Talius Group Limited (Talius or **the Company) (ASX: TAL),** Australia's leading aged care data platform delivering real-time care workflows and automated compliance, is pleased to announce it has signed a Master Services Agreement (**MSA**) and an associated Statement of Work (**SOW**) with Longridge Aged Care (**Longridge**) for the installation of nurse call and sleep systems at Longridge's South Australian village.

The total contract value is $319,437. This comprises $263,589 of hardware and $55,848 of software contracted over a three-year term.

The MSA sets the commercial framework for the engagement. The SOW covers the delivery of nurse call and sleep systems at Longridge's South Australian village.

Deployment is targeted for completion in Q4 2026.

The contract adds a new South Australian operator to the Talius customer base and reflects continued conversion of the Company's sales pipeline across the aged care sector.

Commenting on the contract, Pat Howard, Managing Director and CEO of Talius said:

"Longridge chose Talius because our platform delivers nurse call and sleep monitoring as one integrated system, not as separate pieces of hardware bolted together. This contract extends our footprint into South Australia and builds a three-year software relationship from day one. We look forward to working with Longridge to provide outstanding care for their residents."

The Company will provide further updates as the deployment progresses.

This announcement has been authorised by the Board of Directors of Talius Group Limited.
