Export Approval Secured for Initial Series of Drill Samples

AuKing Mining Limited (ASX: AKN) ("**AuKing**" or "**the Company**") is pleased to advise that export approval has been obtained from the Malawi Ministry of Mining in relation to its initial series of samples from the drilling program at the Tundulu Rare Earths Project ("**Tundulu**") in southern Malawi.

AuKing's drilling contractors at Tundulu, Thompson Resources, continue to make excellent progress, with 3,524 m of reverse circulation (RC) drilling having now been completed across 24 drill holes. Approved samples have now been collected and will be immediately despatched to Intertek's Zambia preparation laboratory before then being despatched to Perth for complete assay analysis. First assay results are expected to be received in late July 2026.

The Company continues to appreciate the support and co-operation of the Ministry of Mines in facilitating ongoing export approvals for drill sample submissions.

Approved by the Board of AuKing Mining Limited.
