ASX / MEDIA RELEASE
3 July 2026

Update on Proceedings Relating to the Al Wash-hi Majaza Project

Perth, Australia: Alara Resources Limited (ASX: AUQ) (**Alara** or the **Company**), a pure-play copper producer and explorer with projects in Oman, refers to its ASX announcements on 31 December 2025 and 10 June 2026 regarding the legal proceedings in the Sultanate of Oman involving its Omani joint venture company, Al Hadeetha Resources LLC ("AHRL"), and the Al Wash-hi Majaza project ("Al Wash-hi Project"), providing the following update. Alara holds a 51% interest in AHRL.

Background

As announced to ASX on 31 December 2025, residents of villages located near the Al Wash-hi Project (the "Claimants"), filed an administrative claim before the Administrative Circuit of the Ibra Primary Court ("Court") against AHRL and four Omani Government bodies – the Ministry of Energy and Minerals, the Environment Authority, the Ministry of Housing and Urban Planning, and the Ministry of Interior[1].

The Claimants sought orders to suspend AHRL from undertaking project-related activities at the Al Wash-hi Project, compensation, and to have the Project licences declared invalid.

As announced to ASX on 10 June 2026, the Court subsequently issued judgment dismissing the Claimants' case on its merits, while accepting it in form, and ordered the Claimants to bear the legal costs of the proceedings[2].

Notice of Appeal

The Claimants have now filed a Statement of Appeal with the Court of Appeal against the first instance judgment. The appeal names AHRL as first respondent, together with the same four Government authorities as subsequent respondents (the "Appeal").

The Court of Appeal has scheduled a first hearing for early November 2026 to consider the Appeal.

Company Response

AHRL holds all valid licences and permits required for the operation of its crusher, quarry and landfill activities at the site, including mining licence, environmental permit and land allocation, issued by the competent Omani authorities. The Company notes that the Court dismissed the Claimants' case on its merits at first instance[2].

AHRL, together with its legal advisers, is reviewing the Statement of Appeal and intends to vigorously defend the Appeal. At this stage, the Company is not in a position to determine the likely outcome or timing of the

Appeal, and there is no certainty that any of the orders sought by the Claimants as part of the Appeal will be granted. There has been no change to the status of the Al Wash-hi Project, and AHRL continues to operate the Project under its existing licences, permits and governmental approvals. The Company will provide further updates as the Appeal progresses or as otherwise required under the ASX Listing Rules.

This announcement has been approved for release by the Boards of Al Hadeetha Resources LLC & Alara Resources Limited.

About Alara Resources

Alara Resources Limited (ASX: AUQ) is an Australian-based pure-play copper producer and explorer.

Alara is currently focused on operating the Al Wash-hi Majaza Copper mine and concentrate production facility in Oman. The Company is also continuing exploration activities at its other Omani projects, including the Block 7 exploration licence under the Daris JV, the Mullaq and Al Ajal exploration licences under the Al Hadeetha JV, the Block 8 exploration license under the Awtad Copper-Power Metal JV and the recently awarded Block 22B exploration licence under the Al Hadeetha Mining LLC JV.

Alara's mission is to become a mid-tier minerals producer which will deliver maximum shareholder value through profitable growth driven by low-cost, sustainable operations.
