GUIDANCE

Vita Life Sciences (ASX: VLS) announces the following guidance for the half year ending 30 June 2026:

Sales: **$46.3m-$47.3m** *(H1 2025: $45.5m)*
Pre-tax Profit: **$6.8m-7.3m** *(H1 2025: $6.8m)*

The Company's expects solid revenue growth from its established markets in Australia and Malaysia/Singapore, partially offset by lower exports to China due to a changing regulatory environment and channel dynamics.

Pre-tax profit is expected to be in line or slightly higher than the prior corresponding period reflecting continued cost discipline and the underlying quality of earnings despite tougher economic conditions.

Importantly, the Group's underlying financial position remains sound with substantial cash reserves, no borrowings and continued cash generation supporting ongoing investment in strategic priorities.

The Group remains focussed on its long-term strategy and remains committed to delivering long term sustainable growth and value for shareholders.

Andrew O'Keefe
Managing Director
