ASX ANNOUNCEMENT **21 JULY 2026**

WEBINAR

AXP Energy Limited (ASX: AXP, OTC US: AUNXF), ('*AXP*', '*Company*') confirms that it will hold a shareholder briefing at 11:00 am Sydney Time on Thursday, 23 July 2026.

CEO Dan Lanskey will deliver a presentation on the transformational farm-in to Block 9, onshore Syria, announced to the market on 15 June 2026, as well as providing an update on ongoing operations at the Charlie #1 well, located on the 100%-owned Edwards Lease in Oklahoma, and the broader field development strategy.

The briefing will be followed by a Q&A session.

Questions can be submitted now to alex@investorstream.com.au or in written form during the webinar. Anyone wishing to attend the webinar must register using the below link:

ABOUT AXP ENERGY LIMITED

AXP Energy Limited (ASX: AXP, OTC: AUNXF) is an oil & gas production and development company with operations in Colorado and Oklahoma. AXP Energy has also secured the right to earn a 25% participating interest in Block 9 (10,039 km²) onshore Syria's prolific Palmyride Basin via a farm-in with Simpora Latakia Limited (operator, 75%). AXP has entered Syria because Block 9 sits in the prolific Palmyride Basin with proven hydrocarbon systems, significant remaining prospectivity and improving commercial access following recent re-engagement by major E&P companies — making the jurisdiction commercially attractive for high-impact, relatively low-cost exploration.

DISCLAIMER

This announcement contains or may contain "forward looking statements" within the meaning of Section 27A of the Securities Act of1933 and Section 21B of the Securities Exchange Act of 1934. Any statements that express or involve discussions with respect to predictions, expectations, beliefs, plans, projections, objectives, goals, assumptions or future events or performance are not statements of historical fact and may be "forward looking statements." Forward looking statements are based on expectations, estimates and projections at the time the statements are made that involve a number of risks and uncertainties which could cause actual results or events to differ materially from those presently anticipated. Forward looking statements in this action may be identified through the use of words such as "expects", "will," "anticipates," "estimates," "believes," or statements indicating certain actions "may," "could," or "might" occur. Hydrocarbon production rates fluctuate over time due to reservoir pressures, depletion, down time for maintenance and other factors. The Company does not represent that quoted hydrocarbon production rates will continue indefinitely.
