Spenda raises \$1.85 million under institutional entitlement offer

Spenda Limited (ASX:SPX, **Spenda** or the **Company**), an innovative software company providing workflow software, embedded finance and payment solutions across supply chains and trading networks, is pleased to advise it has successfully completed the institutional component (**Institutional Entitlement Offer**) of its \$8.545 million pro-rata accelerated renounceable entitlement offer (**Entitlement Offer**), announced on Tuesday 9 June 2026.

The Entitlement Offer is for 7 new fully paid ordinary shares in Spenda (**Shares**) for each Share held at the record date (**Entitlement Shares**), with a free attaching option exercisable at \$0.006 and expiring 30 June 2031 (**Option**) for each new Share issued (**Entitlement**).

The Entitlement Offer forms part of the Company's turnaround strategy to optimise existing business processes and to set the base for future organic and acquisitive growth initiatives. In particular, the Entitlement Offer is being undertaken to recapitalise the Company with funds to meet its working capital requirements, support product development and delivery; provide flexibility for further operational restructure and cost optimisation initiatives; and materially reduce the Company's debt position by raising capital to repay finance debt and reduce other operating liabilities.

Results of Institutional Entitlement Offer

The Institutional Entitlement Offer closed on Tuesday 9 June 2026, and raised gross proceeds of approximately \$1.8 million at the Entitlement Offer price of \$0.004 per Share (**Offer Price**).

Spenda eligible institutional shareholders took up 12,500,000 Entitlement Shares (\$50,000), and other Spenda eligible institutional shareholders did not take up 450,000,000 Entitlement Shares (\$1.8m). Entitlements available under the Institutional Entitlement Offer, which were sold in the institutional shortfall bookbuild process (**Institutional Shortfall Bookbuild**) led by the Lead Manager, Peak Asset Management Pty Ltd.

The Institutional Shortfall Bookbuild was well supported by new institutional investors and family offices, who subscribed for 450,000,000 Shares (and the same number of free attaching Options) not taken up by eligible institutional investors under the bookbuild, raising \$1.8 million (before Offer costs) for the Company. The price achieved under the Institutional Shortfall Bookbuild was the same as the Offer Price under the Entitlement Offer. Accordingly, eligible institutional shareholders that did not take up their Entitlement and ineligible institutional shareholders will not receive any consideration for the Entitlements not taken up by them.

Spenda's Shares are expected to resume normal trading on ASX today, 10 June 2026, on an ex-entitlement basis. New Shares and Options to be issued as part of the Institutional Entitlement Offer are expected to be issued on Friday 12 June 2026.
