The Offer is not being extended and WHKOB Options will not be issued to Eligible Participants with a registered address which is outside Australia and New Zealand. For further information on overseas Eligible Participants please refer to Section 2.8.

Continuous disclosure obligations

The Company is a “disclosing entity” (as defined in section 111AC of the Corporations Act) for the purposes of section 713 of the Corporations Act and, as such, is subject to regular reporting and disclosure obligations. This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

Having taken such precautions and having made such enquires as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the three months before the issue of this Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

Accordingly, any forecast or projection information would contain such a broad range of potential outcomes and possibilities that it is not possible to prepare a reliable best estimate forecast or projection.

Clearing House Electronic Sub-Register System (CHES) and Issuer Sponsorship

The Company will apply to participate in CHES, for those investors who have, or wish to have, a sponsoring stockbroker. Investors who do not wish to participate through CHES will be issuer sponsored by the Company.

Electronic sub-registers mean that the Company will not be issuing certificates to investors. Instead, investors will be provided with statements (similar to a bank account statement) that set out the number of WHKOB Options issued to them under this Prospectus. The notice will also advise holders of their Holder Identification Number or Security Holder Reference Number and explain, for future reference, the sale and purchase procedures under CHES and issuer sponsorship.

Electronic sub-registers also mean ownership of securities can be transferred without having to rely upon paper documentation. Further monthly statements will be provided to holders if there have been any changes in their security holding in the Company during the preceding month.

2. Details of the offer

2.1 Background

2.1.1 Placement

The Company announced, on 15 April 2026, that it had received firm commitments from unrelated professional and sophisticated investors (**Placement Participants**) for a placement of up to 214,285,714 Shares at an issue price of \$0.007 per Share to raise approximately \$1,500,000 (before costs).

In that announcement, the Company advised that the Placement Participants would be entitled to one (1) free listed WHKOB Option for every two (2) Shares subscribed for and issued to the Placement Participants under the Placement. The WHKOB Options are exercisable at \$0.013 per WHKOB Option and expiring 31 July 2029. The full terms of the WHKOB Options are set out in Section 4.1.

The Company received Shareholder approval to issue the WHKOB Options at the General Meeting.

2.1.2 Lead Manager

The Company engaged GBA Capital Pty Ltd (ACN 643 039 123) (**Lead Manager**) to act as lead manager to the Placement. The Company agreed to pay the Lead Manager a 6% fee plus GST (i.e. approx. \$90,000) for the total amount raised under the Placement together with 32,142,858 WHKOB Options.

As set out in Section 1.2 the Company received Shareholder approval at the General Meeting to issue an aggregate of 32,142,858 WHKOB Options to the Lead Manager in consideration for lead manager services provided in connection with the Placement.

Pursuant to this Shareholder approval obtained at the General Meeting, the Lead Manager nominated Keyano Pty Ltd ACN 658 659 860 (**Keyano**) to receive Shares on its behalf.

Accordingly, Keyano is an Eligible Participant.

2.2 The Offer

This Prospectus includes an offer of up to 139,285,715 WHKOB Options.

As set out in Section 1.2, the WHKOB Options will be offered for nil consideration to:

- (a) the Placement Participants, on the basis of one (1) WHKOB Option for every two (2) Shares subscribed for and issued under the Placement; and
- (b) the Lead Manager (or its nominee), in consideration for the lead manager services provided in connection with the Placement,

(together, the **Eligible Participants**). There is no general offer of WHKOB Options.

No funds will be raised from the issue of these WHKOB Options as they are being issued for nil consideration.

The WHKOB Options offered under this Prospectus will only be issued to the Eligible Participants (or their nominee/s). Application Forms in respect of the Offer will only be provided by the Company to the Eligible Participants.

The WHKOB Options offered under the Offer will be issued on the terms and conditions set out in Section 4.1 of this Prospectus.

Any Shares issued upon the future exercise of WHKOB Options will rank equally with the Shares on issue at the date of this Prospectus. Please refer to Section 4.2 for further information regarding the rights and liabilities attaching to Shares.

As set out in Section 1.2, Shareholder approval for the issue of the WHKOB Options offered under the Offer was obtained at the General Meeting. Further information in respect of the General Meeting is set out in the Notice of Meeting.

2.3 Underwriting

2.5 Minimum subscription

There is no minimum subscription.

2.6 ASX listing

Application for Official Quotation of the WHKOB Options offered pursuant to this Prospectus will be made within 7 days after the date of this Prospectus. If the WHKOB Options are not admitted to Official Quotation by ASX before the expiration of three months after the date of this Prospectus, or such period as varied by ASIC, the Company will not issue any WHKOB Options under the Offer and will refund all application monies received under the Offer.

The fact that ASX may grant Official Quotation to the WHKOB Options is not to be taken in any way as an indication of the merits of the Company or the WHKOB Options now offered for subscription.

2.7 Issue of WHKOB Options

As set out in Section 3.1, the primary purpose of the Offer is to issue WHKOB Options as approved by Shareholders to the Eligible Participants, being Placement Participants and the Lead Manager.

It is not practicable for the Company to comply with the securities laws of overseas jurisdictions having regard to the number of overseas Eligible Participants, the number and value of the WHKOB Options that these Eligible Participants would be offered and the cost of complying with regulatory requirements in each relevant jurisdiction. - (iii) if admitted to the official list of ASX at the time, apply for official quotation on ASX of Shares issued pursuant to the exercise of the WHKOB Options.

4.2 Rights and liabilities attaching to Shares

The following is a summary of the more significant rights and liabilities attaching to Shares. This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of Shareholders. To obtain such a statement, persons should seek independent legal advice.

Full details of the rights and liabilities attaching to Shares are set out in the Constitution, a copy of which is available for inspection at the Company's registered office during normal business hours:

(a) **General meetings**

Shareholders are entitled to be present in person, or by proxy, attorney or representative to attend and vote at general meetings of the Company. The Company's constitution permits the use of technology at general meetings of

shareholders (including wholly virtual meetings) to the extent permitted under the Corporations Act, Listing Rules and applicable law.

Shareholders may requisition meetings in accordance with section 249D of the Corporations Act and the Constitution of the Company.

(b) Voting rights

Subject to any rights or restrictions for the time being attached to any class or classes of shares, at general meetings of shareholders or classes of shareholders:

- (i) each Shareholder entitled to vote may vote in person or by proxy, attorney or representative;
- (ii) on a show of hands, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder has one vote; and
- (iii) on a poll, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder shall, in respect of each fully paid Share held by him, or in respect of which he is appointed a proxy, attorney or representative, have one vote for each Share held, but in respect of partly paid shares shall have such number of votes as bears the same proportion to the total of such Shares registered in the Shareholder's name as the amount paid (not credited) bears to the total amounts paid and payable (excluding amounts credited).

(c) Dividend rights

Subject to the rights of any preference Shareholders and to the rights of the holders of any shares created or raised under any special arrangement as to dividend, the Directors may from time to time declare a dividend to be paid to the Shareholders entitled to the dividend which shall be payable on all Shares according to the proportion that the amount paid (not credited) is of the total amounts paid and payable (excluding amounts credited) in respect of such Shares.

The Directors may from time to time pay to the Shareholders any interim dividends as they may determine. No dividend shall carry interest as against the Company. The Directors may set aside out of the profits of the Company any amounts that they may determine as reserves, to be applied at the discretion of the Directors, for any purpose for which the profits of the Company may be properly applied.

Subject to the ASX Listing Rules and the Corporations Act, the Company may, by resolution of the Directors, implement a dividend reinvestment whereby Shareholders may elect to reinvest cash dividends paid by the Company subscribing for Shares.

(d) Winding-up

If the Company is wound up, the liquidator may, with the authority of a special resolution, divide among the Shareholders in kind the whole or any part of the property of the Company, and may for that purpose set such value as he considers fair upon any property to be so divided, and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders.

The liquidator may, with the authority of a special resolution, vest the whole or any part of any such property in trustees upon such trusts for the benefit of the contributories as the liquidator thinks fit, but so that no Shareholder is compelled to accept any shares or other securities in respect of which there is any liability.

(e) **Shareholder liability**

As the Shares issued will be fully paid shares, they will not be subject to any calls for money by the Directors and will therefore not become liable for forfeiture.

(f) **Transfer of shares**

Generally, shares in the Company are freely transferable, subject to formal requirements, the registration of the transfer not resulting in a contravention of or failure to observe the provisions of a law of Australia and the transfer not being in breach of the Corporations Act and the ASX Listing Rules.

(g) **Future increase in capital**

The issue of any new Shares is under the control of the Directors of the Company. Subject to restrictions on the issue or grant of securities contained in the ASX Listing Rules, the Constitution and the Corporations Act (and without affecting any special right previously conferred on the holder of an existing share or class of shares), the Directors may issue Shares as they shall, in their absolute discretion, determine.

(h) **Variation of rights**

Under section 246B of the Corporations Act, the Company may, with the sanction of a special resolution passed at a meeting of Shareholders vary or abrogate the rights attaching to Shares.

If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class), whether or not the Company is being wound up, may be varied or abrogated with the consent in writing of the holders of three quarters of the issued shares of that class, or if authorised by a special resolution passed at a separate meeting of the holders of the shares of that class.

(i) **Alteration of constitution**

In accordance with the Corporations Act, the Constitution can only be amended by a special resolution passed by at least three quarters of Shareholders present and voting at the general meeting. In addition, at least 28 days written notice specifying the intention to propose the resolution as a special resolution must be given.

Risk category	Risk
Technology Risk	WhiteHawk's market involves rapidly evolving products and technological change. The Company cannot guarantee that it will be able to engage in research and development at the requisite levels. The Company cannot assure investors that it will successfully identify new technological opportunities and continue to have the needed financial resources to develop new products in a timely or cost-effective manner. At the same time, products, services and technologies developed by others may render the Company's products and services obsolete or noncompetitive.
Research and Development and Technical Risk	WhiteHawk's products and services are the subject of continuous research and development and necessarily need to be substantially developed further in order to gain and maintain competitive and technological advantage, and in order to meaningfully improve the products' and services' usability, scalability and accuracy. There are no guarantees that the Company will be able to undertake such research and development successfully. Failure to successfully undertake such research and development, anticipate technical problems, or estimate research and development

Risk category	Risk
	costs or timeframes accurately will adversely affect the Company's results and viability.
Intellectual Property Rights	A substantial part of the Company's commercial success will depend on its ability to establish and protect WhiteHawk's intellectual property to maintain trade secret protection and operate without infringing the proprietary rights of third parties. Further, the commercial value of the Company's intellectual property assets is dependent on any relevant legal protections. These legal mechanisms, however, do not guarantee that the intellectual property will be protected or that the Company's competitive position will be maintained. No assurance can be given that employees or third parties will not breach confidentiality agreements, infringe or misappropriate the Company's intellectual property or commercially sensitive information, or that competitors will not be able to produce non-infringing competitive products. Competition in retaining and sustaining protection of technologies and the complex nature of technologies can lead to expensive and lengthy disputes for which there can be no guaranteed outcome. There can be no assurance that any intellectual property which the Company (or entities it deals with) may have an interest in now or in the future will afford the Company commercially significant protection of technologies, or that any of the projects that may arise from technologies will have commercial applications. It is possible that third parties may assert intellectual property infringement, unfair competition or like claims against the Company under copyright, trade secret, patent, or other laws. While the Company is not aware of any claims of this nature in relation to any of the intellectual property rights in which it has or will acquire an interest, such claims, if made, may harm, directly or indirectly, the Company's business. If the Company is forced to defend claims of intellectual property infringement, whether they are with or without merit or are determined in the Company's favour, the costs of such litigation will be potentially significant and may divert management's attention from normal commercial operations. Additionally, securing rights to (or developing) technologies complementing WhiteHawk's existing intellectual property will also play an important part in the commercial success of the Company. There is no guarantee that such rights can be secured or such technologies can be developed.
Data loss, theft or corruption	WhiteHawk stores data in its own systems and networks and also with a variety of third party service providers. Corruption, theft or loss of the data as a result of misuse, exploitation or hacking of any of these systems or networks could lead to corruption, theft or loss of the data which could have a material adverse effect on the Company's business, financial condition and results. Further, if WhiteHawk's systems, networks or technology are subject to any type of 'cyber'

Risk category	Risk
	crime, its technology may be perceived as unsecure which may lead to a decrease in the number of customers.
Reliance on Key Personnel Risk	The Company depends on the expertise, experience and efforts of its executive officers and other key employees. A failure to attract and retain executive, business development, technical and other key personnel could reduce the Company's revenues and operational effectiveness. There is a continuing demand for relevant qualified personnel, and the Company believes that its future growth and success will depend upon its ability to attract, train and retain such personnel. Competition for personnel in the Company's industry is intense, and there is a limited number of persons with knowledge of, and experience in, this industry. An inability to attract or maintain a sufficient number of requisite personnel could have a material adverse effect on the Company's performance or on the Company's ability to capitalise on market opportunities.
Foreign Exchange	The Company will be operating in a variety of jurisdictions and as such, expects to generate revenue and incur costs and expenses in more than one currency. Consequently, movements in currency exchange rates may adversely or beneficially affect the Company's results or operations and cash flows. Any depreciation of currencies in foreign jurisdictions in which the Company operates may result in lower than anticipated revenue, profit and earnings of the Company.

5.3 Industry specific

Risk category	Risk
User experience risk	The Company's business model is based on recurring revenue arising from customers. A poor user experience may not necessarily be anticipated and may affect growth of customer numbers and repeat purchases or ongoing contracts with the Company for use of its software services. Factors which may contribute to poor customer experience include: (a) ease of setting up and commencing use of the products offered; (b) simplicity and reliability of customer usage; and (c) quality of services provided. Poor user experiences may result in the loss of customers, adverse publicity, litigation, regulatory enquiries and customers reducing the use of the Company's products. If any of these occur, it may adversely impact the Company's revenues.
Scalability	Scalability is the key to any company that is looking at a potential global market. While the Company believes that the

Risk category	Risk
	WhiteHawk Exchange, other products, software and its service architecture have been built for scalability, there are no guarantees that its products will be able to meet future demand and requirements of consumers.
Information technology risk	With any technical project there are risks with the chosen technology, vendors and employees and in execution. Whilst WhiteHawk has employed and engaged subject-matter experts, employs experienced persons, standard security technologies and approaches there are risks that delivery will fail to meet expectations or deadlines, that technologies become obsolete, natural disasters occur, the Company is the subject of a fraud or malicious attack or platforms are compromised resulting in a negative impact on the Company's performance.
Reliance on third party providers	The Company intends to develop its products so that they can be utilised with a number of operating systems, internet platforms and other hardware devices. While the Company will therefore depend on its products being able to operate on a range of systems, platforms and devices, it is unable to control third party developers of such systems. Any changes to external platforms, systems or devices that give preference to competing products or adversely impact on the functionality of the Company's products may render consumers less likely to use the Company's products, which may have a detrimental impact on the Company's financial performance. Likewise, the Company's products are predicated on consumers being able to access the internet and cellular networks. If third party providers raise the cost of these networks or restrict the ability of consumers to access these networks via the Company's products, this is likely to detrimentally affect the Company's financial performance.
Brand risks	WhiteHawk has established its trademarks. The Company believes that to have global branding is critical for the long term success of its business. Negative commentary or a complaint regardless of accuracy via social media, media in general and or word of mouth may have a damaging impact on the ability of the Company to reach its potential, and may not necessarily be based on accurate data or real experience
Future capital requirements	There is no certainty regarding the ability of the Company to raise sufficient funds to meet its needs into the future. The Company's future capital requirements depend on a number of factors including the Company's ability to generate income from its operations. The Company may need to raise additional capital from equity or debt sources due to unforeseen circumstances. There can be no assurance that the Company will be able to raise such capital on favourable terms or at all. If adequate funds are not available on acceptable terms the Company may not be able to develop its business and this may have an adverse impact on the Company's operations.

Risk category	Risk
Regulatory compliance	The Company is required to comply with the laws governing privacy, taxation and consumer trade practices in each jurisdiction in which it operates. The Company may be subject to other laws in jurisdictions in which it plans to operate and the applicable laws may change from time to time. These laws and applicable regulations give rise to risks and compliance costs for the Company. Non-compliance with such regulations, changes in the interpretation of current regulations, loss or failure to secure renewal of an accreditation, or the introduction of new laws or regulations may lead to fines imposed on the Company by the relevant regulatory authority or Governmental body, revocation of permits or licenses, or damage to the Company's reputation and may have a material adverse effect on the Company's costs, business model and competitive environment and therefore could materially adversely affect the Company's future financial performance and position.
Doing business outside of Australia	The Company currently has all of its operations in the USA. For operational reasons the company may also establish operations in other jurisdictions. Wherever the Company sets up operations the Company is exposed to a range of multi-jurisdictional risks such as risks relating to currency exchange rates, labour practices, environmental matters, difficulty in enforcing contracts, changes to or uncertainty in the relevant legal and regulatory regime (including in relation to taxation and foreign investment and practices of government and regulatory authorities) and other issues in foreign jurisdictions in which the Company operates. Businesses that operate across multiple jurisdictions face additional complexities from the unique business requirements in each jurisdiction. Management experience will help to mitigate, but will not remove, this risk.
Insurance	The Company seeks to maintain appropriate policies of insurance consistent with those customarily carried by organisations in their industry sector. Any increase in the cost of the insurance policies of the Company or the industry in which they operate could adversely affect the Company's business, financial condition and operational results. The Company's insurance coverage may also be inadequate to cover losses it sustains. Uninsured loss or a loss in excess of the Company's insured limits could adversely affect the Company's business, financial condition and operational results.
Contractual disputes	The Company's business model is dependent in part on contractual agreements with third parties that have an interaction with the Company's target market. The Company is aware that there are associated risks when dealing with third parties including but not limited to insolvency, fraud and management failure. Should a third party contract fail, there is

Risk category	Risk
	the potential for negative financial and brand damage for the Company.
Credit risks	The Company will be exposed to credit risks relating to delayed or non-payments from its customers. A failure by the Company to adequately assess and manage credit risk may result in credit losses potentially resulting in a material adverse effect on the Company's business, operating and financial performance, including decreased operating cash flows.

5.4 General risks

Risk category	Risk
Economic	Economic conditions, both domestic and global, may affect the performance of the Company. Factors such as fluctuations in currencies, commodity prices, inflation, interest rates, supply and demand and industrial disruption may have an impact on operating costs and share market prices. The Company's future possible revenues and Share price can be affected by these factors, all of which are beyond the control of the Company or its Directors.
Market conditions	Securities listed on the stock market can experience extreme price and volume fluctuations that are often unrelated to the operating performances of such companies. The market price of Shares may fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general. General factors that may affect the market price of Shares include economic conditions in both Australia and internationally (particularly Australian, US and Chinese economic conditions), investor sentiment, local and international share market conditions, changes in interest rates and the rate of inflation, variations in commodity prices, the global security situation and the possibility of terrorist disturbances, changes to government regulation, policy or legislation, changes which may occur to the taxation of companies as a result of changes in Australian and foreign taxation laws, changes to the system of dividend imputation in Australia, and changes in exchange rates.
Change in government policy and legislation	Any material adverse changes in relevant government policies or legislation of Australia may affect the viability and profitability of the Company, and consequent returns to investors. The activities of the Company are subject to various federal, state and local laws governing prospecting, development, production, taxes, labour standards and occupational health and safety, and other matters.

5.5 Speculative investment

The risk factors described above, and other risk factors not specifically referred to, may have a materially adverse impact on the performance of the Company and the value of the WHKOB Options.

Prospective investors should consider that an investment in the Company is highly speculative.

There is no guarantee that the WHKOB Options offered under this Prospectus will provide a return on capital, payment of dividends or increases in the market value of those WHKOB Options.

Before deciding whether to subscribe for WHKOB Options under this Prospectus you should read this Prospectus in its entirety and consider all factors, taking into account your objectives, financial situation and needs.

The remuneration of an executive Director is decided by the Board, without the affected executive Director participating in that decision-making process. The determination of non-executive Directors' remuneration within that maximum will be made by the Board having regard to the inputs and value to the Company of the respective contributions by each non-executive Director. The current amount has been set at an amount not to exceed \$350,000 per annum.
