

SUCCESSFUL ~A\$10 MILLION INSTITUTIONAL PLACEMENT TO ADVANCE THE EMA RARE EARTHS PROJECT

Highlights

- Firm commitments received to raise ~**A\$10 million** (before costs) via a two-tranche institutional Placement at **A\$0.053** per New Share
- Placement represents a **3.6% discount** to last traded price of A\$0.055
- Strong demand from new and existing high-quality investors
- Placement follows the release of the Ema BFS, which confirmed Ema as an economically robust and strategically significant rare earths project with a low upfront capital cost and near-term development pathway
- Upon settlement of the Placement, BCM will be well capitalised with a pro forma cash balance of ~**A\$14 million** (before costs).¹
- Placement proceeds will be used to advance the Ema Project towards FID, including detailed engineering and design and provide flexibility to continue progressing offtake, project financing and permitting discussions

Brazilian Critical Minerals Limited (ASX: BCM) (BCM or the Company) is pleased to announce that it has received firm commitments for a non-underwritten ~A\$10 million (before costs) two-tranche institutional placement of approximately ~190.1 million new fully paid ordinary shares (**New Shares**) in the Company at an offer price of A\$0.053 per New Share (**Offer Price**) (**Placement**).

The Placement follows the release of the Ema Rare Earths Project (**Ema Project**) Bankable Feasibility Study (**BFS**) and will fund ongoing pre-development activities as the Company advances the EMA Project towards a Financial Investment Decision (**FID**), including Front-End Engineering and Design, production well drilling for Field 1 and the procurement of early-stage project equipment.

Commenting on the Placement, BCM Managing Director, Andrew Reid, said:

The strong demand received from high-quality institutional investors for this Placement is a clear endorsement of the quality of the Ema Project, which the BFS confirmed as the lowest capital cost rare earth project in the western world with the potential to emerge as an important source of Western world rare earths supply.

¹ Based on current unaudited cash position of ~A\$4 million plus gross proceeds from the Placement of A\$10 million (before costs).

The Placement de-risks our development pathway and ensures we are well capitalised to advance Ema towards FID, including detailed engineering and design. It also provides working capital and flexibility to continue progressing permitting and approvals and advance project offtake and strategic partnership workstreams to support development.

On behalf of the Board and management team of Brazilian Critical Minerals, I welcome our new shareholders and thank our existing shareholders for their continued support.

Use of Proceeds

Proceeds from the Placement, together with existing cash, will be applied to the following purposes:

- Development of the Ema Rare Earths Project, which includes:
 - Front-End Engineering and Design (**FEED**);
 - Production well drilling; and
 - Ordering of early-stage project equipment; and
- Admin & working capital requirements.

Placement Details

The Placement will be issued in two tranches:

- an unconditional placement to raise approximately ~A\$7.4 million (before costs) through the issue of approximately ~139.6 million New Shares at the Offer Price, utilising the Company's existing placement capacity pursuant to ASX Listing Rule 7.1 (**Tranche 1**); and
- a conditional placement to raise approximately ~A\$2.7 million (before costs) through the issue of approximately ~50.4 million New Shares at the Offer Price, subject to shareholder approval for the purposes of ASX Listing Rules 7.1 and 10.11 which will be sought at an Extraordinary General Meeting (**EGM**) expected to be held early to mid-August 2026 (**Tranche 2**).

The Offer Price of A\$0.053 per New Share represents a:

- 3.6% discount to BCM's last closing price of \$0.055 per share on Friday, 3 July 2026; and
- 5.2% discount to BCM's 5-day volume weighted average price of \$0.056 per share up to and including Friday, 3 July 2026.

Subject to shareholder approval, Directors of the Company have committed to ~A\$73,000 in the Placement.

New Shares issued under the Placement will rank equally with the Company's existing fully paid ordinary shares on issue.

Settlement of New Shares issued under Tranche 1 is expected to occur on Monday, 13 July 2026, with allotment on ASX to occur on Tuesday, 14 July 2026. Settlement and allotment of New Shares issued under Tranche 2 is expected to occur in early to mid-August 2026, following BCM shareholder approval at the EGM.

The Placement is not underwritten. Barrenjoey Markets Pty Limited and Wallabi Group Pty Ltd acted as Joint Lead Managers and Bookrunners to the Placement.

About Brazilian Critical Minerals

Brazilian Critical Minerals Ltd (ASX: BCM) is a rare earths exploration and development company listed on the Australian Securities Exchange and headquartered in Perth, Western Australia.

BCM's principal asset is the 100%-owned Ema Rare Earths Project in the Apuí region of Amazonas State, Brazil. The project is positioned as one of the most significant emerging ionic clay rare earth projects outside China. The Ema and Ema East tenement areas cover approximately 189 km² of prospective felsic volcanic terrain hosting extensive clay-rich saprolite profiles enriched in rare earth elements.

BCM has defined an Indicated and Inferred Mineral Resource of 1,071 Mt at 732 ppm TREO at the Ema Project. On 30 June 2026, the Company released a Bankable Feasibility Study (BFS) for the project, based on in-situ recovery and the production of a mixed rare earth carbonate (MREC) product, with an assumed life-of-mine MREO recovery of 55%.

JORC Category	cut-off ppm TREO	Tonnes Mt	TREO ppm	NdPr ppm	DyTb ppm	MREO ppm	MREO:TREO %
Indicated	500	392	773	184	17	200	25
Inferred	500	681	712	168	15	184	25
Total	500	1,071	732	174	16	190	25

Following completion of the BFS, BCM is progressing environmental permitting, detailed engineering and design, offtake discussions and project financing as it advances the Ema Project towards a Final Investment Decision (FID).
