BOWDENS SILVER PROJECT UPDATE

Silver Mines Limited (“Silver Mines” or the “Company”) is pleased to provide the following update in relation to its Development Application (“DA”) SSD-5765 for the Bowdens Silver Project (“Bowdens Project”).

As announced on 23 December 2025, in consultation with the NSW Department of Planning Housing and Infrastructure (“DPHI”), Silver Mines decided to refresh its ecological surveys and provide an updated biodiversity assessment in accordance with the requirements of the *Biodiversity and Conservation Act 2016* (NSW) (“BC Act”) while also responding to a Request for Information (“RFI”) from DPHI.

Silver Mines is now pleased to report that it has submitted an updated Biodiversity Development Assessment Report (“BDAR”) for the Bowdens Project along with an associated response to DPHI relating to the RFI.

It is now anticipated that DPHI will assess the submission material enabling it to provide an updated assessment report to the Independent Planning Commission of NSW (“IPC”) for consideration and subsequent DA redetermination.

Silver Mines Managing Director, Jo Battershill commented: “It is very pleasing to announce this important milestone for the Bowdens Project. Importantly, the decision in late 2025 to refresh the ecological studies provided the Company with a navigable pathway through the Bowdens redetermination process. Subsequently, the team’s focus has been to finalise the surveys and complete the BDAR in accordance with the requirements of the BC Act for assessment by the relevant departments.

With both the BDAR and the response to DPHI’s RFI now submitted, we look forward to DPHI providing an updated assessment report to the IPC for its consideration and subsequent redetermination.

It is important to point out that the Bowdens Project remains a high-quality, critical minerals project of both state and regional significance, and development of it remains our top priority. The project is estimated to generate more than 300 jobs during the construction phase and over 200 people during steady state operations, which would make it one of the largest employers in the district.

Separately, the Bowdens Definitive Feasibility Study is almost complete, and we look forward to updating investors with the results in the coming weeks.”

Silver Mines will continue its extensive consultations with relevant Government departments, local communities, and other interested stakeholders throughout the assessment and redetermination period.

The Company will continue to provide updates on its progress in achieving reinstatement of the development consent of the Bowdens Project.

About the Bowdens Silver Project

The Bowdens Silver Project is in central New South Wales, approximately 26 kilometres east of Mudgee (Figure 1). The consolidated project area comprises 2,115 km² (521,000 acres) of titles covering approximately 80 kilometres of strike of the highly mineralised Rylstone Volcanics. Multiple target styles and mineral occurrences have potential throughout the district including analogues to Bowdens Silver, high-grade silver-lead-zinc epithermal and volcanogenic massive sulphide (VMS) systems and copper-gold targets.

Bowdens Silver is the largest undeveloped silver deposit in Australia with substantial resources and a considerable body of high-quality technical work completed. The project boasts outstanding logistics for mine development.

Forward-Looking Statements

This announcement may contain certain forward-looking statements, guidance, forecasts, estimates, prospects, projections or statements in relation to future matters that may involve risks or uncertainties and may involve significant items of subjective judgement and assumptions of future events that may or may not eventuate ("Forward-Looking Statements"). Forward-Looking Statements can generally be identified by the use of forward-looking words such as "anticipate", "estimates", "will", "should", "could", "may", "expects", "plans", "forecast", "target" or similar expressions and may include, without limitation, statements regarding plans, strategies and objectives of management, anticipated production and expected costs. Indications of, and guidance on future earnings, cash flows, costs, financial position and performance are also Forward-Looking Statements.

Persons reading this announcement are cautioned that such statements are only predictions, and that actual future results or performance may be materially different. Forward-Looking Statements, opinions and estimates included in this announcement are based on assumptions and contingencies which are subject to change, without notice, as are statements about market and industry trends, which are based on interpretation of current market conditions. Forward-Looking Statements are provided as a general guide only and should not be relied on as a guarantee of future performance.

No representation or warranty, express or implied, is made by Silver Mines that any Forward-Looking Statement will be achieved or proved to be correct. Further, Silver Mines disclaims any intent or obligation to update or revise any Forward-Looking Statement whether as a result of new information, estimates or options, future events or results or otherwise, unless required to do so by law.
