## ABOUT BELARAROX LIMITED (ASX: BRX)

Belararox is a mineral explorer focused on securing and developing resources to meet the surge in demand from the technology, battery, and renewable energy markets. Our projects currently include the potential for zinc, copper, gold, silver, nickel, and lead resources.

The Company's portfolio includes the TMT Project in Argentina and the Kalahari Copper Project (KCP) in Botswana targeting copper, gold, and other metals, the Belara project in New South Wales, focused on zinc and copper, and the Bullabulling project (under Option to Minerals 260) in Western Australia, targeting gold.

## KALAHARI COPPER PROJECT

Situated in the Kalahari Copperbelt in the northwestern part of Botswana, many of the KCP tenures are interpreted to be located along strike from known copper-silver deposits, underscoring their excellent prospectivity, offering significant potential for new discoveries. The tenure package comprises 14 prospective licences within the belt (Figure 1).
