

ASX Announcement | 21 July 2026

US\$4.0 Million for RK Lithium Project Received in Full

Flagship's pathway to Gold & Copper underway, tungsten sale next.

Flagship Minerals Limited (ASX:FLG) ("Flagship" or "the Company") is pleased to announce that following the binding Sale and Purchase Agreement for the sale of its RK Lithium Project as announced on the 25th of June, 2026, Flagship has received full consideration of US\$4 million (~A\$5.8 million)¹.

KEY POINTS

- Flagship executed a **binding Sale and Purchase Agreement for the sale of its 100% owned RK Lithium Project** in southern Thailand **for US\$4 million** (~A\$5.8 million) in June, 2026.
- **Consideration was a cash payment** which has been received in full.
- **Discussions underway for the sale of the Khao Soon Tungsten Project**, one of the largest tungsten exploration projects in southeast Asia.
- Completion of these **divestments will complete Flagship's transition to a Gold and Copper only explorer and developer.**

Flagship Minerals' Managing Director, Paul Lock, commented:

"The divestment of the RK Lithium Project brings US\$4.0m or ~A\$5.8m cash into Flagship.

*"Flagship will focus on progressing its 2.1Moz Isidora Gold Project in Chile to feasibility. Flagship is also reviewing the Whipsaw Copper Project in Canada for a potential spin-out via an ASX listing."*²

"Flagship also plans a follow-on sale of its 100% owned Khao Soon Tungsten Project in Thailand, one of the largest tungsten exploration projects in southeast Asia."

Transaction details

A Thai based syndicate led by privately held Pendulum Auto Co., Ltd, entered into a Sale and Purchase Agreement (SPA) with Flagship for the purchase of a 100% interest in the RK Lithium Project for a cash payment of US\$4,000,000.³

Flagship is pleased to advise that it has received the payment in full.

¹ The AUD/USD FX rate was ~0.6900 when the sale was announced on 25 June 2026. As at the date of this ASX release the AUD/USD FX rate was ~0.6990.

² A potential spin-out of the Whipsaw Copper Project into a dedicated ASX-listed vehicle will be subject to shareholder and regulatory approvals, including approvals from ASX.

³ See FLG's ASX Release dated 25 June, 2026, and titled "Flagship sells RK Lithium for A\$5.8 million cash".

ISIDORA GOLD PROJECT (CHILE)

About the Isidora Gold Project

The Isidora Gold Project is located east of Copiapo in the Atacama region, northern Chile. Isidora covers ~120km² comprising two Exploitation Concessions and 34 Exploration Concessions. See Flagship's ASX announcement dated 14 April 2025 and titled "*Pantanillo Gold Project - Advanced Large Scale Oxide Gold Project - Maricunga Gold Belt, Chile - Binding Option Agreement to Purchase 100%*".

Mineral Resource Estimate, Isidora Norte²

Type	Mt	Au (g/t)	Au (koz)	%
Measured	84.26	0.56	1,505	71.9
Indicated	21.07	0.59	399	19.1
Inferred	9.86	0.60	190	9.1
Total	115.2	0.56	2,093	100

Cut-off grade: Oxide 0.16 g/t Au; transitional 0.27g/t; and sulphide 0.31g/t.

1. See map references in 'Important Information' below.
2. The above JORC (2012) Mineral Resource was first reported in the Company's ASX announcement dated 14 May 2026 and titled "*Isidora Gold Project - 2.1 Million oz Gold Resource Defined*".

WHIPSAW COPPER PROJECT (CANADA)

About the Whipsaw Copper Project

The Whipsaw Copper Project is a large scale copper porphyry located in an infrastructure rich pro mining setting 160km east of Vancouver and 17km west of Hudbay's Copper Mountain project in BC, Canada. The holding is ~66km², historical drilling, soil geochemistry and geophysics support a substantial JORC (2012) Exploration Target across a mineralised system 3.7km in strike length and up to 1.2km in width, which is open.

Exploration Target, Whipsaw²

Tonnes (Bt)	Cu (%)	Mo (ppm)	Ag (ppm)	Au (ppm)	CuEq (%)
0.51-1.02	0.14-0.23	86-147	1-2	0.01-0.02	0.2-0.4

The potential quantity and grade of the Exploration Target is conceptual in nature and, as such, there has been insufficient exploration drilling conducted to estimate a Mineral Resource. At this stage it is uncertain if further exploration drilling will result in the estimation of a Mineral Resource. The Exploration Target has been prepared in accordance with the JORC Code (2012).

It is Flagship's opinion that all the elements included in the metal equivalents calculation have a reasonable potential to be recovered and sold.

1. See map references in 'Important Information' below.
2. The above JORC (2012) Exploration Target was first reported in the Company's ASX announcement dated 18 June 2026 and titled "*Whipsaw Acquisition - Large Scale Copper Project, Canada*".

IMPORTANT INFORMATION

Forward Looking Statements

Various statements in this document constitute statements relating to intentions, future acts and events which are generally classified as “forward looking statements”. These forward looking statements are not guarantees or predictions of future performance and involve known and unknown risks, uncertainties and other important factors (many of which are beyond the Company’s control) that could cause those future acts, events and circumstances to differ materially from what is presented or implicitly portrayed in this document. For example, future reserves or resources or exploration targets described in this document may be based, in part, on market prices that may vary significantly from current levels. These variations may materially affect the timing or feasibility of particular developments. Words such as “anticipates”, “expects”, “intends”, “plans”, “believes”, “seeks”, “estimates”, “potential” and similar expressions are intended to identify forward-looking statements. Flagship Minerals Limited cautions security holders and prospective security holders to not place undue reliance on these forward-looking statements, which reflect the view of Flagship Minerals Limited only as of the date of this document. The forward-looking statements made in this document relate only to events as of the date on which the statements are made. Except as required by applicable regulations or by law, Flagship Minerals Limited does not undertake any obligation to publicly update or review any forward-looking statements, whether as a result of new information or future events. Past performance cannot be relied on as a guide to future performance.

Compliance Statement

With reference to previously reported Exploration results, Exploration Targets and Mineral Resources, the Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcement and, in the case of estimates of Mineral Resources, that all material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed. The company confirms that the form and context in which the Competent Person’s findings are presented have not been materially modified from the original market announcement.

Competent Persons Statement – Isidora Norte Mineral Resource Estimate

The information in this announcement that relates to the Mineral Resource Estimate for the Isidora Norte Project is based on, and fairly represents, information compiled by Mr Luis Rodrigo Peralta FAusIMM (CP) Geo, a Competent Person who is an employee of INSA Consultora on behalf of Bmining Chile. INSA Consultora has acted as an independent consultant to Flagship Minerals Limited in relation to the Isidora Norte Mineral Resource Estimate. Mr Peralta is a Fellow and Chartered Professional of the Australasian Institute of Mining and Metallurgy (AusIMM) and has sufficient experience relevant to the style of mineralisation, type of deposit under consideration and the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (JORC Code). Mr Peralta consents to the inclusion in this announcement of the matters based on his information in the form and context in which it appears.

I, Armando Simon Mendez, confirm that I am a Competent Person for the Report and: I have read and understood the requirements of the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (JORC Code, 2012 Edition); I am a Competent Person as identified by the JORC Code (2012 Edition), having more than five years’ experience that is relevant to the style of mineralization and type of deposit described in the Report and to the activity for which I am accepting responsibility. I am a Registered Professional Geoscientist of the Australian Institute of Geoscientists. I have reviewed the Report to which this Consent Statement applies. I have disclosed to the reporting company the full nature of the relationship between myself and the company, including any issue that could be perceived by investors as a conflict of interest. I verify that the Report is based on and fairly accurately reflects in the form and context on which it appears, the information in my supporting documentation relating to Mineral Resources.

Competent Persons Statement – Whipsaw Exploration Target

The information in this report that relates to the Exploration Target is based on information reviewed and interpreted by Mr Andrew Dawes, who is a Member of the Australasian Institute of Mining and Metallurgy and a Member of the Australian Institute of Geoscientists (RPGEO). Mr Andrew Dawes is employed by AHD Resources and consults to Flagship Minerals Limited. Mr Andrew Dawes has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the ‘Australasian Code for Reporting of Mineral Resources. Mr Andrew Dawes consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

JORC 2012 Clause 50 – Whipsaw Exploration Target

The Whipsaw Exploration Target has been developed from a geological model constructed in Leapfrog (2025.3) using drilling, surface geochemistry, geophysical datasets and mapped geology. The base-case model was populated using a CuEq calculation incorporating copper, molybdenum, gold and silver, with metal prices of US\$6/lb Cu, US\$40/lb Mo, US\$4,500/oz Au and US\$75/oz Ag. Recoveries of

85% Cu, 80% Mo, 70% Au and 65% Ag were applied, with no smelter terms or payabilities included. Molybdenum was treated as Mo metal. The CuEq formula normalises all metal contributions back to copper value and was applied consistently across the block model. The resulting base-case tonnage and grade estimates form the foundation of the Exploration Target ranges. The CuEq calculation used is:
$$\text{CuEq} = \left[\left(\frac{\text{Cu_ppm}}{10,000} \times 22.0462 \times \text{Cu_price} \times \text{Cu_recovery} \right) + \left(\frac{\text{Mo_ppm}}{10,000} \times 22.0462 \times \text{Mo_price} \times \text{Mo_recovery} \right) + \left(\frac{\text{Au_ppm}}{31.1035} \times \text{Au_price} \times \text{Au_recovery} \right) + \left(\frac{\text{Ag_ppm}}{31.1035} \times \text{Ag_price} \times \text{Ag_recovery} \right) \right] \div (22.0462 \times \text{Cu_price} \times \text{Cu_recovery})$$

Competent Persons Statement – Exploration

The information in this report that relates to Exploration Results, is based on information compiled by Mr. David Hobby, is a Member of the Australasian Institute of Mining and Metallurgy. Mr. Hobby is a full time employee, Director and Shareholder of Flagship Minerals Limited. Mr. Hobby has sufficient experience, relevant to the style of mineralisation and type of deposit under consideration and to the activity that he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (JORC Code). Mr. Hobby consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

Important

To the extent permitted by law, Flagship Minerals Limited and its officers, employees, related bodies corporate and agents (Agents) disclaim all liability, direct, indirect or consequential (and whether or not arising out of the negligence, default or lack of care of Flagship Minerals Limited and/or any of its Agents) for any loss or damage suffered by a Recipient or other persons arising out of, or in connection with, any use or reliance on this document or information.
