

## Patent infringement claim update

### JPMC files motion for Exceptional Case and Attorneys' Fees

**15 June 2026** - [Identitii \(ASX:ID8\)](#) ('Identitii', 'the Company') (ASX:ID8) provides the following update on its US patent infringement claim against JPMorgan Chase (JPMC).

On 12 June 2026 (US time), JPMC filed a motion with the US District Court for the District of Delaware seeking a declaration that the Company's case is "exceptional" under 35 U.S.C. § 285 of the Patent Act, and requesting an award of attorneys' fees.

**The company will oppose this motion.**

An "exceptional case" finding under § 285 requires the court to find that the case stands out from others with respect to the substantive strength of Identitii's litigating position or the way it was litigated. Identitii does not accept that this standard is met.

In particular, the Company notes that the US Patent and Trademark Office denied JPMC's own challenges to the validity of the '413 patent. The Company believes this directly supports the legitimacy of its patent and its decision to enforce it.

The Company, supported by its US counsel and litigation fund, will file its opposition in accordance with the Court's scheduling procedures, and will continue to update shareholders on developments in both the fee motion and the Federal Circuit appeal.

#### Impact on operations

The US patent matter is separate from Identitii's commercial operations. BNDRY, the Company's financial crime compliance infrastructure for Australian venues operating electronic gaming machines, continues to operate as normal, unimpacted by the ruling.

Ends

This announcement has been approved and authorised to be given to ASX by the CEO of Identitii Limited.

## About Identitii

Identitii exists to help organisations build trust, protect their businesses and customers, and prevent financial crime through better use of financial data. In a world where financial ecosystems are increasingly complex and interconnected, Identitii invests in technologies that make financial data more secure, more intelligent and easier to utilise. We build solutions that deliver real-world impact for businesses and their communities.
