Summary

This presentation has been prepared by RocketDNA Limited. ("RocketDNA" or the "Company") based on information available to it as at the date of this presentation. The information in this presentation is provided in summary form and does not contain all information necessary to make an investment decision.

This presentation does not constitute an offer, invitation, solicitation or recommendation with respect to the purchase or sale of any security in RocketDNA, nor does it constitute financial product advice or take into account any individual's investment objectives, taxation situation, financial situation or needs. An investor must not act on the basis of any matter contained in this presentation but must make its own assessment of RocketDNA and conduct its own investigations. Before making an investment decision, investors should consider the appropriateness of the information having regard to their own objectives, financial situation and needs, and seek legal, taxation and financial advice appropriate to their jurisdiction and circumstances. RocketDNA is not licensed to provide financial product advice in respect of its securities or any other financial products. Cooling off rights do not apply to the acquisition of RocketDNA securities.

Although reasonable care has been taken to ensure that the facts stated in this presentation are accurate and that the opinions expressed are fair and reasonable, no representation or warranty, express or implied, is made as to the fairness, accuracy, completeness or correctness of the information, opinions and conclusions contained in this presentation. To the maximum extent permitted by law, none of RocketDNA its officers, directors, employees and agents, nor any other person, accepts any responsibility and liability for the content of this presentation including, without limitation, any liability arising from fault or negligence, for any loss arising from the use of or reliance on any of the information contained in this presentation or otherwise arising in connection with it.

The information presented in this presentation is subject to change without notice and RocketDNA does not have any responsibility or obligation to inform you of any matter arising or coming to their notice, after the date of this presentation, which may affect any matter referred to in this presentation. The distribution of this presentation may be restricted by law and you should observe any such restrictions.

This presentation contains certain forward looking statements that are based on the Company's management's beliefs, assumptions and expectations and on information currently available to management. Such forward looking statements involve known and unknown risks, uncertainties, and other factors which may cause the actual results or performance of RocketDNA to be materially different from the results or performance expressed or implied by such forward looking statements. Such forward looking statements are based on numerous assumptions regarding the Company's present and future business strategies and the political and economic environment in which RocketDNA will operate in the future, which are subject to change without notice. Past performance is not necessarily a guide to future performance and no representation or warranty is made as to the likelihood of achievement or reasonableness of any forward looking statements or other forecast. To the full extent permitted by law, RocketDNA and its directors, officers, employees, advisers, agents and intermediaries disclaim any obligation or undertaking to release any updates or revisions to information to reflect any change in any of the information contained in this presentation (including, but not limited to, any assumptions or expectations set out in the presentation).

Not Financial or Product Advice

This presentation is for information purposes only and is not a prospectus, product disclosure statement or other offer document under Australian law or the law of any other jurisdiction. This document is not a financial product or investment advice, or a recommendation to acquire securities in RocketDNA Limited, nor is it legal or tax advice. You are solely responsible for seeking independent and professional advice in relation to the information contained in this presentation and any action taken on the basis of that information. Before making an investment decision, prospective investors should consider the appropriateness of the information having regard to their own objectives, financial and tax situation and needs and seek legal and taxation advice appropriate to their jurisdiction.

Financial Data

All dollar values are in Australian dollars (A\$) unless stated otherwise.

Past performance

Past performance information given in this presentation is given for illustrative purposes only and should not be relied upon as (and is not) an indication of future performance. The historical information in this presentation is, or is based upon, information that has been released to the Australian Securities Exchange (ASX). This presentation should be read in conjunction with RocketDNA Limited's other periodic and continuous disclosure announcements which are available at www.asx.com.au.

Future performance

The presentation includes forward-looking statements regarding future events and the future financial performance of RocketDNA Limited. Forward looking words such as "expect", "should", "could", "may", "predict", "plan", "will", "believe", "forecast", "estimate", "target" or other similar expressions are intended to identify forward-looking statements. Any forward looking statements included in this document involve subjective judgment and analysis and are subject to significant uncertainties, risks and contingencies, many of which are outside the control of, and are unknown to, RocketDNA Limited and its officers, employees, agents or associates. In particular, factors such as variable climatic conditions and regulatory decisions and processes may affect the future operating and financial performance of RocketDNA Limited. This may cause actual results to be materially different from any future results, performance or achievements expressed or implied by such statements. The Information also assumes the success of RocketDNA Limited's business strategies. The success of the strategies is subject to uncertainties and contingencies beyond control, and no assurance can be given that the anticipated benefits from the strategies will be realised in the periods for which forecasts have been prepared or otherwise. Given these uncertainties, you are cautioned to not place undue reliance on any such forward looking statements. RocketDNA Limited is providing this information as of the date of this presentation and does not assume any obligation to update any forward-looking statements contained in this document as a result of new information, future events or developments or otherwise.

No representation, warranty or assurance (express or implied) is given or made in relation to any forward-looking statement by any person (including the Company). In particular, no representation, warranty or assurance (express or implied) is given that the occurrence of the events expressed or implied in any forward-looking statements in this presentation will actually occur. Actual results, performance or achievement may vary materially from any projections and forward-looking statements and the assumptions on which those statements are based. The forward-looking statements in this presentation speak only as at the date of this presentation.

No Advertisement

This document does not constitute an advertisement for an offer or proposed offer of securities. It is not intended to induce any person to engage in, or refrain from engaging in, any transaction.

Disclaimer

Except as required by law, no representation or warranty, express or implied, is made as to the fairness, accuracy, completeness, reliability or correctness of the Information, opinions and conclusions, or as to the reasonableness of any assumption contained in this presentation. By receiving this presentation and to the extent permitted by law, you release RocketDNA Limited and its officers, employees, agents and associates from any liability (including, without limitation, in respect of direct, indirect or consequential loss or damage or loss or damage arising by negligence) arising as a result of the reliance by you or any other person on anything contained in or omitted from this presentation. To the maximum extent permitted by law, RocketDNA Limited and its respective advisers, affiliates, related bodies corporate, directors, officers, partners, employees and agents exclude and disclaim all liability, including without limitation for negligence or for any expenses, losses, damages or costs incurred by you as a result of your participation in or failure to participate in the Offer and the information in the presentation being inaccurate or incomplete in any way for any reason, whether by negligence or otherwise. To the maximum extent permitted by law, RocketDNA Limited and its advisers, affiliates, related bodies corporate, directors, officers, partners, employees and agents make no representation or warranty, express or implied, as to the currency, accuracy, reliability or completeness of information in this presentation.

Unless otherwise stated, all financial and operational data is sourced from RocketDNA ASX releases.

Company Snapshot

Deploying Autonomous Drones at Scale for Enterprise

- 1,235,075,487 ordinary shares outstanding at the date
- Shareholder loans, motor vehicle and equipment loans and lease liabilities
- Shareholder breakdown as at 21 July 2026
- Enterprise Value is based on the Cash and Debt positions at 30 June 2026 and Share price and no of shares at 21 July 2026

A Drone on-site should work like shared infrastructure

Installed Once. Accessible On-Demand. Useful across the entire organisation

Survey

Capture high-resolution terrain & structures

Mine Planning

Up-to-date topography for design & scheduling

Geology

Map exposures and track change over time

SkyLink® Schedule. Monitor. Automate.

Environmental

Monitor compliance and land conditions

Operations

Track progress, inventory and assets

Security

Site awareness and incident response

SiteTube® Live Data. Delivered.

360 Panoramas Orthomosaics Point Clouds Time Series

No pilot needed

Authorised teams can request flights without a drone licence

Available on demand

Flights can be scheduled or triggered when data is needed

Shared across departments

One installed system supports multiple workflows

» RocketDNA turns drones from specialist tools into **shared site infrastructure**

Drone Data is Trapped behind Manual Workflows

Legacy drone operations create delays, bottlenecks and under-used data across the site

» The shift from manual flights to on-demand infrastructure expands usage and monetisation

From Flight Request to Decision

A simple operating model from user request through to delivered insight.

» Software, remote operations and installed hardware work together as **one workflow**

Three Revenue Streams from One Installed Base

One installed xBot can generate multiple layers of revenue as site usage grows

Hardware

Sell or lease
installed xBot systems

1

Remote Operations

Pay-per-flight missions
operated via RocketDNA ROC

2

Software & Data

Skylink, SiteTube, analytics,
integrations and data access

3

» As adoption expands across departments, each installed system can drive recurring, usage-based and software-based revenue

More Users, More Missions, More Revenue Density

Utilisation growth drives revenue from the same installed asset

The same site asset becomes more valuable as more teams use it more often.

1

Installed

One installed xBot
Foundational operations

2

Adopted

More teams, more missions
Growing utilisation
and site workflows

3

Scaled

Higher utilisation, more value

Deeper insights, faster decisions,
greater revenue density

» The investment case is not just more hardware units. RocketDNA delivers higher utilisation per installed unit

An Inflection Point

Operational traction and early evidence that RocketDNA's infrastructure model is scaling

xBots Deployed²
(Pipeline)³

1. Software-as-a-Service: unique logins to our proprietary Skylink and SiteTube platforms, June 2026 v March 2026.

2. Hardware-as-a-Service: xBots currently being operated as a paid on-going service, 30 June 2026. Dual-skid configuration counted as one unit.

3. xBots currently in manufacture, transport, commissioning or trial phase, 30 June 2026. Excludes once-off hardware sales.

4. Data-as-a-Service: Number of group flight mission requests completed per month, June 2026 v March 2026. Includes ongoing service contracts and trials.

ROCKETDNA 

Software Moat: SkyLink + SiteTube

SkyLink runs the operation. SiteTube distributes the output.

Together they make autonomous drones usable across the whole organisation.

SkyLink

- Mission submission through completion
- Airspace deconfliction built into approvals
- Real-time fleet visibility and telemetry
- Hardware-agnostic and API-first

SiteTube

- Unlimited users, pay per site, not per seat
- Automatic ingest and map-based visualisation
- Open API and SiteDrive integration endpoints
- Built-in video, streaming and 360° panoramas

What it unlocks

- Self-service scheduling across departments
- Operational control at 100+ unit scale
- Consistent mission cadence and auditability

Why it matters

- Makes drone data usable by the whole site
- Removes manual handoffs into customer workflows
- Strengthens software and data revenue over time

Land, Utilise, Integrate, Expand

A simple growth model for customer expansion and recurring revenue

» The model scales through deeper site adoption first. Then broader customer rollout

Investment Summary

RocketDNA is building shared aerial intelligence infrastructure, not just deploying drones.

Installed infrastructure

Autonomous drone systems installed permanently at customer sites

Blended Revenue Mix

Hardware, remote operations, software and data from the same installed base

Higher Utilisation per Site

More users and more missions lift revenue density without one-for-one hardware growth

Software layer matters

SkyLink and SiteTube make the infrastructure usable across teams and workflows

Mining-first Expansion

A strong mining use-case with adjacency into inspection, security and enterprise asset workflows

Embedded in Customer Workflow

APIs and integrations increase stickiness and improve revenue quality over time
