

ASX Announcement

13 July 2026

DIVESTMENT OF NON-CORE BRIGHTSIDE INVESTMENT

Bridge SaaS Limited (ASX: BGE) (**Bridge** or the **Company**) advises the market that it has completed the disposal of its entire shareholding in the non-core investment in Brightside Disability Support & Respite Pty Ltd ACN 647 612 717 (**Brightside**) for cash proceeds of \$1.5 million.

The sale proceeds are broadly in line with the Company's original investment cost. After taking into account dividends received by Bridge during the period of its ownership of this investment, the investment generated a positive return overall for the Company.

The divestment of this non-core investment follows a strategic review by the Board and reflects the Company's decision to focus its on its wholly owned New South Wales disability services business, Bridge Disability Support Pty Ltd, and the continued development and commercialisation of its core software platform and other research and development initiatives in the NDIS sector.

As previously disclosed to the market, Bridge is progressing research and development initiatives concerning the application of artificial intelligence and humanoid robotics within Australian NDIS settings. This work is focused on how emerging technologies may support service delivery, workforce productivity, participant outcomes and operating efficiencies across the disability services sector.

The Company is actively seeking joint venture and strategic partnership opportunities with United States-based humanoid robotics developers to accelerate the development, testing and potential deployment of these technologies in Australia.

The disposal strengthens the Company's cash position and provides additional financial flexibility to advance its wholly owned operations, software platform and technology development strategy.

This announcement was authorised for release by the Board of Bridge SaaS Limited.
