

Maintenance and Plant Improvement Program

WA Kaolin has brought forward its planned plant improvement program at the Wickepin Processing Plant to the week commencing 8 June 2026.

As outlined in the recent Rights Issue Prospectus, approximately \$0.5 million of the funds raised will be invested in plant improvements aimed at increasing reliability, efficiency and production performance.

The program was originally scheduled for July 2026. However, following recent reliability interruptions, the Company has elected to bring the works forward to accelerate operational improvements and plant performance benefits.

Following completion of the program, WA Kaolin expects improved plant reliability and operational performance. As a result of the planned shutdown, approximately 3,000 tonnes of production and sales will move from June to July 2026.

The Company is working closely with customers to manage inventory and supply requirements and will provide a further update once the program has been completed.

This announcement has been authorised for release by the Board of WA Kaolin Limited.

ABOUT WA KAOLIN

WA Kaolin's Wickepin Kaolin Project, 220km south-east of Perth, contains a Mineral Resource (JORC 2012) of 644.5 million tonnes^{1,2} of high-grade premium kaolinised granite. This world-class resource at Wickepin is one of the largest known remaining premium primary resources of kaolin globally. It is characterised by its purity, quality and brightness, producing kaolin products that typically attract higher prices from a growing collection of top tier customers.

¹ The Mineral Resource estimate is inclusive of Ore Reserves and the 2023 Mineral Resource estimate. Please refer to the ASX announcements of 10 October 2023 'Wickepin Kaolin Project Ore Reserve More Than Doubles' and 'Wickepin Kaolin Project Mineral Resource and Ore Reserve Supplementary Announcement'. Apart from that which is disclosed in this document, WA Kaolin Limited, its directors, officers and agents: 1. Are not aware of any new information that materially affects the information contained in the 10 October 2023 announcements, and 2. State that the material assumptions and technical parameters underpinning the estimates in the 10 October 2023 announcements continue to apply and have not materially changed.
