MAGMATIC RESOURCES

FOUR ADVANCED **GOLD & COPPER PROJECTS** ACROSS AUSTRALIA'S TWO MAJOR GOLD REGIONS

INVESTOR PRESENTATION **Noosa Mining Conference 2026**

Disclaimer

Important Information

This is not a disclosure document. Any material used in this presentation is a summary of selected data, and any investor in the Company should refer to all Company ASX releases and statutory reports before considering to invest in the Company.

Any forward-looking information in this presentation has been prepared on the basis of a number of assumptions that may proven to be correct. Neither the Company, nor its officers, employees and advisors make or give any representation, warranty or guarantee in relation to this presentation.

The Company reserves the right to update, amend or supplement the Information in this presentation at any time in its absolute discretion without incurring any obligation to do so.

Forward-looking information is subject to known and unknown risks, uncertainties and other factors that may cause actual results to be materially different from those expressed or implied by such forward-looking information, including risks associated with investments in private and publicly listed companies such as the Company; risks associated with general economic conditions; the risk that further funding may be required but unavailable for the ongoing development of the Company's projects or future acquisitions; changes in government regulations, policies or legislation; unforeseen expenses; fluctuations in commodity prices; fluctuation in exchange rates; litigation risk; restrictions on the repatriation of earnings by the Company's subsidiaries; the inherent risks and dangers of mining exploration and operations in general; risk of continued negative operating cashflow; the possibility that required permits may not be obtained; environmental risks; uncertainty in the estimation of mineral resources and mineral reserves; general risks associated with the feasibility and development of each of the Company's projects; foreign investment risks in Australia; changes in laws or regulations; future actions by government; breach of any of the contracts through which the Company holds property rights; defects in or challenges to the Company's property interests; uninsured hazards; disruptions to the Company's supplies or service providers; reliance on key personnel and retention of key employees.

Forward-looking information is based on the reasonable assumptions, estimates, analysis and opinions of management of the Company made in light of their experience and their perception of trends, current conditions and expected developments, as well as other factors that management believes to be relevant and reasonable in the circumstances at the date that such statements are made, but which may prove to be incorrect. The Company believes that the assumptions and expectations reflected in such forward-looking information are reasonable.

Assumptions have been made regarding, among other things: the Company's ability to carry on its future exploration, development and production activities, the timely receipt of required approvals, the price of gold, copper and base metals, the ability of the Company to operate in a safe, efficient and effective manner and the ability of the Company to obtain financing as and when required and on reasonable terms. Readers are cautioned that the foregoing list is not exhaustive of all factors and assumptions which may have been used.

Although the Company has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking information, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that such information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such information. Accordingly, readers should not place undue reliance on forward-looking information. The Company does not undertake to update any forward-looking information, except in accordance with applicable securities laws.

NO LIABILITY/SUMMARY INFORMATION

The Company has prepared the Presentation Materials based on information available to it at the time of preparation. No representation or warranty, express or implied, is made as to the fairness, accuracy or completeness of the information, opinions and conclusions contained in the Presentation Materials. To the maximum extent permitted by law, the Company, its related bodies corporate (as that term is defined in the Corporations Act 2001 (Commonwealth of Australia)) and the officers, directors, employees, advisers and agents of those entities do not accept any responsibility or liability including, without limitation, any liability arising from fault or negligence on the part of any person, for any loss arising from the use of the Presentation Materials or its contents or otherwise arising in connection with it.

Exploration results detailed in this presentation have previously been reported to the ASX or in the independent geologist report contained in the Prospectus lodged on 18 May 2017. References to metal endowments are current to January 2017. Endowment = current resource plus production. Coordinate system on maps is MGA94 Zone 55 unless otherwise stated.

COMPETENT PERSONS STATEMENT

Compilation of exploration and drilling data, along with assay validation and geological interpretations was coordinated by Steven Oxenburgh, BSc, MSc, MAusIMM CP, MAIG, who is Exploration Manager and a full-time employee of Magmatic Resources Limited. Mr Oxenburgh has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr Oxenburgh consents to the inclusion in this release of the matters based on his information in the form and context in which it appears. Additionally, Mr Oxenburgh confirms that the entity is not aware of any new information or data that materially affects the information contained in the ASX releases referred to in this report.

Compilation of exploration and drilling data, along with assay validation and geological interpretations for the Myall Mineral Resource Estimate was coordinated by Adam McKinnon, BSc (Hons), PhD, MAusIMM, who was Managing Director and a full-time employee of Magmatic Resources Limited at the time of the Mineral Resource Estimate disclosure. Dr McKinnon has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Dr McKinnon consents to the inclusion in this release of the matters based on his information in the form and context in which it appears. Additionally, The Company confirms that the entity is not aware of any new information or data that materially affects the information contained in the ASX releases referred to in this report.

The information in this ASX release that relates to the Myall Mineral Resource Estimate is based on information compiled by Arnold van der Heyden, a Member and Chartered Professional (Geology) of the AusIMM. Mr van der Heyden is a full-time employee of H&S Consultants Pty Ltd. Mr van der Heyden has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr van der Heyden consents to the inclusion in this Announcement of the matters based on his information in the form and context in which it appears.

Compilation of exploration and drilling data related to the Company's Weebo Project, along with assay validation and geological interpretations was coordinated by Mr Andrew Viner, BSc, MAusIMM, who is a Consultant to Magmatic Resources Limited. Mr Viner has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr Viner consents to the inclusion in this release of the matters based on his information in the form and context in which it appears. Additionally, Mr Viner confirms that the entity is not aware of any new information or data that materially affects the information contained in the ASX releases referred to in this announcement.

IMPORTANT NOTICE

This presentation does not constitute an offer to acquire or sell or a solicitation of an offer to sell or purchase any securities in any jurisdiction. In particular, this presentation does not constitute an offer, solicitation or sale to any U.S. person or in the United States or any state or jurisdiction in which such an offer, tender offer, solicitation or sale would be unlawful. The securities referred to herein have not been and will not be registered under the United States Securities Act of 1933, as amended (the "Securities Act"), and neither such securities nor any interest or participation therein may not be offered, or sold, pledged or otherwise transferred, directly or indirectly, in the United States or to any U.S. person absent registration or an available exemption from, or a transaction not subject to, registration under the United States Securities Act of 1933.

ADVANCED EXPLORATION PORTFOLIO

Active drilling programs in two world-class gold and copper mining regions

MAGMATIC RESOURCES

Goldfields, Western Australia

Magmatic Resources projects

- **Weebo Gold Project (100%)** – 270km^2, Phase 3 drilling complete

Major gold mines within 30km

- Bellevue Gold – **Bellevue >3.2Moz Au and 0.8Moz past production**
- Northern Star Resources – **Bronzewing 3Moz Au past production**,
- Northern Star Resources - **Thunderbox 1.1Moz Au and 1.5Moz Au past production**
- Gold Fields – **Agnew-Lawlers 1.5Moz Au and >5Moz Au past production**
- Vault Minerals – **Darlot 1.9Moz Au and 2Moz Au past production**

Lachlan Fold Belt, New South Wales

Magmatic Resources projects

- Myall Cu-Au – **Farm-in and JV project with FMG Resources**
- Wellington North Au-Cu (100%)
- Parkes Au-Cu (100%)

Major regional operations

- Alkane Resources – Boda/Kaiser **14.7Moz AuEq**, Tomingley **2.3Moz Au**
- Evolution Mining – **Cowal 13Moz Au**
- Evolution Mining/Sumitomo JV – Northparkes **4.4Mt Cu & 5.2Moz Au**
- Newmont Mining – **Cadia 51Moz Au & 9.9Mt Cu**

CONTINUOUS DRILLING AND ASSAY RESULTS ACROSS BOTH REGIONS THROUGH 2026

WEEBO GOLD PROJECT

In the heart of Western Australia's Goldfields

MAGMATIC RESOURCES

270km²
tenement package – 9 granted, 5 under application

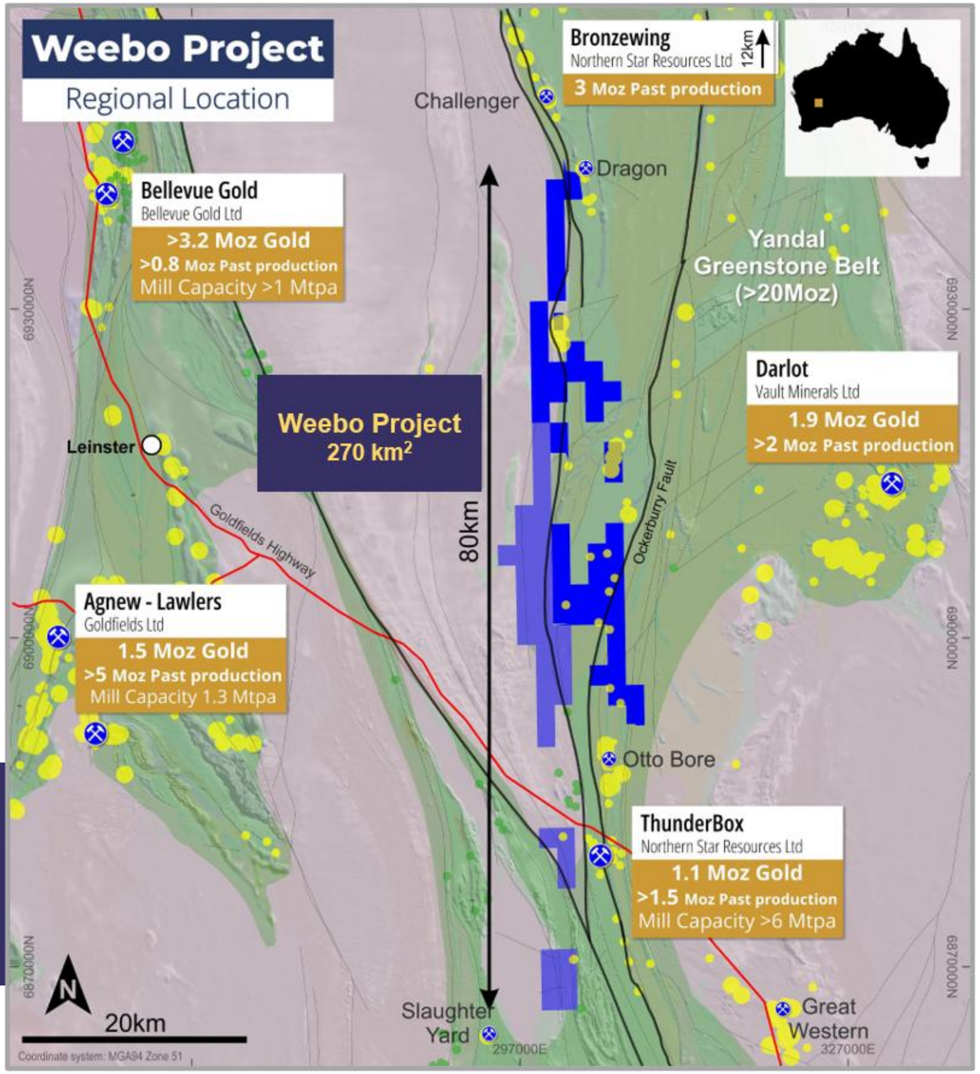
24Moz
regional gold endowment within 30km[1]

5
major producing gold mines within 30km

50km
of strike trending north from Thunderbox Gold Mine

June 2025
Weebo acquired, 5 AC/RC drill programs already delivered

30km
from the mining town of Leinster



THREE PHASES OF DRILLING COMPLETED SINCE MAG'S WEEBO ACQUISITION IN JUNE 2025

[1]ASX Announcement 16 June 2025

WEEBO GOLD PROJECT

Growing pipeline of drill targets in Western Australia's Goldfields

MAGMATIC RESOURCES

ADVANCED TARGETS – AC/RC DEFINED[1]

Ockerburry

5km trend, **4 targets**; shallow gold confirmed by historic and MAG drilling

Scone Stone

800m trend; high-grade porphyry-hosted structures confirmed

Otto

Significant intercepts along major regional structure; extensions targeted

3 drill programs completed across advanced targets

EARLY-STAGE TARGETS – BEING ADVANCED

Scholls Find

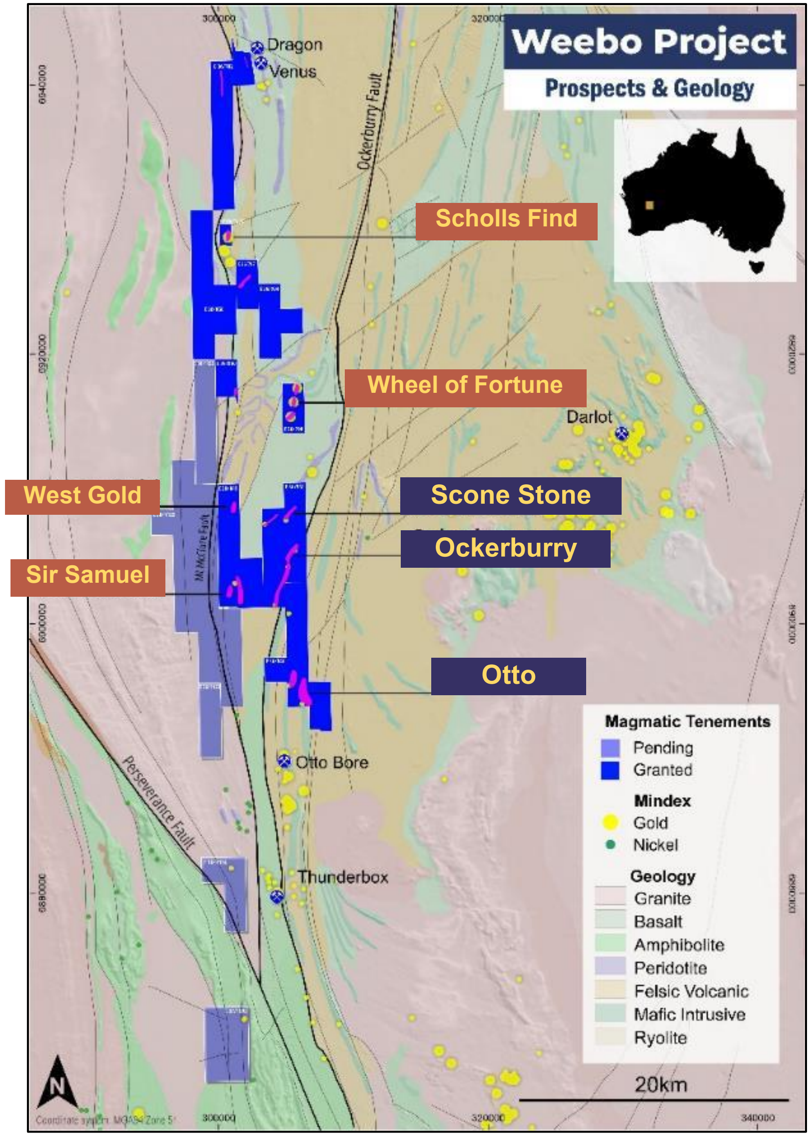
Shallow AC gold anomaly and historic workings to be drill tested at depth

Wheel of Fortune

AC drilling extending surface gold anomalies near historic workings

West Gold + Sir Samuel

AC drilling delineating **multiple mineralised structures**



[1] ASX Announcements listed in rear of document

WEEBO - ADVANCED TARGETS

Three advanced prospects along a broader gold corridor

Ockerburry – 5km trend, four prospects

Shallow gold across Ockerburry 1-4, latest RC intercepts demonstrating continuity at depth:

- 4m @ 29.9g/t Au from 8m · 2m @ 18.4g/t Au from 8m · 16m @ 2.8g/t Au from 52m[1]
- 12m @ 5.13 g/t Au from 66m[2]
- **8m @ 1.52g/t Au** from 144m (OKRC020)[3]

Scone Stone – 800m strike, porphyry-hosted

High-grade structures within quartz-feldspar porphyry along full strike

- 3m @ 15.6g/t Au from 69m · 9m @ 4.6g/t Au from 64m · 6m @ 4.4g/t Au from 54m[1]
- 10m @ 2.55 g/t Au from 57m incl 5m @ 5.24 g/t Au from 57m[2]
- **6m @ 3.4g/t Au** from 54m; including **1m @ 13.9g/t Au** from 58m (SCRC018)[3]

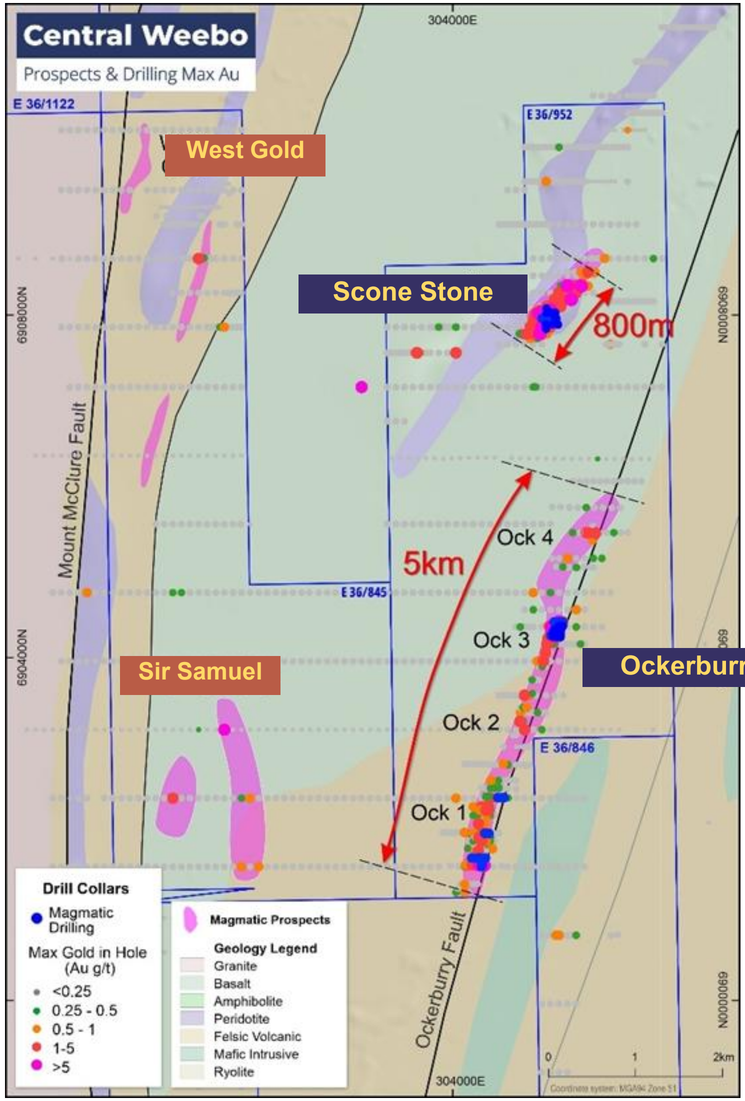
Otto – Gold bearing lodes beneath Permian glacial cover at Otto 2, under explored and open along strike and at depth:

- **6m @ 1.96g/t Au** from 137m; including **4m @ 2.74g/t Au** from 139m (OTRC001)[3]
- **3m @ 3.67g/t Au** from 180m; including **2m @ 4.92g/t Au** from 180m (OTRC001)[3]

West Gold and Wheel of Fortune recent AC drilling

Recent AC drilling delineated regional scale gold bearing regional scale structures

Next steps: Drilling at depth into bed-rock under broad supergene



[1] ASX MM1 3 Sept 2021 and 22 Dec 2021 | [2] ASX MAG 13 Oct 2025 | [3]ASX MAG 22 Jul 2026

EAST LACHLAN – A World-Class Gold-Copper Province

Home to Australia's second-largest gold mine – all deposits within region's volcanic belts

85Moz Au
regional gold endowment[1]

>14Mt Cu
Regional copper endowment[1]

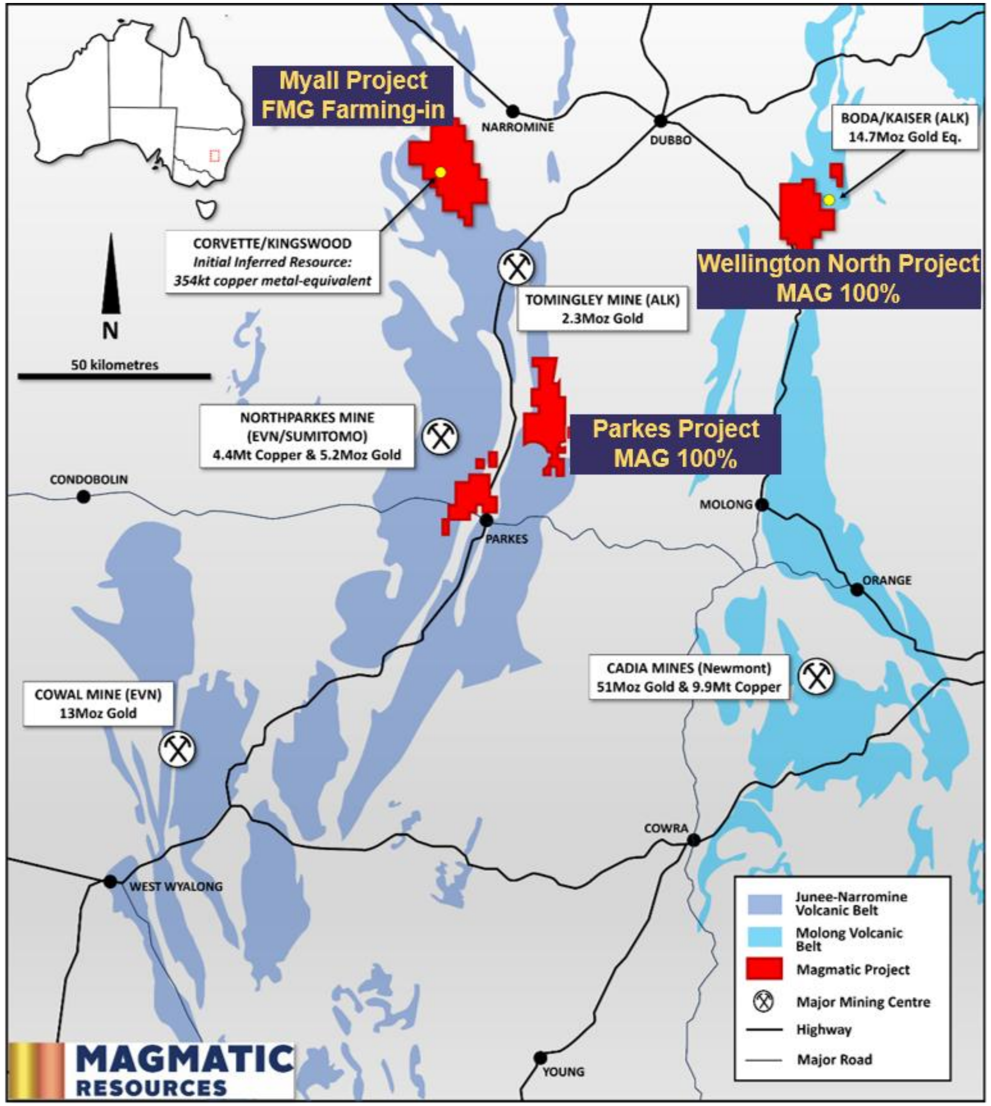
Major operations in province

- **Cadia Valley Mines** (Newmont) – cluster of five Au-Cu porphyry deposits
- **Northparkes Mines** (Evolution/Sumitomo) – 22 Cu-Au porphyry deposits
- **Cowal Gold Mine / Corridor** (Evolution) – epithermal Au and porphyry cluster
- **Tomingley Gold Mine / Corridor** (Alkane) – orogenic Au[2]

THREE ADVANCED COPPER-GOLD PROJECTS

- Myall Farm-in & Joint Venture Project with FMG Resources
- Wellington North Project
- Parkes Project

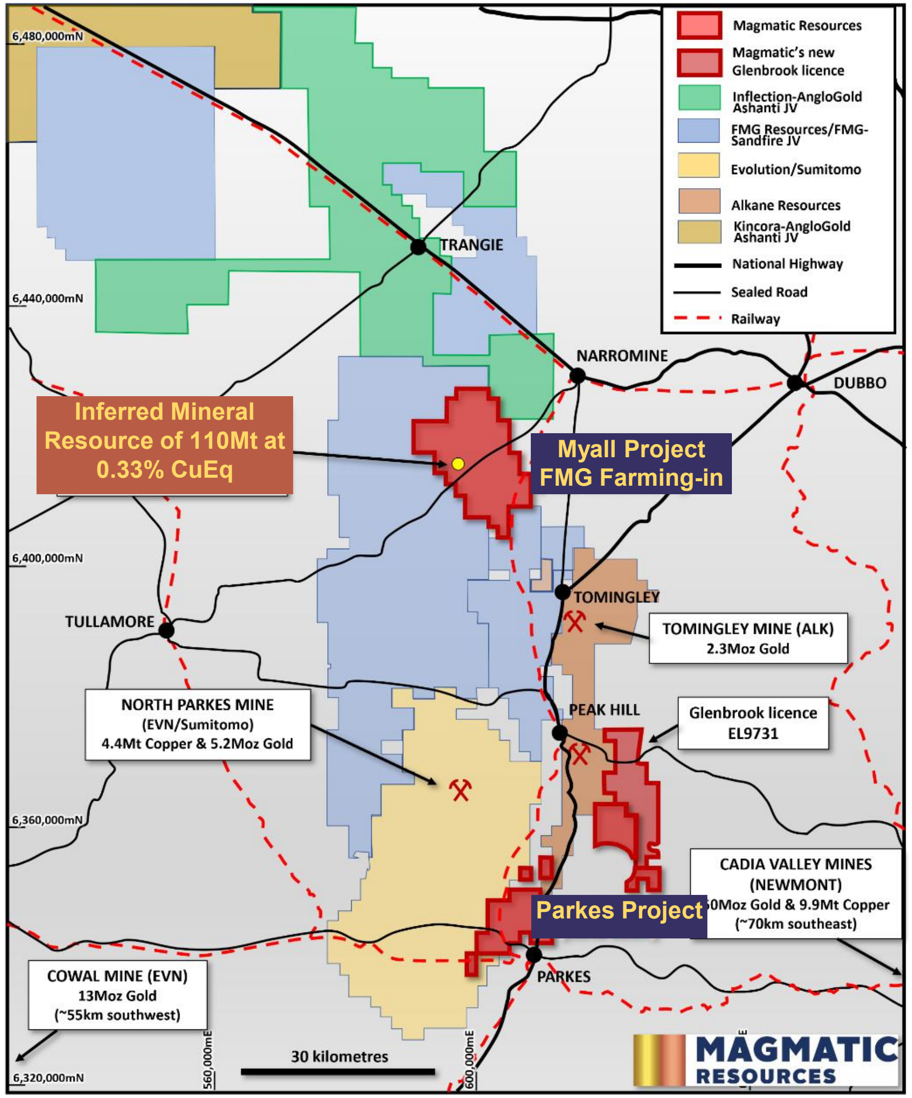
[1] Metal endowment from Phillips 2017, CMOC 2023, Evolution 2023. Myall Initial Inferred Resource details in ASX MAG 11 July 2023 | [2] ASX ALK 29 April 2023



MYALL PROJECT

Targeting a Tier 1 copper-gold discovery

- **FMG is MAG's largest shareholder with 19.9%**
- **$14M Farm-In agreement signed with FMG Resources Pty Ltd** (100% subsidiary of Fortescue Ltd (ASX: FMG))
- **Initial Inferred Mineral Resource**[1] of 110Mt at 0.33% CuEq **(354kt Cu metal eq.)** for the **Corvette and Kingswood deposits containing :**
  - **293kt Cu**
  - **237koz Au**
  - **2.8Moz Ag**
- **Corvette and Kingswood** drilling[2] returned very wide intersections including:
  - **111.0m at 0.66% CuEq**
  - **154.6m at 0.55% CuEq**
  - **241.0m at 0.55% CuEq**



Location of Magmatic's Myall and Parkes Projects showing selected tenement holdings from other major explorers in the region, along with road and rail infrastructure and major towns (see ASX MAG 11 July 2023 for full Corvette/Kingswood Resource details)

[1] ASX MAG 11 Jul 2023 | [2] ASX MAG 30 May 2023

MYALL PROJECT

Northparkes copper-gold district lookalike

NORTHPARKES MINE

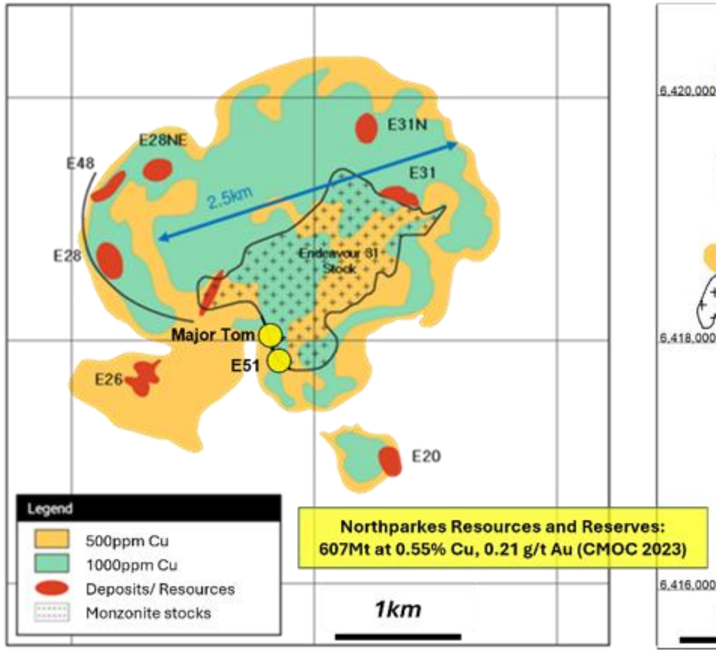
- **607Mt @ 0.55% Cu, 0.21g/t Au** Resources and Reserves[1]
- 22 porphyry systems discovered[2]
- Operating continuously for ~30 years

MYALL FJVA PROJECT

- **110Mt @ 0.33% CuEq initial Inferred MRE containing 293kt Cu, 237koz Au & 2.8Moz Ag[3]**
- Multiple wide intercepts at grades comparable to Northparkes' Resource grade
- Potential for a cluster of deposits

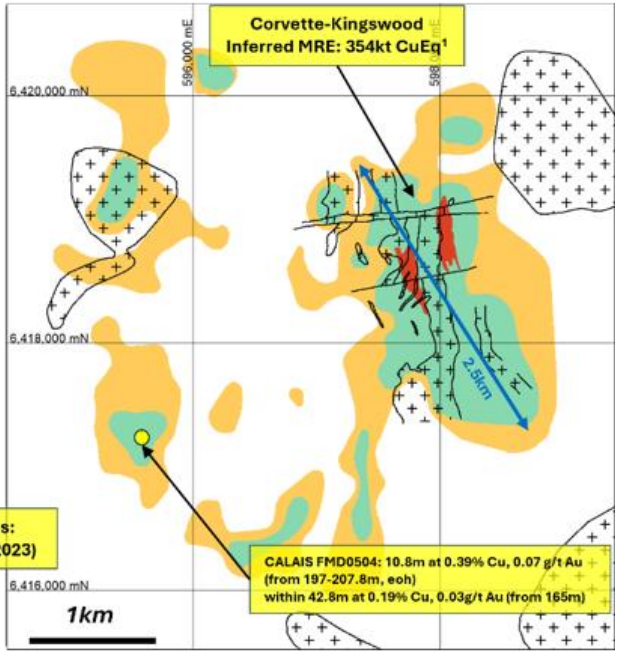
NORTHPARKES MINE

Cluster of multiple Cu-Au deposits



MAG MYALL FJVA PROJECT

Potential for Cu-Au porphyry clusters



Note: Northparkes copper outline and deposit location are both from Owens et al, in Phillips 2017 and Heithersay P S and Walshe J L, 1995.

[1]Metal endowment from Phillips 2017, CMOC 2023, Evolution 2023 | [2]Hoye | [3]Myall Initial Inferred Resource details in ASX MAG 11 July 2023.

MYALL PROJECT

Drilling advances under FY26 $3.9m exploration budget

FY26 EXPLORATION PROGRAM

- **FY26 exploration budget increased from $3.5m to $3.9m** by FJVA partner FMG Resources
- 16 diamond holes for 6,240.4m completed across seven prospects in the greater Corvette-Kingswood area

RESULTS TO DATE

- Assays received for November aircore program and first three diamond holes
- Interceptor results **extend Corvette-Kingswood mineralised system 1km to the south**
- **Assay results for the remaining 13 DD holes and 17 hole March Aircore program outstanding**
- **Assay results pending for the remaining diamond holes**

FY27 exploration budget planning underway

Note: Northparkes copper outline and deposit location are both from Owens et al, in Phillips 2017 and Heithersay P S and Walshe J L, 1995.

WELLINGTON NORTH PROJECT

Advanced target portfolio surrounding a major gold-copper discovery

STRATEGIC POSITION

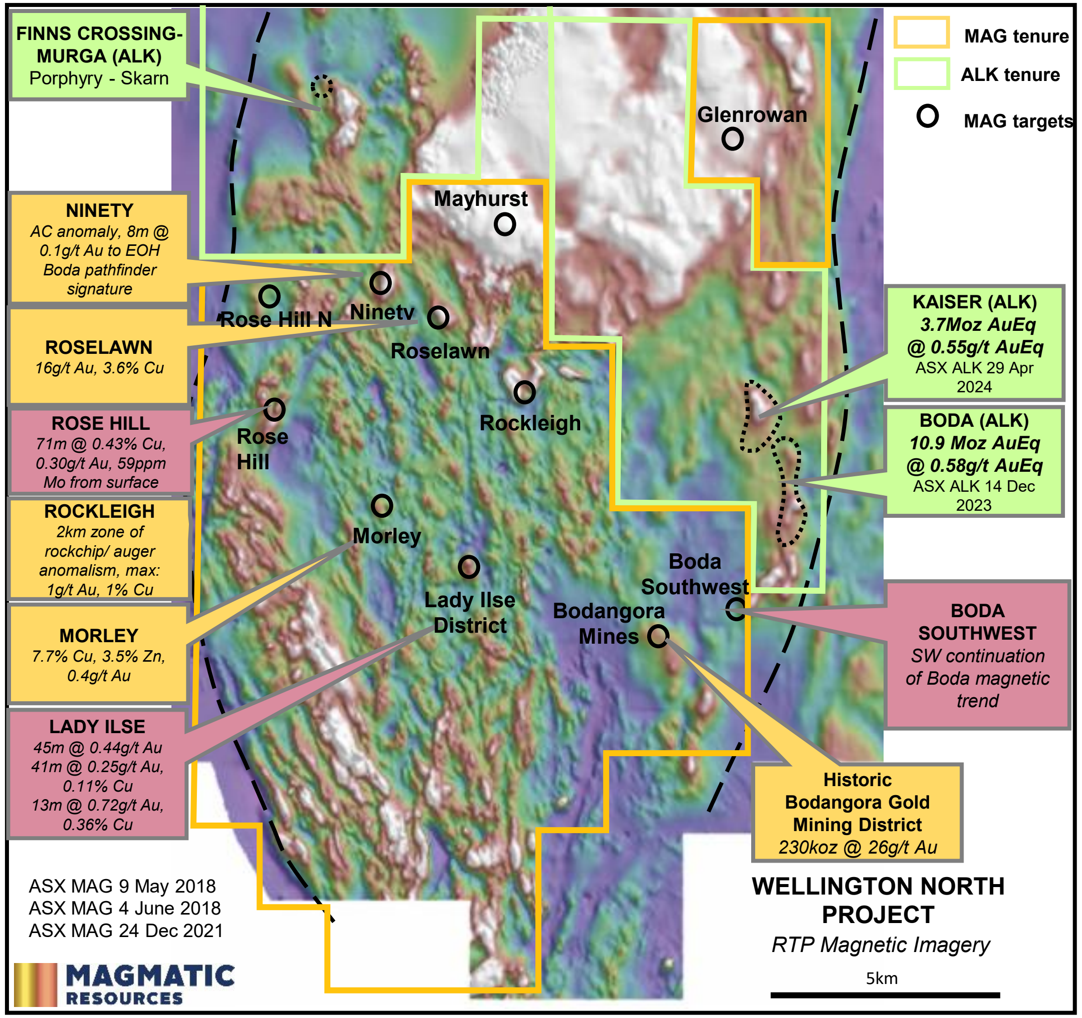
- **Dominant position surrounding Alkane's 14.7Moz AuEq Boda-Kaiser Project**[1] – scoping study completed July 2024[2]
- North of Cadia (Newmont), Australia's largest porphyry gold mine

ADVANCED TARGETS

- **Boda Southwest** – soils to 4.7g/t Au along the Boda trend[3] immediately adjacent to Alkane's Boda 4, where rock chips within 300m of the boundary returned 1.2% Cu, 12g/t Ag[4]
- **Rose Hill / Rose Hill North** – Intrusion-hosted Cu-Au porphyry, inc. 71m @ 0.43% Cu, 0.30g/t Au, 57ppm Mo from surface[5]
- **Bodangora Mines** – historical production of **230koz @ 26g/t Au**, recent diamond drilling[3]

Boda Southwest represents the continuation of the magnetic signature associated with the Boda/Kaiser Mineral Resources

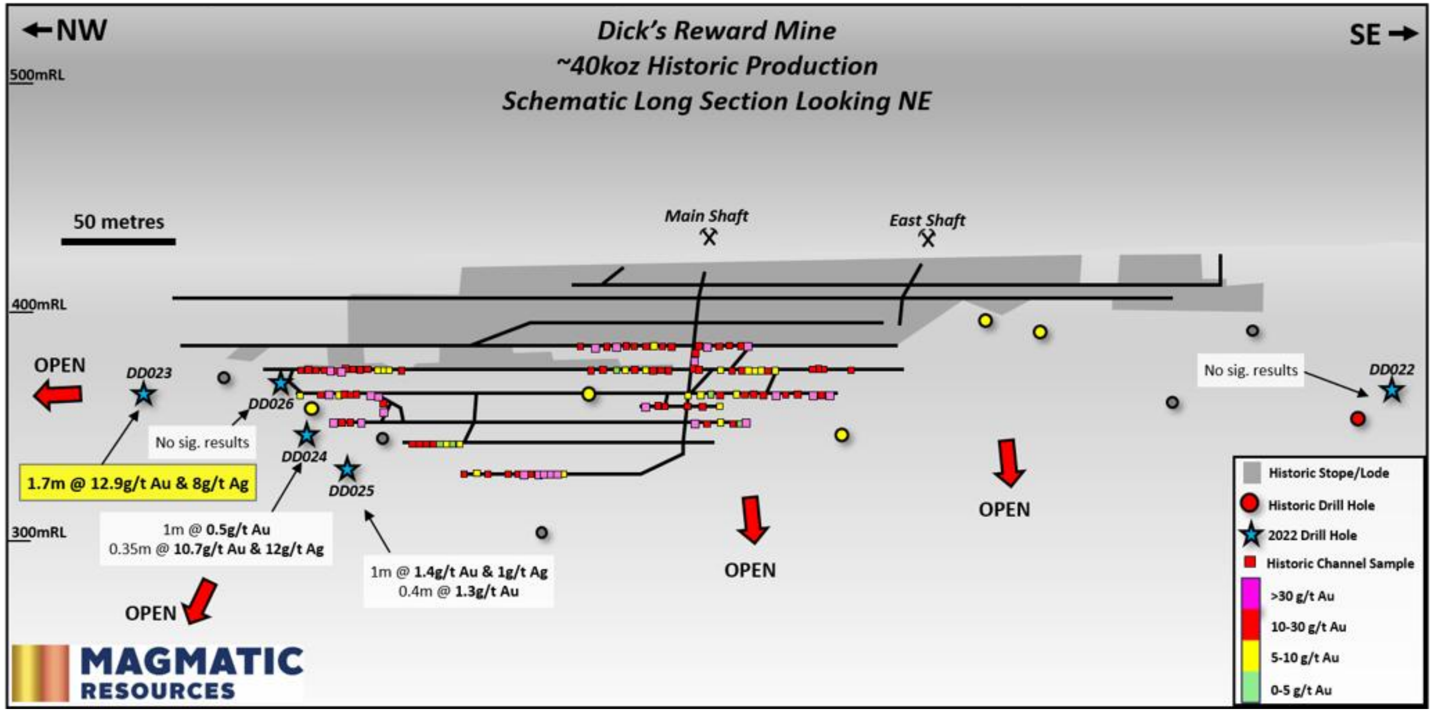
[1] ASX ALK 25 Nov 2025 | [2] ASX ALK 10 Jul 2024 | [3] ASX MAG 17 May 2017, 25 Mar 2022 | [4] ASX MAG 20 Jan 2025 | [5] ASX MAG 17 May 2017



BODANGORA GOLD TARGET

Planned exploration 3rd Qtr 2026

- Review of historic high-grade Bodangora goldfield underway which has interpreted at least 2.5km strike of mineralised structure
- **Two historic gold mines, Mitchells Creek and Dicks Reward, produced 230 koz Au at 26 g/t Au** and cover a **combined 1,800m of strike, with deepest development to 200m below surface**
- Limited exploration by Magmatic during 2021-22 years tested locally to depths of 220m below surface at Mitchells, and 100m below surface at Dicks
- Down plunge and along strike targets remain open
- Previous intersections by Magmatic **of 1.7m at 12.9 g/t Au at Dicks Reward not followed up** (22BNDD023, from 65.5m, ASX MAG 8 July 2022, see image).
- **Along strike, ~1km of trend is inadequately explored.**
- Targets being defined with refinement of 3-D structural model



PARKES PROJECT

Gold and copper-gold targets within the Parkes Fault Zone

STRATEGIC POSITION

- **30km along strike** from Alkane's Tomingley Gold Operations and Tomingley South discoveries – **2.3Moz Au**[1]
- **Glenbrook licence extends ground position to 15km south of Tomingley South** within the Parkes Fault Zone – orogenic gold targets
- Alkane reported high-grade underground results at Caloma and Roswell, immediately north of MAG's licences[2]

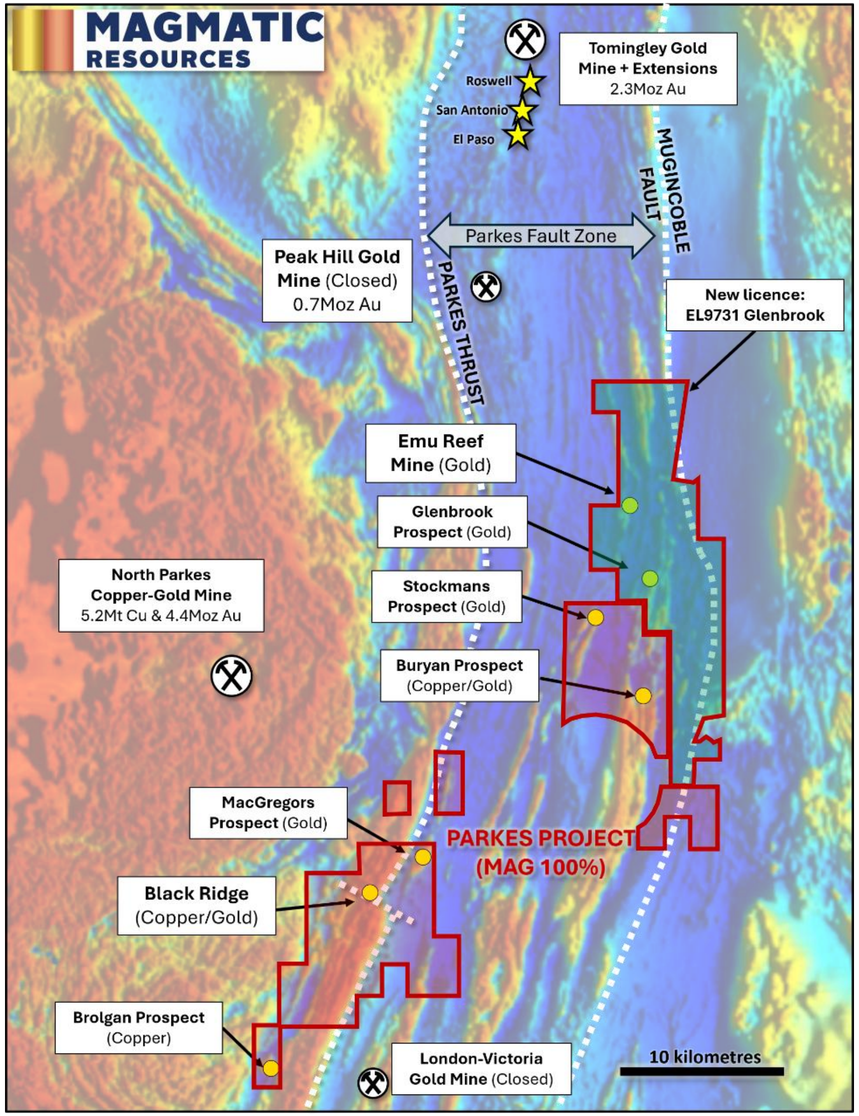
SHALLOW GOLD RESULTS[3]

McGregors 16m @ 1.22g/t Au from 13m · 18m @ 0.72g/t Au from 33m

Stockmans 22m @ 0.79g/t Au from 45m · 12m @ 1.42g/t Au from 7m

GOVERNMENT CO-FUNDING

$141k NSW Government grant secured under the Critical Minerals and High-Tech Metals Exploration Program for Blackridge Cu-Au prospect drilling



Plan of Magmatic's 100%-owned Parkes Project over aeromagnetic imagery (TMI), showing major prospects and nearby mines

BOARD OF DIRECTORS

Discovery focused team with a strong track record

David Berrie
Non-Executive Chairman

With a track record of building companies by focusing on exploration success, David was part of the Board/Management team which led to the A$1.2b hostile takeover of Summit Resources by Paladin Energy, and the friendly takeover of Fusion Resources. David has 30+ years' mining experience including executive roles with Western Mining and BHP.

David Richardson
Managing Director

David has 30+ years' international experience in corporate strategy, international project development, strategic partnering and finance, including 15 years in Asia with companies including Pacific Dunlop and Amcor. Most recently, he spent 10 years in venture capital in Japan and Australia before founding Magmatic in 2014.

Malcolm Norris
Non-Executive Director

A senior mining industry professional with extensive experience in business management, asset transactions and exploration, with a focus on porphyry copper-gold discovery. Malcolm has been involved in world class discoveries including Tujuh Bukit, Indonesia and Cascabel, Ecuador. Recently, he led the Sunstone Metals discoveries at Bramaderos and El Palmar in Ecuador..

Christine Nicolau
Non-Executive Director

Christine is Group Manager Corporate Portfolio Management at Fortescue, driving governance, management and administration of Fortescue's interests via directorships across Fortescue internal and external; strategic growth subsidiaries spanning energy and metals. Christine has been with Fortescue since 2010 holding a variety of roles including Metals General Manager LATAM and Manager Corporate Development.

Craig Feebrey
Chief Technical Officer

Craig is a highly experienced geologist and mining executive with over 30 years' global exploration experience. Most recently, Craig served as Executive Vice President and Chief Exploration Officer at OceanaGold Corporation, where he spent 10 years leading all aspects of global exploration. Prior to this, Craig was Gold Fields' Australasia Vice President Exploration, covering the NSW projects that now form part of Magmatic's asset base.

INVESTMENT PROPOSITION

Poised for major copper and gold discoveries

Located in Two World-Class Mining Regions

Advanced exploration projects in WA Goldfields and East Lachlan, NSW

Tier 1 Cu-Au Discovery Potential

Exploration upside at Weebo (Au), Myall (Cu/Au) and Wellington North (Au/Cu)

Strategic Partnership with FMG Resources

Cornerstone investor and $14m Farm-in and JV at Myall Project

Leveraged to Gold & Copper Prices

Continuous drilling and assay results through 2026 with strong metal prices
