Name Change to "Sinclair Gold Ltd"

(**ASX:AQI**) The Board of Directors is pleased to advise that the Company's change of name from Alicanto Minerals Limited to **Sinclair Gold Ltd** has been implemented following Shareholder approval and confirmation from the Australian Securities and Investments Commission.

The new name reflects the Company's transformation into a focused Australian gold exploration and development company following the acquisition of the Mt Henry Gold Project in Norseman, Western Australia.

The Sinclair name pays tribute to pioneering prospector Laurie Sinclair, whose exploration efforts contributed to the discovery of the Norseman Goldfields in the late 1800s, and reflects the Company's commitment to advancing the next phase of exploration and Resource growth in one of Australia's premier gold districts.

The change of name is not yet reflected on the ASX. The Company is expecting to commence trading under its new name and ASX code (ASX:SGC) on Thursday, 16 July 2026.

Sinclair Gold Ltd has unveiled its new branding, including an updated website (www.sinclairgold.com).

This announcement has been approved for release by the Board of Directors.

About Sinclair Gold

Sinclair Gold Ltd (ASX: SGC) (formerly Alicanto Minerals Ltd ASX:AQI) has acquired the Mt Henry Gold Project in Western Australia (refer ASX announcement dated 16 February 2026). Mt Henry hosts total Mineral Resources 24Mt at 1.2g/t gold for 0.9Moz contained gold and sits within a 16km mineralised corridor. The mineralisation remains open along strike and down dip with clear potential for rapid Resource growth and broader district scale upside. Prior drilling returned substantial widths and grades from unmined areas highlighting the scale and continuity of mineralisation. The Project's Mineral Resources are located on granted mining leases with sealed-road access ~1.5km east of the Coolgardie–Esperance Highway, benefiting from proximity to established regional infrastructure.

Sinclair also has an interest in tenements in Sweden's highly regarded mining region of Bergslagen, including the world class Falun copper-gold and polymetallic skarn project and the historic Sala silver-zinc-lead Project.

Sinclair's strategy is driven by a Board and Management team comprising a broad range of expertise, including extensive technical, operational, financial and commercial skills as well as experience in mining exploration, strategy, venture capital, acquisitions and corporate finance.

Competent Persons Statement

The information in this announcement that relates to the Mineral Resource estimates for the Mt Henry Gold Project has been extracted from the Company's announcement titled "Acquisition and Capital Raising – Clarification Announcement" which was released to the ASX on 19 December 2025. The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcement and, in the case of estimates of Mineral Resources or Ore Reserves, that all material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcement.
