## • **Important information**

- This presentation has been prepared by Tyranna Resources Limited (ASX:TYX) (“Tyranna”, “TYX”, or the “Company”) and is for information purposes only and should not be considered as an offer or invitation to subscribe for or purchase any securities in the Company or as an inducement to make an offer or invitation with respect to those securities. No agreement to subscribe for securities in the Company will be entered into on the basis of this presentation. This presentation may contain forecasts and forward-looking statements and information which are based on internal business data and information obtained from external sources.
- Forward looking statements may be identified by the use of words such as “anticipate”, “expect”, “estimate”, “planned”, “forecast”, “likely”, “intend” and other similar expressions. Such forecasts and information are not a guarantee of future performance and involve unknown risks, uncertainties and contingencies which may impact future outcomes on the Company. Actual results and developments will therefore almost certainly differ materially from those expressed or implied.
- Tyranna has not audited or investigated the accuracy or completeness of the information, statements and opinions contained in this presentation. Accordingly, to the maximum extent permitted by law, Tyranna makes no representation and gives no assurance, guarantee or warranty, express or implied, as to, and takes no responsibility and assumes no liability for, the authenticity, validity, accuracy, suitability or completeness of, or any errors in or omission from, any information, statement or opinion contained in this presentation.
- Nothing contained in this presentation constitutes investment advice, financial product advice or legal, tax, accounting or other advice, nor does it take into account the financial situation, objectives or needs of any person.
- Tyranna is not licensed to provide financial product advice. You should not act or refrain from acting in reliance on this presentation material. You should conduct your own investigation, perform your own analysis and obtain independent professional advice, in order to satisfy yourself as to the accuracy and completeness of the information, statements and opinions contained in this presentation and in making any investment decision in respect of Tyranna Resources Ltd.

## • **No new information disclaimer**

- The information in this presentation may incorporate technical information reported to the public in announcements submitted to the ASX and is referenced accordingly.
- With reference to previously reported exploration results, included in this presentation and accompanied by proximal reference footnotes, the company confirms that it is not aware of any new information or data which materially affects the information included in the original announcement to the market. The company confirms that the form and context of the Competent Person’s findings have not been modified from original announcements.

## • **Competent Person’s Statement**

- The information in this presentation is based on, and fairly represents, information and supporting geological information and documentation that has been compiled by Mr David Crook who is a member of the AIG. Mr Crook is employed by OreSource Pty Ltd through which he provides his services to Tyranna as Managing Director. Mr Crook has more than five years relevant experience in the exploration methodologies undertaken and qualifies as a Competent Person as defined in the 2012 edition of the “Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves” (the JORC Code). Mr Crook consents to the inclusion of the technical information in this report in the form and context in which it appears.

## Company Messages

- Tyranna Resources Limited is an Australian explorer (ASX:TYX)
- The Company is exploring for demand-driven minerals
- Due to its unbridled prospectivity, jurisdiction of choice is Angola

## Company History in Angola

- Indirect exposure to Angola for 15 years and direct exposure for over 5 years
- Discovered spodumene pegmatites near the port city of Namibe/Moçâmedes
- Established corporate and operational infrastructure in Luanda and Namibe
- AGFC acquisition expanded exploration footprint with its Chinguar Project
- Further opportunities being investigated
