ASX Announcement

RLF AgTech Appoints Andrew Hunter FCPA as Chief Financial Officer and Company Secretary

Key Highlights

- Mr Andrew Hunter FCPA appointed Chief Financial Officer and Company Secretary, effective 20 July 2026.
- Former Head of EMEA for Macquarie Capital, Managing Director and CEO of Export Finance Australia, and CEO of CPA Australia.
- Brings deep institutional banking, international capital markets, and corporate governance expertise to the RLF executive team.

RLF AgTech Ltd (**RLF** or the **Company**) (ASX: RLF) is pleased to announce the appointment of Mr Andrew Hunter FCPA as Chief Financial Officer and Company Secretary, effective 20 July 2026.

Mr Hunter brings more than 30 years of financial and institutional leadership experience to the role. He spent 22 years with Macquarie Group, including as Head of Europe, Middle East and Africa for Macquarie Capital, before serving as Managing Director and Chief Executive Officer of Export Finance Australia and subsequently as Chief Executive Officer of CPA Australia.

Mr Hunter will work alongside outgoing CFO Mr Zaiqian Zhang ahead of the 20 July 2026 commencement date to ensure an orderly handover of responsibilities.

RLF Chief Executive Officer Mr Stuart Upton said:

"Andrew's background in global investment banking and international trade finance is a significant asset for RLF as we continue to scale our operations in Australia and across key international markets. His experience with complex transactions and capital structures will be invaluable as we build a world-class organisation and execute our long-term growth strategy."

Incoming CFO and Company Secretary Mr Andrew Hunter FCPA said:

"RLF has built a strong product foundation and a clear pathway to commercial scale in global agriculture. What attracted me to the role is the company's demonstrated progress, its genuine growth potential, and the deliberate focus the team has placed on driving commercial outcomes. I look forward to ensuring our financial frameworks, compliance, and corporate governance are well positioned to support that ambition, and to working closely with the CEO and Chairman to deliver sustainable value for shareholders."

The Board acknowledges Mr Zaiqian Zhang's contribution and commitment during his tenure as CFO and Company Secretary, and thanks him for his support during the transition.

For the purpose of ASX Listing Rule 12.6, Mr Hunter will be the person responsible for communications with the ASX from 20 July 2026.

This announcement has been authorised for release by the Board of Directors.

About RLF AgTech Ltd (ASX: RLF)

RLF AgTech Ltd (ASX: RLF) is an Australian-based plant nutrition company that formulates and manufactures advanced crop nutrition products designed to improve agricultural productivity, crop quality, and soil health.

With more than 30 years of technical and agronomic expertise, RLF delivers high-performance liquid fertilisers and seed treatments that support more efficient nutrient uptake, stronger early plant development, and improved yield outcomes. The Company's science-led formulations are backed by extensive field research and are suited to a wide range of broadacre and horticultural crops.

RLF has a growing footprint across Australia, where it can supply products through a national network of retail and wholesale distribution locations, providing access to key agricultural regions. The inclusion of the LiquaForce business in Queensland forms a significant part of RLF's domestic operations, enhancing its manufacturing and on-farm service capabilities.

Internationally, RLF has long-standing operations in China, including wholly owned manufacturing and distribution facilities, and continues to expand its presence across other parts of Asia, where demand for advanced crop nutrition solutions is increasing.

RLF's crop nutrition technologies are aligned with the future of sustainable agriculture, supporting improved fertiliser efficiency and regenerative farming practices. Through its Accumulating Carbon in Soil System (ACSS), RLF aims to help farmers reduce reliance on traditional fertilisers while increasing organic matter in the soil, contributing to improved carbon sequestration outcomes, better soil health, and more resilient farming systems.
