ASX Release 22 July 2026

Spenda FY26 R&D Estimate to Exceed $1.75M

Spenda Limited (ASX: SPX) (“Spenda” or the Company”) is pleased to advise that it has received confirmation that its estimated FY26 R&D tax offset will exceed $1,750,000.

The figure is a preliminary unaudited estimate and remains subject to completion and lodgement of the FY26 R&D Tax Incentive registration and the Company’s Income Tax Returns.

Niv Dagan, Non-Executive Chairman commented: “over the past few months, we have been working to push the business to a cash-flow neutral position. We have made significant progress to reduce operational burn, increase our merchant fees, progress discussions on divesting our non-core assets and strengthen the group’s cash position. Given that the Company’s market capitalisation is only ~$4M AUD, the expected $1.75M cash injection in late September/early October, will further strengthen the balance sheet.”

This announcement has been authorised by the Board of Directors.
