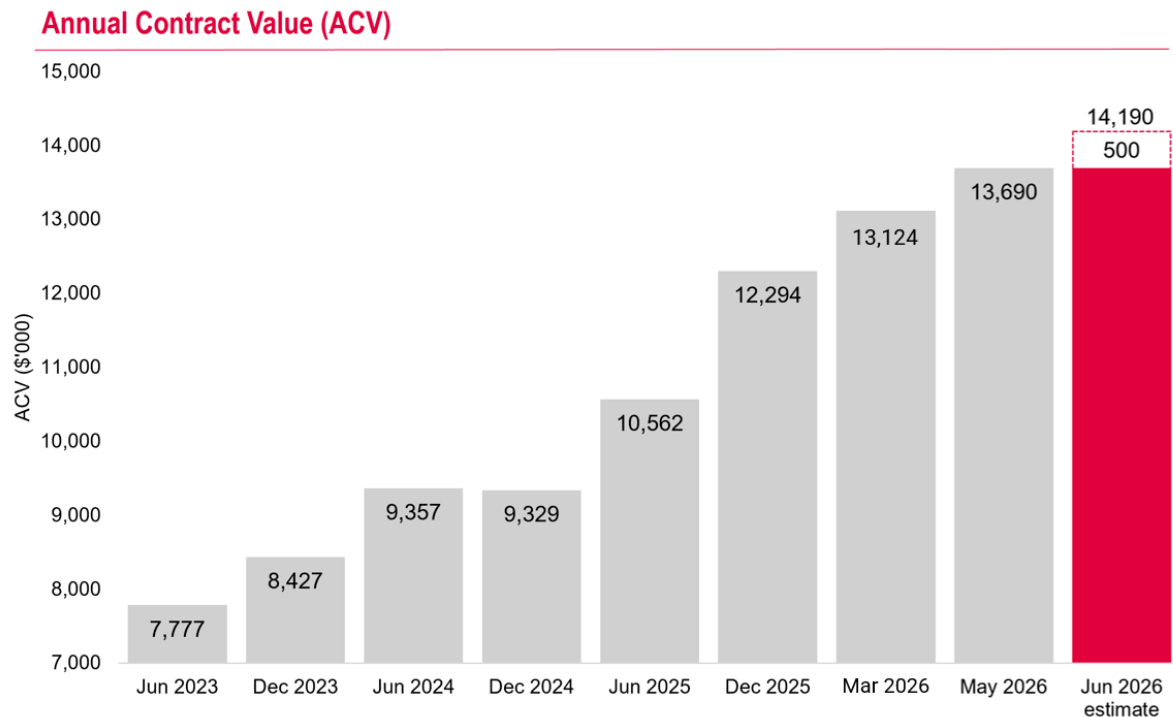

The contract was awarded following a formal procurement process conducted by Government on behalf of agencies. Key terms of the agreement include:

- Total contract value of A\$1.5 million over an initial three-year term
- Two optional one-year extension periods at the NSW Government's election (3+1+1)
- Licensing model supporting access across multiple agencies
- Delivery via the MetroMap platform, including API integration with enterprise GIS platforms.
- Defined recapture and imagery update cycles, including minimum annual refresh for metropolitan and key regional areas.
- Access to MetroMap's historical imagery archive.

Validation of MetroMap's Government Strategy

The award represents a further significant contract win for Aerometrex demonstrating MetroMap's capability to meet the technical and operational requirements of large government agencies.

MetroMap Annual Contract Value continues it's strong growth

Aerometrex CEO Commentary

Aerometrex Managing Director and CEO Rob Veitch said the contract award reflects the strength of MetroMap's product offering in the government sector.

"Winning this contract further demonstrates our standing as a key supplier to Australian Government agencies, it is a strong endorsement of MetroMap's capabilities and the trust placed in us to deliver accurate, reliable spatial data at the scale government demands."

"Aerial imagery and spatial data is increasingly recognised as essential technology for government agencies, providing insights and supporting environmental monitoring, land management, and regulatory functions at scale. We look forward to delivering that for NSW."

This release is approved by the Board of Directors of Aerometrex Limited.
