13 July 2026

Botanix receives Notice of Allowance for additional US patent covering *Sofdra*® drug substance

Phoenix AZ, 13 July 2026: Commercial dermatology company, Botanix Pharmaceuticals Limited (ABN 70 009 109 755) (ASX:BOT, "Botanix" or "the Company"), is pleased to announce that the United States Patent and Trademark Office ("USPTO") has issued a Notice of Allowance for a US patent application, Serial No. 17/611,158, 'CRYSTALLINE FORM OF SOFPIRONIUM BROMIDE AND PREPARATION METHOD THEREOF', which is directed to commercially relevant intellectual property covering the drug substance for *Sofdra*® (sofpironium), the Company's FDA-approved treatment for primary axillary hyperhidrosis in adults and pediatric patients nine years of age and older.

The allowed claims are directed to proprietary aspects of sofpironium drug substance technology utilised in the commercial manufacture of *Sofdra*. Upon issuance, the patent is expected to provide Botanix with additional intellectual property protection surrounding *Sofdra* in the United States.

> *'Strengthening our intellectual property estate around Sofdra remains an important strategic priority for Botanix,'* said Dr Howie McKibbon, Chief Executive Officer of Botanix. *'This Notice of Allowance further expands the Company's US patent portfolio supporting the long-term commercial opportunity for Sofdra and reinforces our commitment to protecting key innovations associated with the product.'*

The patent application relates to commercially relevant innovations associated with the sofpironium drug substance and, once issued, will provide additional protections to already issued patents that cover *Sofdra's* commercial drug substance into May 2040.

Release authorised by
