ASX ANNOUNCEMENT 23 July 2026

ACTIVITIES REPORT AND APPENDIX 4C

Highlights:

- **Strong Cash Position Supports Strategic Options:** With $4M cash following the capital return, Beam continues to assess further asset sales, additional shareholder distributions and potential transactions to reposition the Company for renewed growth.
- **Normalising Operating Cashflow:** Underlying operating cashflow would have been positive by approximately $82K in the quarter excluding one-off redundancy, termination and divestment-related payments, compared with the reported operating cash outflow of $168K.
- **Cost Base Materially Lower:** Right-sizing continues to deliver benefits, with operating costs down 5.3% QoQ and 65.9% PCP, supporting Beam's objective of maintaining positive operating cashflow.
- **Continuing Business Performing to Expectations:** Excluding discontinued low-margin Zoleo device sales and completed Iridium equipment contracts, Beam's continuing underlying operations remain broadly in line with expectations and are holding well against the PCP.
- **Revenue Reflects Strategic Reshaping:** Q4FY26 revenue of $2.9M was largely steady QoQ and down 34% PCP, primarily due to the exit from low-margin Zoleo device sales and completion of Iridium contracts; recurring airtime and services revenue increased 3.6% QoQ.

Beam Communications Holdings Ltd (ASX: BCC, "Beam" or the "Company") is pleased to provide an overview of activities and commentary for the three months ended 30 June 2026 (Q4FY26), to accompany the Appendix 4C.

Summary of Cash Position

Beam recorded a $168K cash outflow from Operating Activities in the quarter due to one-off payments relating to staff redundancies and terminations, together with incentive payments relating to the divestment of Zoleo Inc. Excluding these payments, operating cashflow would have been positive by approximately $82K in the period.

Beam continues to benefit from its right-sizing initiative, with operating costs declining a further 5.3% Quarter-on-Quarter (QoQ) and 65.9% over the previous corresponding period (PCP).

Beam ended the quarter with a cash balance of $4 million following the capital return to shareholders. Subject to finalisation of the full-year accounts, the Company expects FY26 underlying operating cashflow to be positive and continues to target positive operating cashflow in FY27.

Operating Activities

Beam continues its transformation following the divestment of its shares in the Zoleo joint venture. Total operating revenue in Q4FY26 was largely steady QoQ and declined 34% PCP to $2.9 million, primarily due to the absence of low-margin Zoleo device sales and the completion of Iridium equipment contracts, which lifted Beam's Q4FY25 revenue.

The Company anticipates delivering a positive underlying operating cashflow position for FY26, subject to finalisation of the full-year accounts, supported by its cost optimisation program.

Recurring revenue from airtime and services, excluding Zoleo, increased 3.6% QoQ and declined 4.1% PCP to $531K in the quarter. This recurring revenue base remains stable and provides an ongoing source of predictable income.

Core Beam hardware revenue was $2.1 million, down 24.6% PCP and 4.7% QoQ. The PCP comparison was affected by the completion of Iridium equipment contracts in the prior period. Revenue in this business unit can be lumpy due to the timing of customer orders and deliveries.

The decline in hardware sales from Beam's SatPhone Shop business is easing. Revenue from this business fell 21.7% PCP to $261K in Q4FY26, largely due to discontinued Zoleo device sales, and was 5% below the previous quarter as sluggish consumer sentiment weighed on the result.

Importantly, Beam's continuing underlying operations remain broadly in line with the Company's expectations and are not showing signs of material deterioration. Excluding discontinued Zoleo device sales and completed Iridium equipment contracts, the core Beam business is holding well against the PCP, supported by stable recurring airtime and services revenue and a materially reduced cost base.

Revenue comparisons continue to reflect the deliberate reshaping of the business. Beam continues to evaluate strategic options, including further asset sales, additional cash returns to shareholders and potential transactions to reposition the Company for renewed growth.

Investing and Financing Activities

During the quarter, Beam recorded a net cash outflow of $12.2 million from Financing Activities, primarily relating to the capital return to shareholders, and an outflow of $2K from Investing Activities for equipment purchases.

This announcement has been approved by the Board of Directors.
