State Street Global Advisors, Australia Services Limited announces the appointment of Meaghan Victor as a director, effective 23 July 2026. Ms Victor has been appointed following the resignation of Jonathan Shead as a director, also effective 23 July 2026.

Ms Victor joined State Street Investment Management in September 2017 and has held a number of senior leadership roles across the business, including Head of SPDR ETFs Australia, Head of SPDR ETFs Australia and Singapore, Head of SPDR ETFs Asia Pacific Distribution and, most recently, Head of Intermediary Client Coverage, Asia Pacific. Ms Victor has more than 30 years' experience in financial services and brings extensive investment product, distribution, governance and regulated financial services experience to the Board.

The Board thanks Mr Shead for his significant contribution to State Street Investment Management over more than 25 years with the firm, including his leadership, experience and commitment to the business, the Board and its clients.

State Street Investment Management is the business name for State Street Global Advisors, Australia, Limited (AFSL 238276, ABN 42 003 914 225), the parent entity of SSGA, ASL.

SSGA, ASL is the issuer of interests and the Responsible Entity for the ETFs which are Australian registered managed investment schemes quoted on the AQUA market of the ASX or listed on the ASX.

This material is general information only and does not take into account your individual objectives, financial situation or needs and you should consider whether it is appropriate for you. You should seek professional advice and consider the product disclosure statement, available at ssga.com, before deciding whether to acquire or continue to hold units in an ETF. Target market determinations are also available at ssga.com. This material should not be considered a solicitation to buy or sell a security.

ETFs trade like stocks, are subject to investment risk, fluctuate in market value and may trade at prices above or below the ETF's net asset value. ETFs typically invest by sampling an index, holding a range of securities that, in the aggregate, approximates the full index in terms of key risk factors and other characteristics. This may cause the fund to experience tracking errors relative to performance of the index. Investing involves risk including the risk of loss of principal.
